15	Allocations from Emergency Fund -----	-	\$10,840	-	
16	TOTAL EXPENDITURES -----	\$2,792,804	\$3,462,315	\$3,823,394	\$361,079
17					(10.4%)
18	GENERAL ANALYSIS				
19	<i>Number of positions</i> -----	<i>676.3</i>	<i>866.1</i>	<i>944</i>	<i>77.9</i>
20	POPULATION AND UNIT COSTS				
21	Average population -----	3,277	3,500	3,500	-
22	Per capita cost -----	\$852	\$986	\$1,092	\$106
23					(10.8%)
24	Total expenditures for support in 1951-52 amount to \$3,823,394, an increase of \$371,919, or 10.8 percent, over 1950-51. No change in average population in 1951-52 from 1950-51 is anticipated.				
25	SALARIES AND WAGES: The increase of \$268,775 is accounted for as follows:				
26	106.1 New positions at a cost of \$272,452 account for the increase. Complement positions affecting all hospitals are explained under "State Hospitals and Homes for the Mentally Deficient" following the departmental summary, and the 6.4 miscellaneous positions are explained below.				
27	2 Automotive equipment operators are required to provide for the transportation of food to the new wards, to collect garbage by truck in lieu of patient hauling by pushcart from the wards to the garbage pit, which is an insanitary procedure. This change in procedure was recommended by the Department of Public Health inspectors.				
28	0.4 Chiropodist to increase to full time to give needed attention to the foot problems of the children in this institution.				
29	1 Clinical laboratory technician is required due to an intensified medical program, including the requirements of the medical consultants.				
30	1 Teacher for cerebral palsied children is requested as the number of students that one teacher can instruct is small, and the load for instruction is beyond the capacity of the present instructor.				
31	1 Locksmith is required for the repair of locks, door closers, extraction of broken keys and their replacement, and release a carpenter for the performance of necessary maintenance jobs presently being deferred because of insufficient time.				
32	1 Groundsman and flower gardener is necessary to operate power mower equipment on the 12 additional acres to be added when the new buildings are opened, and for the propagation of trees, flowers, and shrubs. There are three paid employees for the present 27 acres of lawn.				
33	OPERATING EXPENSES: The increase of \$95,088 is accounted for as follows:				
34	The enriched food ration -----				\$39,270
35	The augmented clothing ration -----				35,000
36	The increased light, heat, and power costs -----				2,610
37	The increased size of the dairy herd -----				5,000
38	The increased poultry costs for turkey production -----				4,000
39	The increased travel allotment for in-service training -----				4,200
40	Other items of change account for the balance -----				5,008
41	EQUIPMENT: The amount of \$102,150 includes \$44,792 for replacement and \$57,358 for additional equipment. The following are significant items of additional equipment: office equipment for new positions, \$7,799; accounting machine, \$1,500; garbage truck, \$2,950; pick-up truck, \$1,325; laundry washer, \$2,715; dry tumbler, \$1,442; laundry folder, \$4,125; fork lift truck, \$2,678; heifers, \$1,000.				
42	REIMBURSEMENTS: A total of \$71,820 is estimated for 1951-52, an increase of \$8,570 over 1950-51, primarily from meal sales to employees.

OFFICE OF THE ADJUTANT GENERAL

The Office of the Adjutant General includes: the California National Guard to help guarantee internal security of the State and provide an organization prepared in an emergency to become a part of the national military forces; the California Defense and Security Corps for defense and security of California while the California National Guard is in federal service; and the California Cadet Corps for military training of high school students.

62					

The 1951-52 Fiscal Year Budget provides for the retention in state service of part of the National Guard and in addition for the expansion of the California Defense and Security Corps. Provision for operation of both the National Guard and the Security Corps is considered necessary due to the uncertainty brought about by the war emergency.

The California Cadet Corps is continued on the basis of training approximately 6,250 cadets in approximately 105 high schools.

24	Totals, Adjutant General's Office				\$32,370	\$31,222	\$32,727
25	HEADQUARTERS STAFF						
26	Analysis						
27	This function provides for the following sections: Executive, comptroller, personnel, supply, and operations and training.						
28	Activities of the headquarters staff are continued at approximately the 1950-51 level. Induction of the 40th Division into federal service has not materially effected the volume of administrative services required for operations of the remaining National Guard units and the newly organized California Defense and Security Corps.

MAINTENANCE AND OPERATION OF INSTALLATIONS

Analysis

This function provides for the maintenance and operation of state-owned and leased armories and other air and ground installations including the training camp at San Luis Obispo.

Salaries and wages are increased \$83,803 and operating expenses \$67,057 to provide full year maintenance, and operation of armories completed in the Fiscal Years 1950-51 and 1951-52 and for the maintenance of installations leased to the State by the Federal Government. The Federal Government in turn reimburses the State in part for many of the maintenance expenditure items. During 1951-52 this reimbursement is estimated to be \$213,788.

Major equipment items include floodlights, drinking fountains and grounds maintenance equipment.

Active duty salary ranges for military classifications are the lowest and highest amount payable to the incumbents during 1949-50, 1950-51, and 1951-52.

50							
51	Analysis						
52							
53	This function is concerned with the expenses related to the field units of the California National Guard which are not paid for by the						
54	Federal Government. It includes administrative help for headquarters units, expenses for recruiting, medical examinations, officers'						
55	uniforms, provision for officer candidate schools, and week-end field exercises.						
56	This function shows a decrease due to the induction into federal service of approximately one-third of the California National Guard units.

DEPARTMENT OF MOTOR VEHICLES

Registers motor vehicles and maintains registration records, licenses operators of motor vehicles, enforces the provisions of the financial responsibility law relating to vehicle accidents and collects the "in lieu" tax on motor vehicles.
 The Motor Vehicle Fund finances the major portion of the activities of the department.
 The Motor Vehicle License Fee Fund finances in part those activities connected with the collection of the "in lieu" tax.

GENERAL ANALYSIS

54	Number of positions	2,124.7	2,296.8	2,404.8	108
55					
56	Other than added provision for the issuance and service of suspension and revocation notices of drivers' licenses the functions of the				
57	department remain the same. However, provision has been made for an increased work load in the Division of Registration, expansion				
58	in the driver improvement program, and for more adequate service in the issuance of drivers' licenses.				

DEPARTMENT OF MOTOR VEHICLES—Continued

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	DIVISION OF ADMINISTRATION						
2	Analysis						
3							
4	This function includes the office of the director, and the general administration, and fiscal and personnel sections.						
5	One additional position and vehicle for daily messenger and delivery service between Sacramento and San Francisco are recommended.						
6	Two positions of laborer are also recommended to assist in the handling of files, crates and supplies, primarily in the mechanical						
7	tabulating section.						
8	Other major items of increase and change from the current year are provided under operating expenses for service of notices of suspen-						
9	sion or revocation of drivers licenses (\$62,500) and for printing of Vehicle Codes (\$30,000). The procedure for processing of notices						
10	of suspension or revocation, commonly referred to as "brief service," has been delayed awaiting an opinion from the Attorney Gen-						
11	eral. This opinion received December 12, 1950, ruled that drivers licenses, etc., must be picked up by either the California Highway						
12	Patrol or the Department of Motor Vehicles. However, if the Department of Motor Vehicles is to perform this function rather than						
13	the California Highway Patrol, as expressed by the 1950 Legislature, the amount requested is estimated to be necessary.						
14							
15

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)				
1								
2	DIVISION OF REGISTRATION							
3								
4	Analysis							
5								
6	This function provides for the registration of all motor vehicles and for the processing of all transactions related to such registration.							
7	Increases are due to provision for an increased work load brought about by estimated additional automobile registrations and related							
8	transactions.							
9								
10								
11	Comparative Work Load							
12					ACTUAL	ESTIMATED	ESTIMATED	CHANGE FROM
13	REGISTRATIONS				1949-50	1950-51	1951-52	1950-51
14	New vehicles -----				546,893	569,949	457,292	—112,657
15	Nonresidents -----				129,000	132,310	131,362	—948
16	Renewals -----				4,203,946	4,386,574	4,907,740	521,166
17								
18	Total Registrations -----				4,879,839	5,088,833	5,496,394	407,561
19	Other transactions -----				1,518,013	1,672,853	1,758,846	85,993
20								
21	Totals -----				6,397,852	6,761,686	7,255,240	493,554
22								(7.3%)
23	In the manual processing section increases in the various functional activities, such as transfers of ownership, engine changes, renewals,							
24	duplicate plates, information requests, etc., in addition to the estimated additional new registrations, make the addition of 54 man-							
25	years of temporary help necessary.							
26	In the mechanical processing section where the official registration and ownership documents are prepared by means of tabulating							
27	cards, an additional work load will result. Based upon the number of tabulating cards required and the related tasks necessary to							
28	process these cards, 21 additional positions are requested.							
29

14	DIVISION OF DRIVERS' LICENSES						
15	Analysis						
16	This function contains provision for licensing of drivers including: testing of applicants, issuance of licenses, and suspension and revo-						
17	cation of licenses under the drivers' improvement program.						
18	Additional activities requested provide for the employment of consultants (\$6,500) to set up procedures and to instruct examiners in						
19	the techniques of testing heavy equipment operators, and the extension to a 24-hour six-day a week basis the information service to						
20	law enforcement agencies regarding the status of certain drivers licenses.						
21	Provision has also been made for a 20 percent expansion in the drivers' license improvement program by the addition of 5 examiners, 3						
22	clerks, and \$18,360 in overtime help.

2	FINANCIAL RESPONSIBILITY						
3							
4	Analysis						
5							
6	This function contains provision for administration of the Financial Responsibility Law regarding motor vehicle accidents.						
7	The work load is estimated to increase approximately 15 percent. It is estimated that the increase can be absorbed by refinements in						
8	methods of service without the addition of personnel.						
9

2	LAND AND BUILDINGS						
3							
4	Analysis						
5							
6	Includes the maintenance, operation, and repair of all office buildings either owned or leased by the Department of Motor Vehicles.						
7	The increases in this function are due to the following :						
8	1. Physical separation of the Department of Motor Vehicles and the California Highway Patrol at twelve locations ;						
9	2. Establishment of offices in Blythe, Fort Bragg, Oceanside, San Fernando, Antioch-Pittsburg and three additional in San						
10	Francisco.						
11	3. Provision for necessary building maintenance.

Department of Natural Resources

DEPARTMENTAL ADMINISTRATION

The Department of Natural Resources administers the conservation laws of the State and those relating to the development of its natural resources. Departmental administration provides for the office of the director, the accounting section, the property section, and the personnel section which serve all divisions of the department and coordinates the conservation education program.

1	MAINTENANCE						
2	Analysis						
3							
4	Provision is made in this function for maintenance and operation of beaches, parks, historical monuments, and riding and hiking in the State Park System and for maintenance of riding and hiking trails.						
5							
6	SALARIES AND WAGES: \$1,124,377, an increase of \$40,756 due primarily to the following:						
7	2 Additional state park rangers, grade 2, for maintenance of newly developed riders' and hikers' trails in the following areas:						
8	One for San Mateo and Marin Counties and one for Los Angeles and Kern Counties.						
9	1 Additional state park ranger, grade 1, for maintenance and protective care at the Petaluma Adobe Historical Monument which is proposed for acquisition in 1950-51.						
10	Additional seasonal help in amount of \$10,890 necessary due to increased park and beach attendance and \$880 to provide for maintenance of newly acquired beach area.						
11							
12	OPERATING EXPENSES: \$371,447, an increase of \$6,715 from 1950-51, representing provision for maintenance of facilities completed during 1949-50, maintenance of additional riders' and hikers' trails, and provision for historical monument plaques.						
13							
14	EQUIPMENT: \$45,039, a decrease of \$34,648 from 1950-51. The principal additional items provide for five pickup trucks for newly developed parks and additional riders' and hikers' trails; two skiploaders and a dump truck for care of existing parks; and fire fighting equipment for areas inadequately equipped.						
15							
16

29	ENGINEERING AND PLANNING						
30	Analysis						
31	This function surveys sites; prepares plans for construction projects, not exceeding \$10,000 in cost, for the development and main-						
32	tenance of beaches, parks, historical monuments, and riding and hiking trails; inspects construction; surveys property boundaries;						
33	prepares landscaping studies; and provides engineering surveys for projects to be constructed by the Department of Public Works.						
34	Activities are continued at the 1950-51 level with more emphasis to be placed on boundary surveys and development of riding and hiking						
35	trails with a decreased park construction program.

DIVISION OF FISH AND GAME—Continued

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	GENERAL ANALYSIS				
2					
3					
4	Number of positions-----	661.9	704.9	738	33.1
5					
6	The 1951-52 Fiscal Year Budget continues current activities of the division and provides for expansion in operations of the Bureau of Fish Conservation and Game Conservation for additional facilities provided from the Wildlife Conservation Board's acquisition and construction program. Provision is also made to finance the State's share of a new Federal Government fish restoration and management program as provided by the Dingell-Johnson Act.

26								
27	Analysis							
28								
29	Conservation and protection of fish and game through educational and informational means is the function of this section.							
30	The requested increase is due primarily to printing an additional number of the Fish and Game Quarterly and reprints of conservation							
31	education publications. Additional photographic equipment is included to provide illustrations for publications and for showing							
32	films, etc., to various public groups.							
33

1	PATROL AND LAW ENFORCEMENT						
2	Analysis						
3							
4							
5							
6	Enforcement of the hunting and angling provisions of the Fish and Game Code is the responsibility of this function.						
7	The 1950-51 level of expenditures is continued with increases for full year operation and maintenance of an airplane, a patrol boat						
8	and radio equipment acquired during 1950-51.						
9	Major equipment items provide for a 28-foot boat to patrol the Santa Monica Bay and Catalina Island waters, radar for the patro						
10	boat Bonita, a direction finder for the Albacore, a jeep and trailer to service boats and the replacement of 45 automobiles for land						
11	patrolling.

LINE	SUPPORT EXPENDITURES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	MARINE FISHERIES						
2	Analysis						
3	This function regulates commercial fishing and conducts research for utilization and conservation of marine life.						
4	SALARIES AND WAGES: An increase of five positions provides for the continuation of positions, formerly included in the Marine						
5	Research Committee budget. To operate fully the research vessels these positions are needed and required to secure maximum use						
6	of the large investment in vessels and equipment. The maximum use is therefore provided independent of the Marine Research						
7	Committee program. One additional intermediate account clerk position is recommended for compilation of statistical data on						
8	commercial fish catches. Reports required by the Fish and Game Code have been delayed due to a lack of clerical assistance.						
9	OPERATING EXPENSES: Printing of research studies and commercial fish catch reports and the operation of a newly acquired						
10	research boat represents the major items of increase.						
11	EQUIPMENT: Major items are as follows: Additional office equipment including dictaphones, calculators, and typewriters; one addi-						
12	tional automobile for biologists; additional boat equipment for the two research vessels; and the replacement of eight automobiles.						
13	SALARIES AND WAGES

51	FISH CONSERVATION						
52							
53	Analysis						
54							
55	For the management and propagation of fresh water fish this bureau operates hatcheries, plants fish, carries on fish rescue and stream improvement work, and conducts biological research.						
56	The following new activities are reflected in the 1951-52 Fiscal Year budget:						
57	Under the federal Dingell-Johnson Act, the State will participate in a program of fish restoration and management. Federal funds equal to 75 percent of the project's expenditures will be received.						
58	Included in the State Water Pollution Control Board budget is provision for pollution studies related to fish and game. It is contemplated that funds will be made available to the Division of Fish and Game for these studies. The necessary automotive equipment, etc., is provided in the Division of Fish and Game budget, to be repaid on a reimbursement basis.						
59							
60							
61							
62							
63							
64	SALARIES AND WAGES: Proposed new positions include the following:						
65	1 Supervising fisheries biologist						
66	1 Assistant fisheries biologist						
67	1 Intermediate stenographer-clerk						
68	To coordinate fish restoration and management projects under the federal Dingell-Johnson Act. These projects will be 75 percent reimbursed by the Federal Government.						
69	2 Fish hatchery man						
70	18 Fish hatchery assistant						
71	To provide for new fish hatcheries estimated to be operating in 1951-52.						
72							
73							
74	OPERATING EXPENSES: The increase provides for additional fish food for expanded hatchery production and the raising of more catchable size fish and traveling and related expenses for additional positions.						
75							
76							
77	EQUIPMENT: Major items requested include the following: seven automobiles and necessary office equipment for water pollution control work and for fisheries management projects under the federal Dingell-Johnson Act; two tractors with transport trucks for stream improvement work; laboratory equipment for research work; and additional operating equipment for hatcheries.

30	GAME CONSERVATION						
31							
32	Analysis						
33							
34	Operation of game farms and game management areas, research into habits of game animals and control of predators are the primary						
35	function of this bureau.						
36							
37	SALARIES AND WAGES: New positions have been provided as follows:						
38	Associate game manager—management and utilization of the expanded cooperative hunting area program requires additional						
39	personnel. Seventy-two thousand acres were included in 1949 and in 1950 150,000 acres.						
40	Three associate game managers—one each at Imperial, Honey Lake, and Madeline Waterfowl Management Areas in order to						
41	completely develop and utilize these areas for production of cereal crops.						
42	Two assistant game managers—to effect management plans for deer herds to prevent extensive damage of agriculture crops						
43	and the natural forage.						
44							
45	OPERATING EXPENSES: The current level of expenditure is continued with increases for cooperative hunting area hunter identi-						
46	fication markers, game food, and provision for new positions.						
47							
48	EQUIPMENT: The major items provide dictating equipment for the chief and assistant chief of the bureau, four sedans and two						
49	pickup trucks for use by added personnel, operating equipment (tractors, pumps, mowers, seeder, etc.) for operation of game						
50	farms, refuges and management areas, and the replacement of 34 automobiles and three tractors.						
51

WILDLIFE CONSERVATION BOARD

The Wildlife Conservation Board created by Chapter 1325, Statutes of 1947, is charged with administration of the Wildlife Restoration Fund in accordance with the Wildlife Conservation Act for the betterment of wild life and recreation in the State. The board is composed of the Director of Finance, the President of the Fish and Game Commission, and an employee of the Division of Fish and Game appointed by the commission. In addition to the board the act created a joint interim investigating advisory committee consisting of three Members of the Senate, appointed by the Committee on Rules, and three Members of the Assembly, appointed by the Speaker.

DIVISION OF FORESTRY

The Division of Forestry is responsible for the prevention and suppression of forest fires occurring on all state and private lands having state-wide interest values; for furnishing fire protection on a reimbursable basis to counties on request for local rural areas; for administration and enforcement of forest practice rules; for forestry advisory services; for range improvement programs; for production of nursery stock for public plantings, windbreak, soil erosion control, and reforestation purposes; for management of state forests; for control of white pine blister rust and forest insect infestations in cooperation with federal and private agencies; and for cooperation with Federal Government on forest surveys.

GENERAL ANALYSIS

Number of Positions:

Regular	454.1	457.2	463.9	6.7
Seasonal—equivalent man-years	1,279.4	1,370	1,366.7	3.3
Totals	1,733.5	1,827.2	1,830.6	10

Current activities are continued at the present level of service. Additional fire suppression crews at Cazadero, Sonoma County and Loma Rica, Yuba County, and personnel for extended administration and enforcement of the Forest Practices Act have been provided. Radio maintenance service will be furnished on a contractual basis by the Division of Communications, Department of Finance, during 1951-52.

No new functions are recommended; however, expanded services include the following:

1. Additional fire suppression crews, one at Cazadero, Sonoma County, and one at Loma Rica, Yuba County.
2. Four additional positions to extend the administration and enforcement of the Forest Practices Act.
3. The half-time of six engineering positions formerly charged to construction projects has been included in the Support budget to properly reflect required engineering services.

ADMINISTRATION

Analysis

The function of administration includes the office of the State Forester, business management, fire control, engineering section, and the operation of the Davis warehouse and equipment repair shop.

Salaries and wages and operating expenses reflect a reduction of nine radio technicians and their automobile and travel expenses and an increase in radio maintenance service. This is due to the Division of Communications of the Department of Finance assuming the maintenance of the Division of Forestry radio system as of January 1, 1952, on a contractual basis.

45	FOREST PROTECTION						
46	FIELD OPERATIONS—DISTRICT HEADQUARTERS						
47	Analysis						
48	The Division of Forestry is divided into six administrative districts with activities in each district coordinated through district headquarters:						
49	District headquarters personnel is increased by the one-half time of six assistant civil engineer positions. These positions, formerly charged full time to construction projects, are in part included in support to more properly reflect true costs. Primary duties include: assistance on work planning of forestry work camp projects, surveys for telephone and road rights of way, and maintenance of installations.						
50	Principal equipment items include the following: tools and power equipment for the proposed District II headquarters shop, additional radio sets, and the replacement of worn-out vehicles and office equipment.

1	FIELD OPERATIONS—FIELD SERVICES						
2	Analysis						
3	This function provides for the operation of fire suppression camps and forest fire lookout stations.						
4	The addition of four-man crews, one each, for Cazadero, Sonoma County, and Loma Rica, Yuba County, to provide a fast initial attack						
5	on fires in these critical areas, represents the major increase in this function.						
6	Equipment items provide principally for replacement of crew trucks, pickup pumper trucks, and tractors; fire suppression and field						
7	items, and additional automotive and radio equipment to provide each district with the necessary complement.

26	MAINTENANCE OF IMPROVEMENTS						
27	Analysis						
28	This function provides for personnel assigned full-time to maintenance of Division of Forestry facilities and for necessary materials.						
29	Fire suppression crews during standby periods also assist in maintenance work.						
30	The increase in this function is reflected in repairs, maintenance, and operation of additional Division of Forestry facilities.

13	FIELD OPERATIONS—FORESTRY WORK CAMPS						
16	Analysis						
18	Forestry Work Camps for forest protection and fire suppression work are provided for 285 inmates of the Youth Authority and 475 inmates from the Department of Corrections. Four permanent camps and four "spike" or temporary camps are provided for Youth Authority inmates; and eight permanent camps are provided for Department of Corrections inmates.						
20	Increases in inmate work crew payments representing funds made available to the Department of Corrections and Youth Authority for subsistence, custody, and care of inmates is the major increase in this function. Additional equipment, primarily two trucks to provide an operating complement at two of the camps not fully equipped, is also recommended.

28	FOREST MANAGEMENT						
29							
30	Analysis						
31							
32	Forest management includes administration of the Forest Practices Act to promote sustained productivity of forest lands, consulta-						
33	tion service on farm forestry, and management of state forests.						
34	To more effectively enforce the provisions of the Forest Practices Act (Chapter 85, Statutes of 1945, as amended in 1947) four addi-						
35	tional forestry technician positions are recommended. These positions are a lesser number than requested by the Board of Forestry.						
36	It is suggested that these added positions be used in part to train other forestry employees who do not have the necessary technical						
37	training required for effective enforcement of this act. Also, it is believed, further consideration should be given to the possibility						
38	of reclassifying some of the existing ranger positions, either by shifting of personnel or upon position vacancies, to permit the						
39	employment of more technically trained personnel.

RANGE IMPROVEMENT						
Analysis						
This function provides for range improvement programs in cooperation with private landowners; for experimentation and studies in reseeding, erosion control and related problems; and for special standby brush burning fire protection crews authorized by Chapter 1254, Statutes of 1949.						
Activities of this function are continued at the 1950-51 level with provision for the installation of radios in range improvement vehicles to increase efficiency of operations.

1							
2	EMERGENCY FIRE SUPPRESSION						
3							
4	Emergency fire suppression funds provide additional manpower and equipment for suppression of forest fires that get beyond the ability						
5	of the regular crews to handle.						
6	The 1951-52 appropriation is based on the amount appropriated during recent years. It is believed this amount will be adequate, except-						
7	ing an extraordinarily severe fire season as was experienced during 1950-51.						
8

24	PINE BEETLE CONTROL						
25							
26							
27	This item provides a program for controlling infestations of pine beetles on state and private forest lands. State expenditures for forest						
28	insect control on private lands are on a cash or labor matching basis under rules prescribed by the State Board of Forestry in accord-						
29	ance with Section 4455 of the Public Resources Code.						
30	1951-52 is increased for added control costs and observations of the Division of Forestry and the United States Bureau of Entomology						
31	and Plant Quarantine that insect infestation shows an upward trend over past years.

Department of Natural Resources

DIVISION OF MINES

The Division of Mines encourages and makes special studies of the mineral industry and mineral resources of the State; and publishes results of these studies for sale to the general public and distribution to the libraries; collects and displays typical geological and mineralogical specimens; maintains a library; and serves as a bureau of information to the mineral industries of the State.

13	Budget Act appropriation -----	\$50,000	\$50,000	\$35,000	15,000		
14	TOTAL EXPENDITURES -----	\$371,192	\$373,285	\$385,398	\$12,113 (3.2%)		
15	GENERAL ANALYSIS						
16	Support						
17	Number of positions -----	46	46.7	52.3	5.6		
18	SALARIES AND WAGES: The increase of \$18,805 is accounted for by the following new positions:						
19	Two assistant and one junior mining geologist positions and one clerical position, for field and office work, to expand the program of						
20	investigation and coordinating the known and probable needs of industry and agriculture for metals and nonmetallies with known						
21	and probable resources of the State.						
22	One assistant mining geologist position for field investigation and mapping of geologic formations and mineral deposits of the Klamath						
23	mountain area.						
24	One junior clerk to assist the storekeeper in receiving, storing and shipping of publications.						
25	OPERATING EXPENSES: \$131,833, an increase of \$4,212 from 1950-51 for increased printing costs and a slight increase in field						
26	operations.						
27	EQUIPMENT: \$11,268, an increase of \$4,096 from 1950-51. Additional book and map cases for the library, replacement of one automo-						
28	bile and equipment for two additional positions are the major items.						
29	Other Current Expenses						
30	Geological exploration in cooperation with United States Geological Survey, \$35,000, a decrease of \$15,000 due to the fact that certain						
31	projects have been completed and the division is not ready to initiate corresponding new projects.

Department of Natural Resources

DIVISION OF OIL AND GAS

The Division of Oil and Gas supervises the method of drilling and maintenance of oil wells to prevent waste and damage to the oil and gas deposits and to protect the surface and subsurface fresh water resources from contamination. The division is charged with enforcement of the law to prevent unreasonable waste of natural gas. The division is supported by an annual assessment against oil and gas producers. This assessment is made at a uniform rate for each barrel of oil produced and for each 10,000 cubic feet of gas produced and sold.

Department of Natural Resources

MARINE RESEARCH COMMITTEE

research in the development of commercial fisheries of the Pacific Ocean and of marine products susceptible to being made available to the people of California, as authorized by Chapter 1276, Statutes of 1947. (Payable from additional privilege tax of 50 cents per ton on sardines levied during the four-year period beginning September 19, 1947.)

GENERAL ANALYSIS

Number of positions ----- 2.7 4 -

A slight increase is requested to provide for services desired by the Marine Research Committee. This committee is composed of nine members of which at least five are members experienced in and actively engaged in, the canning or reduction of California sardines. The desired services are to be provided for on a contractual basis with several participating agencies. The expenditure program is predicated upon legislation to be enacted to continue the 50 cents per ton privilege tax provided by Chapter 1276, Statutes of 1947 which will expire on September 19, 1951.

GENERAL ANALYSIS

Number of positions ----- 19 19.2 19.2 -

The budget continues the same program level of expenditures. There are no significant changes in the expenditure categories from the current year. The surplus account shows a balance somewhat in excess of normal which has developed from a delay in making a final decision regarding purchase of equipment for centralizing the licensing and cashing functions of the various boards. The fund balance will adjust itself when this decision is reached.

GENERAL ANALYSIS

Number of positions 16 16.2 16.3 0.1

This budget provides for the same program as presently authorized. Approximately 75 percent of the cost of the hearing function is reimbursed by agencies using these services. Categorical changes are noted as follows:

OPERATING EXPENSES: There is a decrease of \$1,609, which is made up of the following:

The item of printing in the function of administration is decreasing \$450 because the biennial report of the division, printed during 1950-51, will not be printed in 1951-52. Travel expense in the codification function is decreasing \$500, as the Deputy Legislative Counsel will have completed traveling to the law libraries by June 30, 1951. Pro rata departmental administration shows a decrease of \$761.

EQUIPMENT: Shows a decrease of \$4,100. The \$950 requested is made up as follows:

Administration: \$100 for the purchase of miscellaneous small items of equipment, and \$700 for additions to the law library.
Hearings: \$100 for the purchase of miscellaneous small equipment.
Codification: \$50 for miscellaneous small equipment and shelving.

GENERAL ANALYSIS

Number of positions----- 9 9.7 9.7 -

This budget continues at a high work load level the same program as the current year. This high level of activity has only recently been reached when in 1949 legislation was enacted which reopened public accountant licenses to application. The year 1951-52 will have 22,750 public accountant licenses in effect as compared with 17,057 licenses in effect on June 30, 1950.

The revenues are exceeding the expenditures by a substantial margin and a large surplus has been accumulated. Changes in the various categories of expenditures are shown as follows:

SALARIES AND WAGES: The increase of \$145 anticipates less vacant positions.

OPERATING EXPENSES: The increase of \$3,418 is the result of an increase of \$2,675 in the item of printing and \$500 in postage caused principally by the increase in quantity, cost, and size of directory, and \$500 in office expense because of increased cost and work load.

EQUIPMENT: The total of \$819 requested consists of \$200 for miscellaneous small equipment, \$285 for a Kardex cabinet, and two five-drawer legal files for additional applications to cost \$212, and \$120 for the replacement of a worn-out typewriter.

GENERAL ANALYSIS

Number of positions 3.9 4 4

The budget request of this agency for the 1951-52 Fiscal Year reflects a continuation of the same program as currently authorized. Only minor increases are requested for the budget year which occur in the categories of expenditures as follows:

SALARIES AND WAGES: Increase \$447. This increase is due primarily to the expectation of full employment and a minimum turnover in personnel.

OPERATING EXPENSES: Increase \$1,726. The significant item causing this increase is printing and mailing the biennial directory.

EQUIPMENT: Decrease \$109. The amount provided in this category is for the purchase of miscellaneous small items of equipment.

The small balance remaining in the surplus account, coupled with a continued excess of expenditures over revenue, requires that revenue be adjusted to present a balanced budget. The necessary legislation to provide the additional revenue will be recommended to the 1952 Regular Session of the Legislature.

GENERAL ANALYSIS

Number of positions	12	11.3	11.3	-
The work load of the State Athletic Commission is governed almost entirely by the number of boxing and wrestling shows held during the year in California. There were 3,073 shows held during 1946-47 and 2,343 shows held during the Fiscal Year 1949-50 and it is estimated 2,400 shows will be held in each of the 1950-51 and 1951-52 Fiscal Years.				
Compared to 1946-47 the work load of this agency is beginning to show signs of a decrease in the number of shows.				
The decline in revenue is attributed in part to the continued growth of television. The commission will sponsor at the 1951 session of the Legislature, legislation similar to the New York law, which taxes both ticket and television receipts.				
The revenue from admission taxes, licenses and fines has produced sufficient surplus to permit capital construction expenditures from this fund at the Veterans Home at Yountville, California, in the amount of \$66,912 in 1949-50 and \$603,300 in 1950-51. There are no significant changes in the support expenditures of this agency.

BOARD OF BARBER EXAMINERS

Examines, licenses and regulates barbers and apprentices and examines barber shops for sanitary conditions. There should be approximately 17,500 licensed barbers, 4,325 apprentices and 9,500 shops licensed during 1951-52, an over-all increase of 2,516 licenses over the number actually licensed as of June 30, 1950.

GENERAL ANALYSIS

Number of positions ----- 15.5 15.1 15.1 -

This budget request as compared with the current year expenditure program reflects only those increases due to workload growth. The program continues the same as currently authorized. Revenues and expenditures are balanced with a substantial accumulated surplus being shown in the fund statement. Increases in the categories of expenditure proposed over the current year are as follows:

SALARIES AND WAGES: Increase of \$850.

This is due to fuller employment and lack of personnel turnover.

OPERATING EXPENSES: Increase of \$683.

The items showing significant increases over 1950-51 are printing (\$540) and postage (\$100), due to an increased cost and provision for printing and mailing 20,000 copies of the Barber Act; travel (\$500) because of increased work load; examination expenses (\$265) based on an estimated 3,100 persons to be examined, and the holding of 1,000 educational tests. Offsetting is an \$832 decrease in pro rata departmental charges.

EQUIPMENT: Increase of \$832.

The \$1,200 requested consists of \$100 for miscellaneous small equipment, and \$1,100 for the replacement of a light car.

13	GENERAL ANALYSIS				
14	Number of positions-----	1	2	2	-
15	Since the act which created this board became effective on October 1, 1949, it was necessary to obtain a loan from the General Fund in order to finance operations for the period ending June 30, 1950. This loan will be repaid from revenues, and the balance will remain to the credit of the Cemetery Fund which was established by the act. Due to the late start of the board, fees due on May 1, 1950 for the most part were collected after the end of the 1949-50 Fiscal Year, and revenues for the 1950-51 Fiscal Year, as shown, actually include a large portion of the fees applicable to the 1949-50 Fiscal Year. It is estimated that by June 30, 1952, 110 cemetery certificates of authority will have been issued and there will be approximately 900 salesmen and 135 brokers under regulation.				
16	The 1951-52 request represents a full year operation of a new agency which has been budgeted to remain within current revenues.				
17	The largest single item of operating expense is traveling. This provides for travel of board members to meetings and in accordance with the provisions of the act which require that an audit be made of the books of the cemetery corporations being regulated, the administrative assistant who will perform the audits will be required to do a great deal of traveling.

BOARD OF CHIROPRACTIC EXAMINERS

Examines, licenses, and regulates chiropractors, and approves chiropractic schools and colleges. It is estimated there will be approximately 5,400 licensed chiropractors in the State by June 30, 1952; a slight decrease from the 5,409 licensed and in good standing as of June 30, 1949.

GENERAL ANALYSIS

Number of positions 3.8 4.3 4.3 —
The budget request provides for only a slight work load increase. Revenue exceeds actual and estimated expenditures and a substantial balance has accrued in the surplus account of the fund. The following increases in the various categories of expenditure are noted:

SALARIES AND WAGES: Increase of \$499. This increase is due to fuller employment and an increase in the amount required for temporary help.

OPERATING EXPENSES: Increase of \$1,397. This increase is mainly due to travel expense which shows an increase of \$885 caused by amendments to the Chiropractic Act at the last general election, wherein the board has been empowered to approve chiropractic school curriculums, and physical facilities in order to maintain a high standard. Other items showing significant increases are: Examination expense, which shows an increase of \$190 due to the increased cost of rental of facilities for conducting examinations; legal advertising, \$100; and hearing services, \$200.

EQUIPMENT: Amount requested \$624. This provides for \$210 to replace a 6x4, 22 slide, Kardex cabinet originally purchased in 1923, which is completely worn-out and cannot be repaired; \$114 for a five-drawer, legal, file for expansion purposes; \$200 for the purchase of textbooks to be used by the board in the preparation of examination material as well as \$100 for additional miscellaneous small office equipment.

BOARD OF REGISTRATION FOR CIVIL AND PROFESSIONAL ENGINEERS

Examines, licenses, and regulates civil engineers, land surveyors, structural engineers, chemical engineers, electrical engineers, mechanical engineers, and petroleum engineers. It is estimated that approximately 31,230 registrations will be in effect during 1951-52, about 2,100 more than in 1949-50.

GENERAL ANALYSIS

Number of positions----- 21.9 21.7 20.7 —1.0

It is estimated that in the budget year the workload of this agency will increase at only a normal rate after increasing over 300% from 1948 to 1949. A year of experience after this large increase in both workload and staff indicates it is now possible to eliminate a position in the budget year. The net change is a \$239 decrease from the current year expenditures. Revenues continue to exceed the expenditures by a wide margin the accumulated surplus estimated to reach \$472,386 by June 30, 1952.

Changes in the categories of expenditures are noted as follows:

SALARIES AND WAGES—The increase of \$837 is due primarily to an increase of \$575 for examination commissioners and temporary help of \$262 which results from the normal increase of applicants.

OPERATING EXPENSE: The decrease of \$408 is a result of the following changes:

Office—\$175 increase due to increased volume and cost.
Printing—\$1,810 increase cost and size of directory.
Pro-rata departmental administration—\$2,906 decrease.

EQUIPMENT: The amount of \$863 is comprised of \$200 for miscellaneous equipment and technical books; two legal filing cabinets and two Kardex cabinets for expansion and increased workload; and \$65 for a metal, storage, cabinet for housing supplies.

CONTRACTORS' LICENSE BOARD

Examines, licenses, and regulates the activities of contractors in the construction industry. It is estimated 66,675 licenses will be in effect during 1951-52, an increase of 6,276 over the number licensed as of June 30, 1950.

GENERAL ANALYSIS

Number of positions 82.8 81.7 81.7

Provision is made to continue the same program as authorized in the current year. A net decrease of \$18 from the estimated expenditures of the current year is reflected.

As a result of legislation which took effect October 1, 1949, fees were increased so that revenues are now exceeding expenditures and an estimated surplus of \$482,730 will be accumulated by June 30, 1952.

Operating Expenses will decrease due to the reduction in pro rata departmental administration charges.

The Equipment request of \$3,098 provides for filing equipment and office furniture and machines. The more significant items are as follows:

1 Kardex table, \$82; 2 Kardex files, \$590; 5 four-drawer files, \$445; 2 work tables, \$120, for filing folders, etc.; 1 sorter graph \$195, for alphabetical sorting; 1 Addressograph cabinet and base, \$284; and 2 typewriter desks to replace tables now being used by typists.

GENERAL ANALYSIS

Number of positions----- 24.3 24.5 24.5 -

The work load of this agency indicates the number of applicants for examination has dropped off considerably, and this trend is likely to continue. This is due to the fact that training under the G. I. Bill of Rights is practically exhausted and inroads have been made by the wave of so-called "home permanents."

Effective licenses for 1950-51 and 1951-52 show about a 2 percent increase; however, the actual number of persons examined for 1949-50 totaled 2,462 as compared to a previous estimate of 5,450. Estimates for 1950-51 have been revised downward from 4,110 to 2,325 and for 1951-52 at 2,325.

Although the unbudgeted surplus as of June 30, 1952 is estimated as \$131,007, this agency's investment in the Business and Professions Building and Annex is shown as \$136,213, which will require a transfer from the investment account to the current surplus account in order to maintain a liquid condition of the fund.

It is planned to introduce legislation at this session to increase fees sufficiently to cover the disparity between the expenditure program and revenue collected. This will enable the agency to present a balanced budget.

The expenditure categories show significant changes as follows:

OPERATING EXPENSES: Decrease, \$1,167. Significant decrease is noted in pro rata departmental administration, \$1,303.

EQUIPMENT: Decrease of \$3,318. The \$207 requested in this category is composed of \$100 for miscellaneous small equipment and books, and \$107 for one filing cabinet for additional applications.

GENERAL ANALYSIS

Number of positions ----- 5.7 5.4 5.6 0.2

This budget request for the 1951-52 Fiscal Year reflects the increase in work load as evidenced by the increase in the number of licensed dentists from 7,031 in the 1948-49 Fiscal Year to an estimated 8,242 in the 1951-52 Fiscal Year. This is reflected in the increases in the categories of expenditures as follows:

SALARIES AND WAGES: Increase of \$495. This is due primarily to the increase in temporary help required for the biennial directory to be published in the 1951-52 Fiscal Year.

OPERATING EXPENSES: Increase of \$4,502. Items showing significant increases are office expense (\$355) due to price increases, and the inclusion of \$305 for the purpose of overhauling the mimeograph machine; printing increase of \$3,100 and postage (\$810) is for the publication and mailing of 8,500 copies of the biennial report and directory; travel increases (\$605) which includes provision for an out-of-state trip (\$500) to the National Convention of the American Association of Dental Examiners, while automobile operation shows a decrease of \$228 as provision has been made in 1950-51 for a major overhaul of both vehicles.

EQUIPMENT: Increase of \$353. The total of \$560 requested is comprised of \$100 for miscellaneous small equipment; \$99 for a 4-drawer legal file; \$280 for some steel doors and sections for locking up of materials and supplies; \$50 for a parcel post scale; and \$31 for the replacement of 2 metal foot lockers for the transportation of examination materials.

GENERAL ANALYSIS

Number of positions ----- 3.5 3.5 3.5 -

This budget contemplates no work load increase that would cause any significant changes in the expenditure program for the budget year. Salaries and wages show a slight increase in anticipation of full employment and a minimum of turnover. Operating expenses show a net decrease with printing increasing \$110 to provide for copies of the Detective License Act for all licentiates. Equipment request includes provision for \$100 for additional miscellaneous small equipment and an electric typewriter to replace one borrowed from the Departmental Administration Unit and worn out by the Detective License Bureau in a period of over 12 years.

BOARD OF DRY CLEANERS

This agency establishes rules and regulations for the conduct of the dry cleaning industry, examines applicants for licenses and registration certificates, licenses and inspects dry cleaning and dyeing plants and establishes minimum price schedules. It is estimated there will be 22,100 effective licenses during 1951-52, an increase of 1,346 over the number licensed as of June 30, 1950.

GENERAL ANALYSIS

Number of positions----- 18.7 20.3 20.2 0.1

Provision is made for the continuation of the same program as presently authorized. A decrease in the total request results mainly from a decrease in the expenditure for price survey work which was made in connection with the minimum price lists. Revenues are exceeding expenditures and in addition provide for a yearly transfer to the General Fund of \$60,000 in accordance with Section 9575 of the Business and Professions Code. A substantial balance has also accrued in the surplus account. The equipment requirements are also less than the current year by \$1,619. The total in this category of \$2,000 includes the following items:

1. Used school desks, \$124;
2. Replacement of a pressing machine, \$955;
3. Replacement of a sissle steam iron, \$75;
4. Kardex cabinet for expansion purposes due to increased licensees, \$210;
5. Files—two for Sacramento, one for San Francisco and one for the Los Angeles office;
6. An additional 12-inch standard typewriter for use of the semisenior accountant and supervising inspector, as well as various inspectors for use in typing reports at a cost of \$130; and
7. \$150 for miscellaneous small equipment.

BOARD OF FUNERAL DIRECTORS AND EMBALMERS

examines, licenses and regulates embalmers, funeral directors, and apprentice embalmers. It is estimated that 3,875 licenses will be active during 1951-52, approximately 447 more than were actually licensed as of June 30, 1950.

GENERAL ANALYSIS

Number of positions ----- 3.7 3.6 3.6 -

This budget does not propose any change in program for the 1951-52 Fiscal Year. Revenue is exceeding expenditures and a substantial balance has accumulated in the surplus account. Those small increases which are reflected in the categories of expenditures result primarily from work load and price increases. These increases in the various expenditure categories and reasons for them follow:

SALARIES AND WAGES: Increase of \$247. This is due to anticipation of full employment and less turnover in personnel.

OPERATING EXPENSES: Increase of \$1,505.

The items showing significant increases are:

Printing—\$1,035. Required to print 1,000 directories to cost \$500, and 4,000 copies of the act at a cost of \$500.

Automobile Operation—\$280 increase because of increased inspections necessary to more properly cover the field.

EQUIPMENT: Total requested \$100 for miscellaneous small items.

BUREAU OF FURNITURE AND BEDDING INSPECTION

Licenses and regulates sellers and processors of overstuffed furniture and articles of bedding to insure truthful labeling. Total effective licenses during 1951-52 is estimated at 15,050, an increase of 362 over the number licensed as of June 30, 1950.

GENERAL ANALYSIS

Number of positions 32.9 33.2 33.2 -

This budget provides for the continuation of the existing program. In spite of an increase in work load, economies of operation result in an over-all decrease of \$1,149. Estimated expenditures exceed estimated revenues slightly as a result of a reduction in license fees. Changes in the various categories of expenditure are as follows:

OPERATING EXPENSES: The increase of \$552 is the result of a combination of factors, the principal one being a decrease in pro rata departmental charges of \$1,266, which is offset by a \$750 increase in printing expense due to the inclusion of provision for the biennial printing of 5,000 copies of the Furniture and Bedding Bulletin, at a cost of \$1,100. Automobile mileage shows an \$800 increase based upon the number of inspectors now driving personal cars and the estimated mileage they will travel as a result of the estimated increased number of inspections.

EQUIPMENT: The decrease of \$1,897 is to provide \$100 for miscellaneous small equipment; a filing cabinet for expansion at a cost of \$78; \$100 for miscellaneous additional small equipment needed in the laboratory, and \$240 for the replacement of miscellaneous laboratory testing equipment.

GENERAL ANALYSIS

Expenditures are to be maintained at the 1950-51 level. The functions of this agency are performed by the departmental administrative staff since the board is not large enough to have a staff of its own. Expenditures are entirely under "operating expenses" with no increases over 1950-51.

GENERAL ANALYSIS

24	Number of positions	17	16.4	16.4	-
25					
26	The work load of this agency continues to increase in proportion to the expanding population of the State. A balanced budget is presented				
27	with a consistent yearly increase in the unbudgeted surplus balance. The following categorical changes in the expenditure program				
28	point out the significant differences between the current and budget years:				
29					
30	OPERATING EXPENSES: The increase of \$3,081 is due to increased printing cost because of increased size and quantity of direc-				
31	tory of \$1,865 and \$450 additional for postage. An increase of \$670 to operate the additional automobile requested and to provide for				
32	overhaul of three present cars. A decrease of \$700 for automobile mileage.				
33					
34	EQUIPMENT: The amount of \$2,325 includes an additional automobile at \$1,625 for one of the investigators now driving his personal				
35	car an estimated 1,800 miles per month; \$618 for additional office includes books and miscellaneous equipment \$200; one Kardex				
36	cabinet \$236; one Kardex table \$75; one 5-drawer file \$107; and \$82 to replace two stenographer chairs.				
37

BOARD OF NURSE EXAMINERS

Examines, licenses, and regulates the practice of nursing in California, as well as setting the curriculums of schools of nursing throughout the State. It is estimated there will be 68,000 nurses registered in the State by June 30, 1952, an increase of 3,062 over the number licensed as of June 30, 1950.

GENERAL ANALYSIS				
Number of positions	14.9	16.5	16.5	
The work load of this agency continues to increase, however operating economies are reflected by use of the punch card method of handling statistical and license renewals which results in an overall decrease in the budget year. Expenditures are slightly exceeding the revenues, however a large surplus has accumulated to the credit of the fund.				
Changes in the various categories of expenditures are shown as follows:				
SALARIES AND WAGES: The decrease of \$1,120 is principally a reduction of \$1,170 in the amount required for temporary help because of savings which will accrue incidental to the adoption of the punch card system of handling statistical and license renewal operations.				
OPERATING EXPENSES: The decrease of \$3,259 is a result of changes in the following items: A reduction of \$4,000 in the cost of sorting and tabulating because original sets of tabulating cards will have been set up and maintenance only will be required. Office expense shows a reduction of \$2,275 because all folders and supplies for revamping the files will have been purchased. Offsetting these reductions is an increase of \$1,960 in the item of printing and \$905 in postage due to increased costs, and size of directory, also printing and mailing 70,000 copies of Nurses Practice Act.				
EQUIPMENT: The total of \$1,049 is comprised of three 5-drawer, lettersize files for handling an estimated 4,100 new record cards, one 5-drawer, legal size file for handling investigators case records in the Los Angeles office, and \$150 for miscellaneous office additional equipment.

BOARD OF OPTOMETRY

Examines, licenses and regulates optometrists, of whom there will be approximately 2,060 by June 30, 1952, as compared with 1,734 as of June 30, 1949.

Office at Sacramento

EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
SUMMARY AND RECONCILIATION WITH APPROPRIATIONS				
State Optometry Fund				
SUPPORT				
Budget Act appropriation-----	\$26,187	\$25,235	\$27,411	
Allocations from Salary Increase Fund-----	830	—	—	
Deficiency authorization-----	—	170	—	
Totals Available-----	\$27,017	\$25,405	\$27,411	
Unexpended balance, estimated savings-----	—2,996	—	—	
TOTAL EXPENDITURES FOR SUPPORT -----	\$24,021	\$25,405	\$27,411	\$2,006
Contributions to Employees' Retirement Fund-----	930	1,052	1,062	10
TOTAL EXPENDITURES -----	\$24,951	\$26,457	\$28,473	\$2,016 (7.6%)

GENERAL ANALYSIS

- Number of positions----- 3 3 3
- It is anticipated there will be an increase of approximately 13 percent in the number of optometrists licensed by June 30, 1952, over those licensed as of June 30, 1950. Due to the fact that California colleges of optometry have added a year to their courses, applicants for examination during the 1950-51 Fiscal Year will fall short of the number received during the 1949-50 Fiscal Year. However, these graduates will become eligible during the 1951-52 Fiscal Year, at which time the board expects to examine considerably more than in the past.
- Over-all expenditures for support shows an increase of \$2,016 over estimated 1950-51 expenditures, an increase of 7.6 percent as compared with an estimated 13 percent increase in the total of effective licenses.
- This budget presents a balanced fund condition and does not propose any change in program. The increases in the categories of expenditures shown as follows are due primarily to price and work load increases.
- SALARIES AND WAGES:** Increase of \$1,294. Of this amount \$570 is due to an increase in board member per diems for preparing and grading examination papers and anticipated additional board meetings for regulatory purposes, as well as an additional \$605 for temporary help for the employment of more clinical patients and proctors that will be necessary to conduct the larger class of examinees.
- OPERATING EXPENSE:** Increase of \$698. This increase results from anticipated additional traveling, printing, legal advertising, hearings and evidence, and hearing services which are all directly due to the additional regulatory measures being taken and increased work load.
- EQUIPMENT:** Total requested \$247 includes a file cabinet for expansion purposes, a portable typewriter for use of the executive secretary in the field and office, and \$50 for miscellaneous small items of equipment.

GENERAL ANALYSIS

Number of positions----- 17 20.5 20.5 -

The budget year reflects a continuation of the same program in effect in the current year. A slight decrease is reflected indicating some stabilization after the changes brought about by the enactment of Chapter 569, Statutes of 1949, which increased many of the fees and Chapter 933, Statutes of 1949, known as the "Dangerous Drug Act." The revenues are exceeding the expenditures and a substantial balance is accruing in the surplus account. Changes are reflected in the various expenditure categories as follows:

SALARIES AND WAGES: The decrease of \$223 is due principally to a decrease in temporary help.

OPERATING EXPENSES: Of the \$1,383 increase, \$840 is attributable to an increase in pro rata departmental administration charges, \$800 in travel, and an increase of \$432 in the item of printing due to work load and price increases, offset by a reduction of \$500 for postage. All other items are in line with estimated expenditures for 1950-51.

EQUIPMENT: This category reflects a reduction of \$1,474 over 1950-51. Total requested is the sum of \$200 for miscellaneous equipment and books.

GENERAL ANALYSIS

Number of positions----- 2 2 2 -

The estimated registrations during 1951-52, of 3,870, are substantially the same as during 1950-51. Although the board issues between 165 and 180 new certificates each year, the rate of turnover is such that there is very little over-all increase in the total number of effective registrations. This trend is expected to continue as long as the law is kept on a permissive basis.

The revenue is continuing to exceed expenditures and a good protective balance is accruing in the surplus account. Changes are reflected in the expenditure categories as follows:

SALARIES AND WAGES: Increase \$476, of which \$126 reflects a minimum of personnel turnover, and \$350 temporary help for expert examiners in preparing and grading papers. These services, heretofore, have been secured free of charge from faculty members of schools.

OPERATING EXPENSES: Increase \$1,158. The principal items causing this increase are:

Printing—\$687 to provide for 5,000 copies of the biennial report at a cost of \$350, and 7,000 copies of a research pamphlet to cost \$420.

Traveling—\$360 for additional board meetings. Because of insufficient funds in the budget, the board held some meetings during 1949-50 at its own expense.

Postage—\$170 for mailing biennial report and research pamphlet.

EQUIPMENT: Office—additional, \$148, of which \$70 is for miscellaneous and \$78 for a letter file.

STRUCTURAL PEST CONTROL BOARD

Examines, licenses and regulates operators, field representatives, and branch office registrations in structural pest control. Approximately 1,810 effective licenses are estimated during 1951-52, an increase of 294 over the number actually licensed as of June 30, 1950.

GENERAL ANALYSIS

Number of positions ----- 4 4 4 -

The operations of this agency are normal and constant in nature. An examination of the work load statistics indicates a gradual growth in the total number of licensees consistent with the growing population of the State.

Since adjustment was made in the fee schedule, revenues are now exceeding expenditures and a substantial balance is estimated for the surplus account. Changes will occur in the expenditure categories as follows:

SALARIES AND WAGES: An increase of \$119, which anticipates full employment.

OPERATING EXPENSES: Net increase, \$349.

Items showing significant increases are:

Printing—\$220 for printing 3,000 copies of Structural Pest Control Act for distribution to operators because of anticipated 1951 legislative changes in act.

Travel—\$400 increase to provide an out-of-state trip for either a board member or the registrar to attend the National Convention of Pest Control Operators. The convention was held in California in the current year.

EQUIPMENT: Total requested \$150, for small items of additional equipment.

16	This budget continues the same program. Revenues exceed expenditures and a substantial balance has accrued in the surplus account.				
17	Some changes are noted in the expenditure categories as follows:				
18	OPERATING EXPENSES: Increase, \$883. Significant increases are \$645 in printing, where provision has been made for the publica-				
19	tion of the biennial directory, and \$360 in traveling because of downward revision in 1950-51 because of military leave of				
20	investigator. All other items are in line with 1950-51 expenditures.				
21	EQUIPMENT: An allotment of \$50 for miscellaneous small equipment is the only request in this category.

17	GENERAL ANALYSIS				
18					
19					
20	Number of positions -----	2	2	2	—
21					
22	The operations of this agency are fairly constant in nature. Statistics denote that while the number of new licenses to be issued are				
23	expected to increase, the number of renewals will not increase in the same ratio. This is due to the dropping out of old licentiates in				
24	various localities.				
25	Revenues are exceeding expenditures so that transfers can be made in accordance with Section 8968 of the Business and Professions				
26	Code. Some changes are reflected in the expenditure categories as follows:				
27					
28	SALARIES AND WAGES: The increase of \$123 is due to fuller employment and lack of personnel turnover.				
29					
30	OPERATING EXPENSES: Net increase of \$77 results from minor increases in travel, automobile mileage, offset by a decrease in				
31	printing costs and a reduction in pro rata departmental administration charges.				
32					
33	EQUIPMENT: Total proposed is \$100 for small miscellaneous additional office equipment.

GENERAL ANALYSIS

25	Number of positions-----	3.8	4.8	4.8	-
26					
27	The budget request for 1951-52 carries on the same level of service as currently authorized. Revenues are exceeding the expenditures and				
28	a substantial balance is reflected in the surplus account. Changes in the various expenditure categories are set forth and explained				
29	as follows:				
30					
31	SALARIES AND WAGES: Increase of \$2,591. This increase is due to fuller employment, and an additional \$1,000 for temporary help.				
32	Work load is presently too heavy for one stenographer and with the addition of a second investigator in the current year, more				
33	clerical help will be required.				
34					
35	OPERATING EXPENSES: Increase of \$1,598. Of this increase, \$396 is for office space rental. With the present crowded condition				
36	and with the additional employees, larger quarters will be required. Furthermore, with the fuller employment and the additional				
37	investigator authorized in the current year, traveling, automobile mileage, hearing services and legal advertising, and evidence will				
38	increase \$1,202.				
39					
40	EQUIPMENT: The total of \$548 is a \$655 decrease from 1950-51. It provides \$433 for additional filing equipment, a desk and chair,				
41	and \$115 for replacement of a 1938 typewriter.

BOARD OF PILOT COMMISSIONERS

Qualifies persons as pilots operating vessels on San Francisco, Suisun and San Pablo Bays.

Revenues are derived from pilotage fees. In accordance with Section 1159 of the Harbors and Navigation Code, the encumbered balance in the Pilot Commissioners' Special Fund in excess of \$6,500 as of June 30th of each year shall, on order of the State Controller, be transferred to the General Fund.

SUMMARY AND
RECONCILIATION WITH APPROPRIATIONS

Fair and Exposition Fund

GENERAL ANALYSIS

Number of positions----- 13.8 16.9 17.8 0.9

The budget is based on a total of 421 days of racing of which 341 days are to be at major tracks and 80 days at fair tracks.

The increase of \$80,628 is attributable to the State assuming the payment of the stewards and veterinarians representing the State. These employees have been paid previously by the racing associations.

SALARIES AND WAGES: The increase of \$77,432 consists of the following :
Salaries of stewards representing the State----- \$40,100
Salaries of veterinarians representing the State----- 30,375
Senior file clerk (record keeper for veterinarian)----- 2,772
The rest of the increase results from a full year of employment in positions established for only a portion of the current year.

OPERATING EXPENSES: The increase of \$3,470 consists of a \$3,500 increase in traveling because of the increased number of racing days and one additional employee in a travel status.

EQUIPMENT: The amount budgeted is to provide for the replacing of two typewriters and to purchase two additional files for the increased records.

^a All appropriations from the General Fund for the Department of Public Health, together with grants from the Federal Government and from private sources and revenues collected to finance certain self-supporting activities, are deposited in the Public Health Fund, from which all expenditures of the department, except subsidies to tuberculosis sanatoria and other special items, are paid.

Expenditures and revenues of the fund have been segregated in this summary in accordance with their ultimate source.

^b Net after reversion of unexpended balances.

^c Grants from the Federal Government and private trusts and the expenditures therefrom are not included in the over-all budget totals.

See Schedule 11 for summary of federal aid revenues and expenditures.

^d Expenditures for care of crippled children and aid to cities and counties—subventions contracts transferred to Local Assistance Budget.

63					
64	GENERAL ANALYSIS				
65	Number of positions	779.1	875.3	887.6	12.3
66	The principal changes in this budget are (1) provisions to microfilm all vital records; (2) an expansion of the crippled children program;				
67	(3) an expansion of the virus laboratory; and (4) an increase in the engineering staff of the Bureau of Sanitary Engineering. Minor				
68	increases in personnel are provided because of increased work load. Detailed explanations of the purpose and request for each organi-				
69	zational unit appears below.				
70	^e Grants from the Federal Government and private trusts and the expenditures therefrom are not included in the over-all budget totals.				
71	See Schedule 11 for summary of federal aid revenues and expenditures.				
72	^f Expenditures for care of crippled children and aid to cities and counties—subventions contracts transferred to Local Assistance Budget.

2	DIVISION OF ADMINISTRATION						
3							
4	DIVISIONAL ADMINISTRATION						
5							
6	Analysis						
7							
8	This unit is composed of the director's office and the administrative office of the Division of Administration.						
9	The increase in salaries and wages is due to the establishment of a half-time position of medical deputy director. Since the chief of the						
10	Division of Laboratories will serve in this capacity, that position has been reduced correspondingly.						
11							
12	SALARIES AND WAGES						
13	Director's Office:				SALARY RANGE

35							
36	BUREAU OF BUSINESS MANAGEMENT						
37							
38	Analysis						
39							
40	The Bureau of Business Management is the centralized service bureau for the entire department. The functions of this bureau include						
41	general housekeeping service, stockroom, mail and messenger service, operation of the telephone switchboard, accounting, budget						
42	preparation and control, purchasing and maintenance of a car pool.						
43	The increases are due principally to the addition of one clerk and increased building rentals. These increases are required because of the						
44	general increase in work load and additional space needed for new positions.						
45							
46	SALARIES AND WAGES				SALARY RANGE

42	BUREAU OF RECORDS AND STATISTICS—GENERAL						
43	HEALTH STATISTICS						
44							
45	Analysis						
46							
47	The function of this unit is to provide direction and assistance as well as related processing services in the development of public health						
48	records and statistics. This unit renders service to local health agencies as well as to the various bureaus of the department, and						
49	includes preparation of special interpretive reports, analysis of statistical data relating to births, deaths, marriages, population,						
50	statistical consultative services to specific programs, etc.						
51	This budget reflects a general increase in statistical services due to a special federally financed project and a diversion of funds from						
52	other programs to provide such programs with necessary statistical data. These changes appear in both 1950-51 and 1951-52.						
53	Operating expenses have been increased accordingly, and equipment has been provided for the additional personnel.

64	BUREAU OF RECORDS AND STATISTICS—VITAL RECORDS						
65							
66	Analysis						
67							
68	The function of this section of the Bureau of Records and Statistics is the registration of births, deaths, and marriages, and the provision of services to the department and the public with respect to these records.						
69	Included in this budget are provisions to microfilm all vital records. This project is considered desirable because of the rapid deterioration of the older records, and the importance of safeguarding vital records in the event of an emergency. A backlog of approximately 8,000,000 records will be involved. The total cost of this project is estimated at \$27,446, of which \$10,560 is for temporary help, and the remainder is for operating expense items.						
70	An additional \$5,000 is provided in temporary help to meet an increased demand for certified copies of birth certificates, resulting from need for such certificates by persons entering defense and governmental work.

BUREAU OF CRIPPLED CHILDREN SERVICES

Analysis

The function of this bureau is the administration of a program for the care of handicapped children. The program includes the administration of a general crippled children program as well as cerebral palsy and hearing programs, and the rheumatic fever program added by the Legislature last year. These programs are accomplished by:

- Maintenance of a state file of all children reported with handicapping conditions.
- Establishment of standards for care and consultation in the maintenance of such standards.
- Provision of funds for expert diagnostic services and care.
- Planning for necessary treatment and consultation in the provision of treatment services.
- Maintenance of statistical records of children receiving services.

Included in this budget are requests for additional funds for both 1950-51 and 1951-52, amounting to \$73,265 and \$160,255, respectively. These increases are required because of the further development of county crippled children programs, changes in treatment methods, and the expectation of three additional county programs in 1951-52. The deficit in the current year has been met from other savings.

6 Additional clerical positions are required because of increased work load reflected in the above increases and in crippled children subventions.

1 Supervising occupational therapist is requested because of the expected expansion of cerebral palsy classes in public schools in accordance with the existing cerebral palsy program.

The necessary complement of equipment has been provided for new personnel.

		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1							
2	BUREAU OF ADULT HEALTH						
3							
4	Analysis						
5							
6	This bureau administers the departmental program in industrial hygiene. The program is carried on by:						
7	1. Direct service in industry including studies in occupational health hazards and consultation and assistance to industry for						
8	developing medical nursing industrial hygiene programs.						
9	2. Development of local health department industrial health facilities and programs by studies, technical consultation, training and						
10	other educational measures.						
11	3. Consultation and educational services to professional, business, and other groups.						
12	No major program changes are contemplated for this bureau in 1951-52.						
13	The principal reason for the increase is the request for additional laboratory equipment. \$1,038 for equipment has been requested to						
14	more adequately monitor areas where radioactive materials are used. \$2,935 has been requested to purchase equipment required to						
15	complete a spectrograph installation, full utilization of which is not possible without this addition.

75	BUREAU OF SPECIAL SERVICES						
76							
77	Analysis						
78							
79	Four medical service programs are carried on by this bureau: Public Health Nursing, Medical Social Work, Nutritional Service, and						
80	Mental Health Service. Each of these services coordinates their activities with other functions of the department, and with local						
81	health departments.						
82	1. Nutritionist, grade 2, is requested because of increased work load.						
83	The following changes are requested in the Mental Health Service:						
84	1. A shift of the salary of the chief and a clerk from federal funds to state funds.						
85	2. An increase for contracts with state and local institutions maintaining mental health clinics.						
86

47	DIVISION OF LABORATORIES						
49	Analysis						
51	This division provides the laboratory services of the department, including:						
52	1. Water and sewage						
53	2. Food and drug						
54	3. Virus and rickettsial						
55	4. Bacteriological						
56	5. Serological						
57	Diagnostic services are provided to rural areas of the State in viral and rickettsial diseases and consultation is provided for clinical and						
58	hospital laboratories and local health departments.						
59	The major changes in this budget for 1951-52 are as follows:						
60	1. Termination of the Q-fever program, resulting in the elimination of 6.5 positions.						
61	2. Expansion of the virus program through the addition of 1 bacteriologist, 2 laboratory assistants, 1 clerk, and 1.5 animal care-						
62	takers. These increases are requested because of the rapid increase of work load due to medical developments in this field.						
63	3. Expansion of the waste and sewage laboratory due to an expanded program in this field. One clerk and one laboratory assistant						
64	is requested.						
65	Additional technical and scientific equipment includes the following:						
66	1 Bacteriological incubator, costing \$1,330, required because of increased work load.						
67	1 Micro-balance, costing \$900, required to more accurately perform tests on small samples of foods and drugs.						
68	1 Safety cabinet, costing \$2,868, needed to protect the laboratory workers from accidental infection of tuberculosis, etc.						
69	Equipment needed because of the expanded services mentioned above has also been provided.						
71	SALARIES AND WAGES						
72	Chief -----	1	1	0.5	\$745-905	\$10,860	\$5,430 ⁱ
73	Chief virologist -----	1	1	1	676-821	9,657	9,852

30							
31	BUREAU OF SANITARY ENGINEERING						
32							
33	Analysis						
34							
35	This bureau is responsible for the administration of the departmental program in the fields of sewage disposal, industrial waste disposal,						
36	water contamination and water supply, as well as general environmental sanitation.						
37	The increase in this budget is due to the addition of four sanitary engineers and two clerks. These positions are required because of an						
38	expanded need for services and new responsibilities in the fields of water contamination and water supply, as provided by 1949						
39	legislation.

53	BUREAU OF VECTOR CONTROL						
54	Analysis						
55	This bureau is engaged in the survey of, the evaluation and development of control measures for, and the supplying of control recom-						
56	mendations pertaining to those diseases of man and animals in California which are conveyed, carried, or harbored by arthropods						
57	and certain mammals.						
58	The program of the bureau is mainly of a field nature, designed for the development and encouragement of adequate vector control pro-						
59	grams to be conducted by local authorities. Activities include the following basic components:						
60	1. Endemic surveys to determine the existence and distribution of actual or potential vector-borne disease hazards.						
61	2. Studies and demonstrations to establish and evaluate control techniques, methods, and equipment.						
62	3. Services to control vector-borne diseases.

36	DIVISION OF LOCAL HEALTH SERVICES						
38	Analysis						
40	This division has the responsibility of integrating the program objectives of the State Department of Public Health with those of the						
41	local health departments of the State. The functions of the division involve serving as a two-way line of flow through which the						
42	needs of the local health departments may be channeled to the proper bureau or service of the department, and the programs and						
43	services of the operating units of the department are directed to the various local health departments.						
44	No program changes are contemplated by this division during 1951-52.

1	PUBLIC HEALTH TRAINING						
2	Analysis						
3	There are two distinct activities under this general heading. One is the operation and maintenance of field training stations—staff and						
4	expenses, the other is the granting of stipends, tuition and travel to trainees. The trainees may be sent to university and pos						
5	graduate schools, other training institutions and to field training stations.						
6	No program changes are contained in this budget, and the same level of expenditure is requested for 1951-52 as authorized for the cu						
7	rent year.

WATER POLLUTION CONTROL BOARD

The State Water Pollution Control Board formulates general state-wide policy for the control of water pollution, gathers, compiles, and disseminates data, and administers a program of financial assistance for water pollution control. The Regional Water Pollution Control Boards coordinate programs of abatement and prevention of water pollution in local areas, recommend projects for financial assistance, and prescribe requirements for waste and sewage disposal systems.

40	GENERAL ANALYSIS				
41					
42	<i>Number of positions</i>	<i>5.5</i>	<i>40</i>	<i>48</i>	<i>8</i>
43					
44	Following the initial organization period in late 1949 and early 1950, the state and regional boards have developed gradually to budgeted levels as work load increased. In a comparatively unexplored field, the addition of personnel or expansion of activities has been limited to that necessary to meet immediately foreseeable work. The increase in expenditures for support is due to anticipated full year employment of authorized positions. The remainder of the increase is the result of; continuation of one research project started during the current year and the inauguration of a new project; and provision for technical services of other agencies in the amounts necessary for anticipated studies.

31	REGIONAL BOARDS						
32	Analysis						
33							
34							
35	The State is divided into nine water pollution control regions. The governing and policy-forming board of each region consists of five						
36	members appointed from within the region by the Governor.						
37	Executive officers and staff assistants were authorized for each board during the latter part of 1949-50. The actual employment of						
38	personnel and activity has varied considerably among boards. It is anticipated that all existing positions, plus the one additional						
39	proposed position, will be necessary during the 1951-52 Fiscal Year. The one additional clerical position is recommended for the						
40	north coastal board which is experiencing considerable activity.						
41

33	RESEARCH IN TECHNICAL PHASES OF WATER POLLUTION CONTROL						
36	General Fund						
37	Analysis						
39	To provide basic technical data necessary to properly discharge the responsibilities of the several boards provision for the following						
40	technical research projects is recommended. Because of the urgent need for such data, three of the projects were started this year.						
41	1—An investigation and report on the pollution effect of recharging underground basins through increasing percolation rates or "forced"						
42	waste water irrigation.						
43	2—A complete and comprehensive report on water quality standards in order to prescribe discharge requirements. This report com-						
44	menced during the current fiscal year is scheduled for completion during 1951-52.						
45	3—Study and report on pollution of ground waters through leaching from dumps.						
46	4—Investigation and report on rate and distance of travel of pollution with ground water movement.						
48	DETAIL BY PROJECT						
49	Investigation and evaluation of water qualities standards and						
50	their applications				—	\$9,425	\$15,195
51	Investigation of relationship of pollution of ground waters to rates				—	—	25,566
52	of percolation				—	10,000	9,000
53	Investigation of pollution by leaching				—	13,300	17,380
54	Investigation of travel of pollution with ground water movement				—	—	—
56	Totals, Research in Technical Phases of Water Pollution Control				—	\$32,725	\$67,141
59	SERVICES OF OTHER AGENCIES						
61	Analysis						
63	To prevent duplication or overlapping activities, necessary field and laboratory work is performed for the boards by other state agencies						
64	best qualified to render the required technical services. Such service consists of studies of the pollution effects of sewerage and indus-						
65	trial wastes; prescribing discharge requirements; determining effect of drainage wells on ground waters; and special investigations						
66	as required.						
68	OPERATING EXPENSES						
69	Contractual Services:						
70	Division of Fish and Game				—	—	\$39,330

72	Division of Water Resources				—	a	90,385
74	Totals, Services of Other Agencies				—	a	\$243,020

a Appropriated directly to agency.

PUBLIC UTILITIES COMMISSION

Supervises and regulates intrastate public utilities and carriers engaged in the transportation of property. Fixes maximum and minimum rates to provide a reasonable return on capital; regulates service in the interest of public safety and convenience; controls the issuance of securities and other transactions relating to the capital structure of public utilities; and licenses itinerant merchants as defined by Section 16320, Business and Professions Code.

50					
51	Total Number of Positions-----	484.3	503.3	501.5	-1.8
52					
53	This budget provides generally for continuation of the existing level of service plus the provision for initiating an additional service in the legal department. The new service involves the establishment of a litigation division which will consist of three senior counsel positions and one senior legal stenographer position at a cost of \$21,852. The counsel positions will be used to guide and advise the technical staff in preparing and presenting testimony and evidence in important cases being heard by the Commission. The present staff of the legal department is not adequate to furnish such service since it devotes practically full time to advising the Commission. A separate staff devoting full time to the presentation of cases will make it possible to separate the prosecuting and adjudicating functions of the agency.				
54	Other increases in this budget are due to additional work load and price increases. The number of formal filings, decisions, and orders and days of formal hearings all reflect increases in the volume of work load and a backlog of cases to be heard by the Commission. Provision is made for the following positions at a cost of \$34,296 to process the additional work load:				
55	Administration:				
56	1 Intermediate office appliance operator-----				\$2,280
57	3 Intermediate stenographer-clerk-----				7,200
58	(1 for San Francisco, 2 for Los Angeles).				
59	Control and Regulation—Public Utilities Department—Telephone Division:				
60	1 Intermediate stenographer-clerk (to June 30, 1952)-----				\$2,400
61	Hearings and Formal Investigations—Examiners:				
62	3 Legal examiners (to June 30, 1952)-----				\$20,016
63	1 Intermediate stenographer-clerk (to June 30, 1952)-----				2,400

PUBLIC UTILITIES COMMISSION—Continued

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51			
1								
2								
3	GENERAL ANALYSIS—Continued							
4	These increases are offset in part by the elimination of 12 part-year positions which were provided in the 1949-50 Fiscal Year and con-							
5	tinued to April 30, 1951 in order to cope with an acute highway transportation enforcement problem. The elimination of these posi-							
6	tions results in a reduction of \$39,711 below the 1950-51 Fiscal Year expenditures as follows:							
7	Control and Regulation—Rate Division:							
8	1 Associate transportation rate expert (10 months)-----				\$4,050			
9	2 Assistant transportation rate expert (10 months)-----				6,825			
10	1 Intermediate stenographer-clerk (10 months)-----				2,000			
11	Hearings and Formal Investigations—Legal Department:							
12	3 Assistant counsel (10 months)-----				\$11,028			
13	1 Senior legal stenographer (10 months)-----				2,628			
14	Hearings and Formal Investigations—Examiners:							
15	3 Assistant counsel (10 months)-----				\$11,010			
16	1 Intermediate stenographer-clerk (10 months)-----				2,170			
17	A further reduction in the amount of \$15,016 results from the elimination of four positions and reductions in operating expenses in itin-							
18	erant merchants regulation. These reductions are necessary in order to prevent expenditures from exceeding the resources of the							
19	Itinerant Merchants Fund.							
20	Provision is made for equipment purchases in the amount of \$35,769. The General Fund budget provides for \$33,995 and the Transpor-							
21	tation Rate Fund \$1,774. The major items included in these amounts are as follows:							
22	Replacement of old wooden files and transfer cases-----				\$5,300			
23	Safe for growth of original decisions and orders-----				1,500			
24	Dictating and transcribing equipment-----				3,440			
25	Chairs for Los Angeles court room-----				645			
26	Replacement of public address system for Los Angeles court room-----				1,350			
27	3 Calculators and one adding machine-----				2,261			
28	Equipment for new employees-----				1,011			
29	Replacement of three automobiles with light model automobiles-----				3,810			
30	Files for a filing system on digest of decisions-----				600			
31	The expenditures from the Transportation Rate Fund exceed revenues by almost \$200,000 a year. At this rate the estimated unbudgeted							
32	surplus at June 30, 1952, in the amount of \$364,649, would be sufficient to keep the fund in a solvent condition only through the							
33	1952-53 Fiscal Year. The necessary legislation to provide additional revenue to permit a balanced budget will be recommended							
34	to the 1951 Legislature.

2	TRANSPORTATION RATE FUND						
3							
4	Analysis						
5							
6	A plan of financial adjustment between the General Fund activities and the Transportation Rate Fund was approved by the State						
7	Controller on August 10, 1950. Under this approved plan certain functions which relate to either fund are reflected in the General						
8	Fund activities budget and offset by estimated reimbursements from the Transportation Rate Fund. The portion of charges to be						
9	borne by the Transportation Rate Fund are shown in that budget as operating expenses. Functions which pertain entirely to the						
10	Transportation Rate Fund are budgeted entirely under that fund. This plan is reflected in the 1950-51 and 1951-52 Fiscal Years,						
11	with the result that many of the following functions show no expenditures for these two years.

Department of Public Works

DEPARTMENTAL ADMINISTRATION

Directs and coordinates the activities of the Division of Architecture, the Division of Highways, and the Division of Water Resources; and provides accounting service for the Division of Architecture and the Division of Water Resources.
The General Fund finances the entire cost of the Accounting Office and a proportionate share of administration.
The State Highway Fund is charged with that portion of the cost of administration attributable to the Division of Highways.

2	ACCOUNTING OFFICE							
3								
4	Analysis							
5								
6	Accounting service is provided for the Division of Architecture, the Division of Water Resources, and the Water Resources Board, the							
7	latter on a reimbursement basis. The work load of this function is directly related to the activities of the agencies served and for							
8	this reason the continuation of at least the present level of activity is anticipated. The decrease of \$3,407 is due to eliminating pay-							
9	ment for income tax posting service, a reduction of \$967 in equipment as the result of having purchased the major items of equip-							
10	ment for the present staff during the last two years, and an increase in the payment by the Water Resources Board for accounting							
11	service.							
12

59	Number of positions—State Building Fund	49.6	52.1	52.1	-
60	Number of positions—public school construction	57.4	69.4	94.6	25.2
61					
62	Total	107	121.5	146.7	25.2
63					
64	The state construction program under the supervision of the Division of Architecture is expected to continue at a level of over one hundred million dollars during 1951-52, maintenance surveys are to be continued at the present rate and scope, and the volume of school building construction subject to supervision by the division is expected to reach \$185,000,000 for the year.				
65	The General Fund finances the cost of supervision of state building construction and technical services and field construction and maintenance supervision.				
66	The Division of Architecture Public Building Fund is charged with the expense of supervision of public school building construction.

SUPERVISION OF PUBLIC SCHOOL
BUILDING CONSTRUCTION

Division of Architecture Public Building Fund

Analysis

This unit checks and approves plans and specifications for all new public school building construction and all alterations or remodeling exceeding \$4,000 in estimated cost, and inspects such buildings periodically during the course of construction to assure compliance with approved plans and specifications. The staff and related expenses recommended for the 1951-52 Fiscal Year are based upon an estimated school building program of \$185,000,000, as compared to \$150,000,000 estimated for the current fiscal year, \$137,301,144 during 1949-50, and \$117,851,528 during 1948-49. Based upon relationship of personnel to work load which existed prior to 1941 a larger staff was and is necessary to properly discharge the responsibilities of the division under present provisions of the Education Code. However, technical personnel with the required qualifications are extremely difficult to recruit and for this reason the proposed staff represents only the number which under present conditions may be reasonably expected to be employed. Under circumstances more favorable to securing additional qualified engineers, the estimated work load would justify 11 engineers and 2 clerks more than the present recommendation.

^a Appropriations for this division represent advances from the General Fund and State Highway Fund, and all amounts expended therefrom are to be repaid to the respective funds together with interest at one and one-half percent (1½%) per annum out of proceeds from the first sale of revenue bonds issued for construction of an additional highway crossing across San Francisco Bay.

^b Funds have been advanced from the Emergency Fund as a loan pending reimbursement from proposed deficiency appropriation.

Department of Public Works

DIVISION OF WATER RESOURCES

The major portion of the State's activities pertaining to the investigation of water resources, and to the conservation, control, and utilization of such water resources, is conducted by the Division of Water Resources. Specifically, the division has the responsibility for the administration and supervision of the appropriation of water and the adjudication of water rights; for supervision of safety of dams; for maintenance and operation of the Sacramento River flood control and reclamation works; for administration of the State mapping program, including preparation of a state base map; for administration of state-wide water pollution investigations; and for storm and flood damage rehabilitation. In addition, the Division of Water Resources is responsible for stream gaging and collection of hydrologic data on the Sacramento and San Joaquin Rivers for the purpose of determining water supply and best means of utilizing these water resources, and review of proposed federal flood control and reclamation projects. Other activities of the division include the providing of technical assistance to the Water Project Authority concerning the Central Valley Project and the furnishing of engineering services to the State Water Resources Board.

^a Federal-state cooperative projects transferred to "Other Current Expenses."

^b Expenditures as reported represent presently available funds. It is anticipated that early during the 1951 Session of the Legislature a survey and report on the actual damage will be completed and at that time recommendations as to funds required may be made.

^c For statement of condition of fund, see Local Assistance Budget, Subventions for Public Works.

1	GENERAL ADMINISTRATION						
2	Analysis						
3							
4	Included in this function is the office of the State Engineer, general administrative offices, legal staff, and clerical pool.						
5	Three new clerical positions are recommended to meet the additional work load resulting from the expansion of the over-all activities						
6	of the division during the past two years. The increase in operating expenses is due principally to the cost of operating automo-						
7	biles for the water pollution investigations.

17	STATE MAPS AND SURVEYS						
18	Analysis						
19	This function became operative July 1, 1950, under the provisions of Chapter 1581, Statutes of 1949, directing the State Engineer to						
20	prepare a state base map consisting of complementary, planimetric, topographic, and mosaic maps, and do related work. The						
21	administration of topographic mapping, formerly carried under federal-state cooperative activities, has been combined with the						
22	function, and the remaining federal-state cooperative activities have been transferred to the "other current expenses" portion of						
23	the division's budget, resulting in a decrease of \$101,485 in this function.

1	WATER POLLUTION CONTROL						
2							
3							
4	Analysis						
5							
6	The Water Pollution Control function is to carry out the provisions of Chapter 1552, Statutes of 1949, requiring an investigation of						
7	the quality of all waters within the State; surveys and investigations relating to the reclamation of water from sewage or industrial						
8	wastes for beneficial purposes; investigation and survey of damage to quality of underground waters; and the recording of well						
9	drilling data.						
10	Since a substantial amount of the work requested by the Regional Water Pollution Control Boards is work which this division is required						
11	to do under Chapter 1552, Statutes of 1949, the division's budget has been increased to include such work as a part of the support						
12	activity. That portion of the Regional and State Water Pollution Control Boards' request which would not normally be done by the						
13	division under Chapter 1552, Statutes of 1949, has been included under "Special Activities." The increase of \$54,526 is due to the						
14	inclusion of 21 additional positions to bring the staff up to the strength necessary to accomplish the initial state-wide study of water						
15	pollution within a reasonable time and to provision for incidental operating expenses and equipment.

1	SACRAMENTO-SAN JOAQUIN WATER SUPERVISION						
2							
3	Analysis						
4							
5							
6	The primary activity of this function is to perform stream gaging activities and to collect hydrological data on the Sacramento and San						
7	Joaquin Rivers, in order to provide basic information on water supply and utilization. No change in the existing level of activity is						
8	proposed, the decrease of \$1,876 resulting from reduced equipment requirements for the budget year.

1	WATER RIGHTS AND RESOURCES						
2	Analysis						
3							
4							
5							
6	This activity is concerned with supervision of the appropriation of waters within the State, with adjudication of water rights, snow sur-						
7	veys, and studies of underground waters in the South Coastal Basin.						
8	The major increase results from two additional positions of Junior Civil Engineer to help reduce the backlog of pending water rights appli-						
9	cations which has risen from 720 on January 1, 1948, to 1,144 in September, 1950. Replacement of a group of 31-year-old water						
10	stage recorders also adds to the increase.						
11

1	WATERMASTER SERVICE						
2							
3							
4	Analysis						
5							
6	This activity is concerned with the supervision of the distribution of water within the watermaster service areas and is financed by both state and local funds on a matching basis. The program as recommended is substantially the same as that of the current year.

47							
48	REGULATION OF SAFETY OF DAMS						
49							
50	Analysis						
51							
52	This function is charged with responsibility for maintenance of the safety of dams within the State, not under federal jurisdiction. This responsibility is discharged by means of approving plans and specifications for proposed new dam construction and for the repair of existing dams, and by maintaining a periodic safety check of the 700 dams under the State's supervision.						
53	The increase of this function is due to added positions during 1950-1951, which it is estimated will not be filled until late in 1950-1951 because of the difficulty of securing engineers with the necessary experience. The addition of such personnel was necessitated by the increased degree of inspection necessary on dams under construction and to permit annual inspection of existing dams. The engineers referred to above, while authorized for this function, will also be employed on special projects to the extent that work load allows.

32	FLOOD CONTROL PROJECT MAINTENANCE						
33							
34	Analysis						
35							
36	Activities of this function include maintenance of the Sacramento River flood control and reclamation works and supervision of all con-						
37	struction work done by the division, including construction work requested by other agencies. This function also supervises flood						
38	damage repair work and the levee maintenance.						
39	The increase in this function is due primarily to the replacement of a large tractor, together with attachments.

16	REVIEW OF FEDERAL REPORTS						
17							
18	Analysis						
19							
20							
21	Federal law provides that the various states be given an opportunity to review federal reports on proposed reclamation and flood control						
22	projects within their boundaries. This function is performed by the Division of Water Resources for the State of California. Inas-						
23	much as the number of federal proposals to be submitted to the State is unknown, provision for continuation of the function at						
24	the present level is recommended.						
25

32								
33	WORK IN COOPERATION WITH THE FEDERAL							
34	GOVERNMENT							
35								
36	Analysis							
37								
38	The Division of Water Resources cooperates with the appropriate federal agency in the accomplishment of projects of mutual concern.							
39	Those projects for which provisions are made during the 1951-52 Fiscal Year are:							
40	1. Yuba River Debris Control: Provides for restraining, impounding and controlling debris along the Yuba River in coopera-							
41	tion with the U. S. Army Engineers.							
42	2. Irrigation Investigation: Investigations conducted by the Soil Conservation Service of the U. S. Department of Agriculture							
43	including the use, transportation, and loss of by evaporation of irrigation waters.							
44	3. Stream gaging in cooperation with the U. S. Geological Survey: Provides data on water supply and utilization of streams in							
45	California not otherwise covered by the Division of Water Resources.							
46	4. Establishment of Gaging Stations: To complete the installation of 30 additional gaging stations in the north coastal area where							
47	data on water supply and utilization is not available.							
48	5. Topographic Mapping: For the continuation of the preparation of topographic maps of California in cooperation with the							
49	U. S. Geological Survey.

62	STORM AND FLOOD DAMAGE REPAIR							
63								
64	Analysis							
65								
66	Since 1940 the State has participated, on a matching basis with local government units, in the repair of damages caused by storm or							
67	flood in instances where the repair of such damage is of general interest. Recent flood in the Sacramento and San Joaquin Valleys							
68	caused extensive damage which at the time of preparing the budget had not been completely evaluated. It is anticipated that a							
69	study and report on such damage will be available during the early part of the 1951 Legislative Session. Based upon such data							
70	it is intended to make recommendations to the Legislature as to necessary additional funds.

AERONAUTICS COMMISSION

The Aeronautics Commission fosters the development of a state-wide system of airports; assists political subdivisions and others in developing aeronautical facilities; investigates sites of proposed airports as to aeronautical suitability and issues State Airport Permits for approved sites; encourages uniformity in laws and regulations relating to aeronautics; fosters safety in aeronautics; encourages the development of private flying, agricultural aircraft usage and a state-wide air transportation system; and coordinates civil aviation facilities as an important adjunct to Civil Defense.

GENERAL ANALYSIS

Number of positions 14.2 13.7 16

There is no basic change in the program, the increase is due principally to a new position of airport planning engineer to assist and advise interested groups and political subdivisions on long-range airport planning in Southern California. Comparison between the activities of the commission in Northern California, where an airport planning engineer is now authorized, and Southern California indicates that an additional engineer is necessary to realize the potential airport development in the latter area. One position, administrative assistant, grade 1, is proposed to permit more effective use of the director's time and qualifications and to reduce excessive overtime on his part. An additional stenographer is recommended to provide clerical assistance for the above position and to assume a portion of the present clerical work load which now requires about 10 percent overtime of the present clerical staff. Increases in operating expenses result from the new positions and anticipated price level.

COLORADO RIVER BOARD

The Colorado River Board was created for the purpose of protecting California's rights pertaining to the Colorado River. The board gathers, compiles and analyzes engineering and legal data on the Colorado River water supply, present and proposed utilization, appears before congressional committees and interested federal agencies, and confers with representatives of other Colorado River Basin states, with respect to legislation and developments affecting California's rights and interests.

RECLAMATION BOARD

Cooperates with the U. S. Engineers in construction of flood control projects through the acquisition of rights of way for such projects, acts as governing body for the Sacramento and San Joaquin Drainage District (over 1,500,000 acres), approves construction on levee systems and flood channels, and fulfills such construction obligations as have been assumed by the State in its agreement with the Federal Government.

WATER RESOURCES BOARD

The State Water Resources Board, created by statutory authority, conducts investigations and reports to the Legislature on water conservation and flood control matters. The board investigates and recommends to the Legislature the amount of allocation from the Flood Control Fund of 1946 and reallocates these funds to local agencies to cover the cost of local cooperation in federal flood control projects. It also represents the state and local agencies in seeking federal appropriations and authorizations for flood control projects. In addition, the board conducts state-wide and comprehensive local water resources investigation through the Division of Water Resources.

25							
26							
27	STATE-WIDE WATER RESOURCES INVESTIGATION						
28							
29	Analysis						
30							
31	This project is to provide a state-wide water plan, including: An inventory of the water resources of California; the present and potential						
32	water requirements of the various areas of the State; and the necessary conservation and diversion measures required to meet these						
33	needs. Continuation at the existing level is recommended.						
34							
35	Detail by Project						
36							
37	Investigations, surveys, studies, preparation of plans and estimates,						
38	and preparation and publication of reports on state-wide water						
39	plan				\$364,573	\$370,911	\$367,892
40	Geological investigation in cooperation with the Federal Government				25,000	25,000	25,000
41	Services rendered by the State Engineer's staff				19,591	43,037	— ^b
42							
43	Total Expenditures				\$409,164	\$438,948	\$392,892

^a These expenditures from state funds are matched by contributions of local governments. See budget of Division of Water Resources—"Special Activities" for detail of gross expenditures.

^b Transferred to support inasmuch as this item of expense is properly overhead cost and not directly chargeable to any one particular activity.

NOTE—For statement of Flood Control Fund of 1946, see subventions budget.

DEPARTMENT OF SOCIAL WELFARE

The Department of Social Welfare supervises the county administration of old age security, aid to needy blind, aid to partially self-supporting blind, aid to needy children and child welfare services; administers the prevention of blindness program; investigates independent adoptions; licenses private agencies placing children for adoption and/or temporary care; licenses county adoption programs; inspects and licenses boarding homes and institutions for aged and children; and supervises the licensing of boarding homes for aged and children by local agencies.

Headquarters Office at Sacramento

The summary of expenditures from state, federal, and county funds for social welfare programs administered by the department appears in the Local Assistance Budget, "SUBVENTIONS FOR SOCIAL WELFARE."

DEPARTMENT OF SOCIAL WELFARE—Continued

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	GENERAL ANALYSIS				
2					
3					
4	<i>Number of positions</i> -----	1,315.7	522.6	517.4	-5.2
5					
6	The three fiscal years covered by this budget include widely divergent methods of operation. Article XXV of the State Constitution, which imposed a direct state administered program on the department, was in effect to February 28, 1950. The entire department was reorganized during the 1950-51 Fiscal Year, however, this reorganization is reflected as being in force for the entire year. On this basis 1950-51 and 1951-52 can be compared.				
7	The purpose of the reorganization was to decentralize and establish smaller units to more closely cooperate with and advise local agencies. This was done by establishing three area offices in the State directed by area deputies under the supervision of the director of the department. It is proposed in the 1951-52 Fiscal Year to regroup the three existing areas into four areas to more adequately cover the State.

		49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
1	DIVISION OF FINANCIAL ADMINISTRATION						
2	Analysis						
3	This unit is responsible for the development of major fiscal policies with respect to all programs administered or supervised by the						
4	department and is responsible for the direction and coordination of the Bureau of Administrative Accounting, the Bureau of						
5	County Claims and the Bureau of Field Audits. Increase is due to stabilized employment in this unit.						
6	SALARIES AND WAGES						
7	Accounting officer, grade 4 -----	-	1	1	\$481-584	\$6,335	\$6,646

53	PROGRAM SERVICES						
54							
55	Analysis						
56							
57	This new unit was created in the course of the reorganization during 1950-51. Its function is to give technical services to the various						
58	public assistance programs, child welfare programs, and area offices in the fields of medical social work, home economics, staff						
59	development and training, appeals, processing, and field review evaluation and planning. The increase is due to the proposed						
60	enlargement of the staff development and training program and the establishment of a development program available to the						
61	counties, plus the redistribution of travel expenses based on a departmental travel pattern.						
62

25	DIVISION OF CHILD WELFARE						
26							
27	Analysis						
28							
29							
30	This unit supervises and coordinates the activities of the Bureau of Adoptions, the Bureau of Boarding Homes and Institutions, and						
31	the Bureau of Child Welfare Services. It maintains liaison with the Children's Bureau of the Federal Security Agency. Increase is						
32	due to combining the travel for the 3 bureaus into one allotment based on the establishment of a departmental pattern, plus the						
33	travel expenses of an advisory nonsalaried committee on Child Welfare.						
34							
35	SALARIES AND WAGES						
36	Chief -----	1	1	1	SALARY RANGE \$505-613	\$7,356	\$7,356

11	GENERAL ANALYSIS				
12	<i>Number of positions</i> -----	<i>10</i>	<i>11</i>	<i>12</i>	<i>1</i>
13	A new position of "recreation specialist" to aid local communities, adjacent to reactivated military camps, with their recreation problems was added for eight months of 1950-51 from the Emergency Fund. The extension of this position for a full year, with necessary operating expenses, accounts for most of the increase. Clerical assistance previously paid from temporary help is proposed to be converted to a regular position.

1	GENERAL ANALYSIS				
2					
3					
4	Number of positions-----	53.2	56.5	55.5	
5	Analysis				
6					
7	In general, the proposed 1951-52 program is a continuation of 1950-51 with the exception of the following:				
8	Educational assistance to veterans is expected to reach a peak enrollment of 4,400 fall semester students in 1950-51 with a gradual tapering off in the latter part of 1950-51 and 1951-52.				
9	Educational assistance to veterans' dependents is beginning to show a decrease in the enrollment of widows, but a continuing increase in the enrollment of orphans. The 1951-52 program exceeds the annual \$150,000 appropriation from the State Lands Act Fund.

DIVISION OF EDUCATIONAL ASSISTANCE						
Analysis						
This division administers the State's program for educational aid in the form of subsistence payments to such veterans and veterans' dependents.						
SALARIES AND WAGES-----Decrease \$2,650						
One less veterans' educational representative position is provided in 1951-52 due to anticipated decrease in veteran enrollment.						
OPERATING EXPENSES-----Decrease \$450						
Decrease in traveling and postage due to decrease in veterans enrollment.						
EQUIPMENT-----Increase \$236						
The increase is the cost of a visible record Kardex file for the current increase in records for veterans enrollments.						
Reimbursement from Dependents Education Fund for Administrative Services-----Increase \$8,500						
In order to effect a more equitable sharing of administrative costs between veterans and veterans' dependents claims, based on estimated enrollments.

DIVISION OF SERVICE AND COORDINATION

Analysis

This division coordinates all of state veterans' programs and provides informational and advisory services to agencies in contact with veterans and assistance to veterans in presenting claims against the United States arising out of war service.

SALARIES AND WAGES

One semi-senior accountant, established in 1950-51, extended on a permanent basis to continue audits of veterans' organization books relative to propriety of state payments not to exceed \$550,000 per year, accounts for the increase.

Increase \$629

DEPARTMENT OF VETERANS AFFAIRS—Continued

OTHER CURRENT EXPENSES DETAIL	NO. OF POSITIONS			ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
	49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
GENERAL FUND						
For educational assistance to veterans, to be expended under the provisions of Article 2 of Chapter 6 of Division 4 of the Military and Veterans Code						
Analysis						
Educational Assistance to Veterans						\$3,332,315
The assistance is limited to a total payment of \$1,000 per California veteran. The subsistence payment is limited to \$40 per month based on actual attendance in school, and tuition and other items of school books and supplies as are necessary.						
The amount proposed will provide assistance for 3,300 summer session students, 4,400 fall semester students, 800 fall quarter, winter quarter, and spring quarter students, and 4,200 spring semester students.						
This program is estimated to cost approximately \$466,904 less than in 1950-51, or a 12.3 percent decrease						
A deficiency bill is required in the amount of \$800,039 in 1950-51 to finance the cost of increased veteran enrollments.						
Tuition				\$1,297,547	\$1,686,540	\$1,480,485
Books and supplies				282,932	361,990	317,185
Subsistence				1,303,982	1,750,689	1,534,645
TOTALS				\$2,884,461	\$3,799,219	\$3,332,315
For Veterans Claims and Rights Service, to be expended under the provisions of Section 699.5 of the Military and Veterans Code						
Analysis						
Veterans Claims and Rights Service						\$550,000
Under the provisions of Section 699.5 of the Military and Veterans Code, the Department of Veterans Affairs contracts with the American Legion, Veterans of Foreign Wars, and the Disabled American Veterans to assist the veterans of any war of the United States in presenting and pursuing such claims as the veteran may have against the United States, arising out of war service and in establishing the veteran's right to any privilege, preference, care, or compensation provided for by the laws of the United States or this State.						
This amount of \$550,000 represents the cost necessary to subsidize the three veterans' organizations that are eligible for state aid under Section 699.5 of the Military and Veterans Code to finance their operations on a 75 percent state share basis in the 1951-52 Fiscal Year and continues the 1950-51 level of costs.						
Contract Payments:						
American Legion				\$306,500	\$308,521	} \$550,000
Disabled American Veterans				94,300	86,624	
Veterans of Foreign Wars				147,642	154,855	
TOTALS				\$548,442	\$550,000	\$550,000
For Educational Assistance to Veterans' Dependents, to be expended under the provisions of Article 2 of Chapter 4 of Division 4 of the Military and Veterans Code						
OTHER CURRENT EXPENSE						
Educational assistance to veterans' dependents				-	-	\$59,745
VETERANS' DEPENDENTS EDUCATION FUND						
Analysis						
Educational Assistance to Veterans' Dependents						\$254,800
The educational aid to veterans' dependents, widows or orphans, has no limit as to total amount of expenditure for each eligible. However, subsistence payments shall not exceed \$480 per year on the basis of school attendance throughout the full year. Payments are limited to \$40 per month for college students and \$20 per month for high school students. The proposed allocation based on the policy of the Department of Veterans Affairs represents only amounts for subsistence.						
While the enrollment of widows is beginning to decrease, a constant increase in the enrollment of orphans can be expected.						
The amount proposed will provide assistance to 195 summer session students, 765 fall semester students, and 800 spring semester students.						
This program is estimated to cost \$19,560 more than in 1950-51 or an 8.3 percent increase. It should be noted that the needs of the program exceed the annual recurring \$150,000 appropriation from the State Lands Act Fund.						
The surplus in the Veterans' Dependent Education Fund will not be adequate to finance the difference in program cost after June 30, 1951. It will then be necessary to either increase the annual appropriation from the State Lands Act Fund or provide additional funds from the General Fund as proposed in the 1951-52 Budget.

GENERAL ANALYSIS

<i>Number of Positions:</i>					
Civilian -----	450.4	452.2	482.8	30.6	
Member -----	102.6	103.4	103.9	0.5	

POPULATION AND UNIT COSTS

Average Member Population -----	1,318	1,579	1,745	166
Cost per Member -----	\$1,384	\$1,360	\$1,334	-\$26 (-1.9%)

Total expenditures for support in 1951-52 amount to \$2,327,451, an increase of \$180,426 or 8.4% over 1950-51 estimates.

Average population in 1951-52 amounts to 1,745, an increase of 166 or 10.5% over 1950-51 estimates.

Payments from the Federal Government continue at the level of \$500 per year per member for an estimated reimbursement of \$856,000 or an increase of \$113,000 over 1950-51 due to increased population, and reduces the increased cost to the General Fund in 1951-52 from \$180,426 to \$67,426 or a 4.8% increase.

Estimated per capita costs for 1951-52 amount to \$1,334, a decrease from the estimate for 1950-51 of \$1,360, and a decrease from the actual for 1949-50 of \$1,384.

SALARIES AND WAGES: Increase of \$87,377 is accounted for as follows:

- 36 New Positions at a cost of ----- \$83,898
 - 1 Automotive equipment operator to pick up and deliver laundry, garbage, and other supplies for one new barracks, Women Veterans Unit, and Administration and Receiving Unit.
 - 1 Institution food administrator, grade 1, to administer feeding program in hospital, act as dietician, supervise hospital waitresses and relieve food manager.
 - 3 Cooks to increase coverage by one cook on each of two shifts in main mess, plus relief. Over 30% population increase since last increase in staff.
 - 4 Kitchen helpers to increase coverage by one on each shift in main mess, one in vegetable room, plus relief.
 - 12 Waiter-waitresses to provide coverage of 1 to 36 members in main mess, 1 to 36 in hospital and convalescent barracks, and 1 to 66 in employees' mess pending proposed consolidation of waiter and kitchen helper classifications for more efficient utilization of manpower.
 - 1 Janitor to provide mess hall coverage on a seven-day-per-week basis.
 - 2 Members of the guard, member, for patrol and emergency calls for increased population.
 - 1 Intermediate clerk for increased work load in the adjutant's office.
 - 3 Graduate nurses to staff ward No. 8 as a surgical ward, formerly used as a receiving ward without graduate nurse coverage.
 - 4 Hospital attendants to provide 24-hour, seven-day-a-week coverage in the receiving ward of the Receiving-Administration Building. One attendant only now.
 - 1 Physical therapy technician for increased population load.
 - 1 Building maintenance man } to service new Administration and Receiving Building, new Dormitory Barracks, and new
 - 1 Steamfitter } Women Veterans Unit.
 - 1 Groundsman and flower gardener for increased grounds area under landscaping due to new buildings.
- 3.5 Existing positions will be abolished due to the elimination of the hog ranch: 1 hog ranch operator, 0.5 butcher, 2 farmhands (one for poultry ranch).

The increased cost of authorized positions of \$39,294 is offset for the most part by increased salary savings amounting to \$35,815.

OPERATING EXPENSES: An increase of \$65,150 is generally due to expanded population and plant.

EQUIPMENT: A total of \$55,694 is recommended, an increase of \$24,349 over the 1950-51 Fiscal Year. Of this amount \$29,321 is for replacement of equipment and amounts to 3.9% of investment in equipment as of June 30, 1950. Additional equipment amounts to \$26,373 and includes the following significant items: a fork lift for the supply department, additional equipment for the mess hall and hospital X-ray equipment.

a Contributions from the Federal Government are not included in the over-all budget totals, either as revenues or expenditures. For summary of federal aid funds, see Schedule 11.

WOMAN'S RELIEF CORPS HOME

The Home is for the custodial, medical, and nursing care of the wives, widows, mothers, and destitute unmarried daughters and sisters of union veterans of the Civil War and for nurses who served in that war. Admissions to the Home have been closed since 1947 and the present population is 24.

Located Near San Jose, Santa Clara County

5					
6	General Fund				
7	SUPPORT				
8	Budget Act appropriation	\$71,802	\$74,206	\$68,483	
9	Allocations from Emergency Fund	919	890	-	
10	Allocations from Salary Increase Fund	1,624	291	-	
11					
12	Total Available	\$74,345	\$75,387	\$68,483	
13	Unexpended balance, estimated savings	-5,808	-760	-	
14					
15	TOTAL EXPENDITURES FOR SUPPORT	\$68,537	\$74,627	\$68,483	-\$6,144 (-8.2%)
16					
17	HOSPITALIZATION AND CARE OF MEMBERS IN COUNTY				
18	HOSPITALS				
19	Budget Act appropriation	\$5,000	\$2,500	\$2,500	
20	Unexpended balance, estimated savings	-2,774	-	-	
21					
22	TOTAL EXPENDITURES, HOSPITALIZATION AND CARE				
23	OF MEMBERS IN COUNTY HOSPITALS	\$2,226	\$2,500	\$2,500	-
24					
25	TOTAL EXPENDITURES	\$70,763	\$77,127	\$70,983	-\$6,144 (-8.0%)
26					
27					
28					
29	GENERAL ANALYSIS				
30					
31	Number of positions	19.1	19.1	18.1	-1
32					
33	POPULATION AND UNIT COSTS				
34	Average member population	28	23	20	-3 (-13.0%)
35					\$179 (5.5%)
36	Cost per member	\$2,447	\$3,245	\$3,424	
37					
38					
39	SALARIES AND WAGES: Decrease of \$851. This decrease in cost is due to a reduction in the nursing staff by one Hospital Attendant, partially offset by increased cost of authorized positions. Due to the decrease of members, this position is no longer necessary.				
40					
41					
42	OPERATING EXPENSES: Decrease of \$4,335. This decrease is mainly due to a reduction in the amount for maintenance of structures to a normal operating level from the 1950-51 budget which provided additional funds for emergency repair work.				
43					
44					
45	EQUIPMENT: Decrease of \$958. The additional equipment is reduced to a nominal amount while replacement equipment is of a miscellaneous nature.				
46

a Of the \$250,000,000 authorized bonds, \$50,000,000 were sold in May 1950, and \$50,000,000 were sold in September 1950. It is estimated that \$50,000,000 will be sold in May 1951 and \$50,000,000 in November 1951.

b The various bond acts provide for payment from the General Fund, but as the General Fund is reimbursed from the Bond Sinking Fund of 1943, as provided by Chapter 611, Statutes 1943, those amounts are shown as expenditures from the Bond Sinking Fund of 1943.

c Donated funds. Neither receipts nor expenditures are included in the budget total. These bonds are obligations of the General Fund but are currently financed by donated funds accepted under the provisions of Chapter 366, Statutes 1933.

d Bond fund. Neither receipts nor expenditures are included in the budget totals. These bonds are obligations of the General Fund, but amounts in the Public School Building Loan Fund derived from repayments from school districts, interest earned on excess moneys invested, and sale of accrued interest and premium are available for reimbursement of bond interest and redemption paid by the General Fund.

50				
51	Totals -----	\$2,888,875	\$3,520,756	\$5,893,625

a Interest, principal, and Sinking Fund payments on these issues to their final maturities are covered by transfers from the Bond Sinking Fund of 1943.

b Donated funds have been set aside in the Olympic Bond Fund for payment of interest and redemption on these bonds.

c Interest and redemption on these bonds are covered by motor vehicle license fee revenues transferred to the General Fund.

d Estimated sale of \$50,000,000 in May 1951, and \$50,000,000 in November 1951.

e With the exception of the Sinking Fund payment on the Sacramento State Buildings Bonds of 1913, the debt service expenditures for each fiscal year include interest and redemption payments due on July 2d of the succeeding fiscal years, which are disbursed from the Treasury on May 30th for transmittal to the State's fiscal agent in New York City.

f Sale of accrued interest, premium, and interest earned on investments was made available for transfer to the General Fund by Chapter 18, Statutes 1950 (Third Extraordinary Session).

23				
24	REAL PROPERTY ACQUISITION			
25				
26	Analysis			
27				
28				
29	This property acquisition program of the Department of Agriculture has consisted of purchasing sites for new plant quarantine sta-			
30	tions at Meyers and Truckee Wye to permit relocation of stations in the Lake Tahoe area; purchase of a site, formerly leased,			
31	for the Redwood Highway plant quarantine station; purchase of site for Peavine plant quarantine station previously located on			
32	highway right of way; and acquisition of a site for new diagnostic laboratory at Petaluma.			
33	Acquisition of Sites for Plant Quarantine Stations:			
34	Meyers (Stateline)-----	\$4,448	-	-
35	Truckee Wye-----	16,020	-	-
36	Redwood Highway-----	3,000	-	-

47				
48	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,			
49	AND EQUIPMENT			
50				
51	Analysis			
52				
53				
54	Expenditures for major construction by the Department of Agriculture have been for replacement of plant quarantine stations at			
55	Daggett, Yermo and Hornbrook which were constructed in 1922 and 1923 and are inadequate for present traffic; construction of			
56	new plant quarantine stations at Meyers and Truckee Wye to replace old stations at Brockway, Stateline and Truckee, to effect			
57	more efficient operation; and construction of diagnostic laboratories at San Gabriel, Fresno, and Petaluma to provide animal and			
58	poultry disease diagnostic services in these areas.			
59				
60	Expenditures From Budget Act Appropriation (PWER):			
61

DEPARTMENT OF CORRECTIONS

1 GENERAL CONDITION OF EXISTING FACILITIES: The two major institutions of this department, Folsom and San Quentin,
 2 were established in 1858 and 1872, respectively, and many of the buildings were constructed prior to 1900. A major rehabilitation
 3 and reconstruction program is now under way. The newer institutions contain numerous portable steel buildings which are rapidly
 4 deteriorating and will require replacement within a few years. In general, throughout the department, there is need of replace-
 5 ment or major repair to electric conduits and lighting, sewers, plumbing, steam plants, floors, roofs, and in many cases it is
 6 advisable to demolish condemned or inadequate structures. Replacement of obsolete buildings and other facilities will effect large
 7 savings in the amounts now required for maintenance and repair.

DEPARTMENT OF CORRECTIONS

POPULATION AND CAPACITIES

THE POPULATION trend continues upward. As of November 30, 1950, there were 11,495 inmates in the various Department of Corrections facilities. It is estimated that there will be 11,855 inmates by June 30, 1951; 12,120 by June 30, 1952; and 13,700 by June 30, 1957.

PERMANENT CAPACITY at present is approximately 6,061, including the six new state forestry camps.

OVERCROWDING, including the use of temporary facilities for all institutions of the department will amount to 94.1 percent as of June 30, 1951, ranging from 49.7 percent at Folsom to 124.6 percent at Chino. As planned, overcrowding will be reduced to 32.2 percent by June 30, 1953, and 27.6 percent by June 30, 1954.

PROJECT DETAIL

Analysis

The present temporary institution was opened in 1950 using leased facilities in Los Angeles County on the south end of Terminal Island at San Pedro. These were formerly used as naval disciplinary barracks. The main buildings are made of reinforced concrete, and auxiliary and industrial buildings are built of wood, stucco, and prefabricated steel. The inmate capacity is being increased to the planned maximum of 1,000 in 1951-52.

The new permanent institution will provide special custody of inmates who are mentally defective, chronically ill, narcotic addicts, sex offenders, or otherwise physically or mentally abnormal. Close custody will be provided in the reception center unit for observation and study of new commitments, prior to assignment to other institutions. Due to the nature of the institution there will be a limited training program and the emphasis will be on treatment. Reinforced concrete housing will be provided for approximately 600 inmates initially with ultimate expansion to 1,800 capacity. The site for the institution is located in Solano County about two miles south of Vacaville and consists of 903 acres of land of which approximately 100 acres are to be used for inmate and employee building areas. The completion date of the initial 600 capacity unit is estimated at July 1, 1953.

58	PROJECT DETAIL			
59				
60	Analysis			
61				
62	This is primarily a minimum security prison with an extensive agricultural and industrial program. About half of the 1,500 inmates are			
63	housed in permanent facilities. The institution is located in San Bernardino County about two miles south of Chino on 2,566 acres			
64	of land. It was opened in 1941 and consists of reinforced concrete permanent main buildings, semi-permanent steel industrial build-			
65	ings, frame farm buildings, and temporary steel barracks buildings for dormitories and classrooms. The construction program under			
66	way is principally for the replacement of obsolete temporary facilities and for completion of the institution.			
67	The southern reception center is located on a 15 acre portion of the Chino site. The clinic is of reinforced concrete construction with a			
68	capacity of 400 inmates. Construction of this unit is expected to be completed about the first of the 1951-52 Fiscal Year.

PROJECT DETAIL

Analysis

This is primarily a maximum custody prison with a large industrial program. The permanent facilities are constructed of reinforced concrete and have a normal capacity of 1,870 inmates. The institution is located almost entirely in Sacramento County two miles northeast of Folsom on a 1,313-acre site. The prison was opened in 1858. A major rehabilitation program is now under way to replace obsolete buildings and service facilities.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Expenditures From Budget Act Appropriation (PWER):

Sewage disposal and water pumping plant improvements

Continue rehabilitation of electrical distribution system

Furniture for each cell and showers for cell blocks

Industrial buildings (cannery) (partial cost)

Expenditures From Special Appropriations and Reserves (PWER):

Inmate Housing and Custodial Projects:

Install toilets, washbasins, and heaters in guard towers

Provide temporary segregation cell area

Replace and repair locks and locking bars in cell building

Construct and equip farm dormitory

Chain link fence and metal detector units

Employee Housing Projects:

Repair and rebuild existing employees' houses

Provide employees' houses with linoleum, water heaters, and furnaces

26	PROJECT DETAIL			
27				
28	Analysis			
29				
30	This is a general purpose prison with an extensive industrial program. The permanent facilities are constructed of reinforced concrete			
31	and have a normal capacity of 2,750 inmates. The institution is located in Marin County three miles southeast of San Rafael on			
32	a 404-acre site with a very limited area suitable for buildings. The prison was opened in 1852. At the present time a major rehabil-			
33	itation program is under way to replace obsolete buildings and service facilities.			
34				
35				
36	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
37				
38				
39	Expenditures From Budget Act Appropriation (GF):			
40				
41	Modernize inmate mess hall, including new floor, new tables and			
42	serving tables, repairs to tile wainscote, and complete repaint-			
43	ing of the interiors-----	-	-	\$223,200
44	Preliminary plans for commissary, laundry and maintenance			
45	shops buildings to further develop the over-all rehabilitation			
46	program-----	-	-	26,200
47				
48	Expenditures From Budget Act Appropriation (PWER):			
49				
50	Replace boiler room stack-----	-	\$27,550	-
51	New foundry-----	-	48,000	-
52	Sewage disposal plant-----	-	335,375	-
53	New chapel and religious education building-----	-	101,000	-
54				
55	Expenditures From Special Appropriations and Reserves			
56	(PWER):			
57				
58	Inmate Housing and Custodial Projects:			
59	Renovate captain of the yard building and lieutenant of the			
60	guards office-----	\$1,101	\$798	-
61	Reroof, rewire, replace panels, locks, and screens in south			
62	building-----	1,450	22,802	-
63	Paint buildings and cell blocks-----	7,007	7,917	-
64	Heating system for old stone prison-----	4,948	2,602	-
65	Employee Housing Projects:			
66	General repairs to 90 employees' residences-----	10,111	30,974	-
67	Replace warden's cookhouse-----	-	3,000	-
68	Remodel two residences for guest house and demolish warden's			
69	residence-----	-	15,901	-
70	Service and Utility Projects:			
71	Re-equip main kitchen-----	-	5,680	-
72	Increase capacity of power plant by additional boiler and other			
73	alterations-----	16,210	1,800	-
74	Repairs to general mess hall-----	8,286	-	-
75	Renew pipe and enlarge valley reservoir-----	853	927	-

PROJECT DETAIL

Analysis

The New Medium Security Prison is to be located in Southern California. Funds are available for the acquisition of a site but as yet none has been acquired. The institution will be constructed of reinforced concrete and will house approximately 1,000 inmates initially with an ultimate expansion to 1,500. Funds for preliminary plans are included in the 1951-52 Fiscal Year.

60				
61	The new institution will be primarily a medium custody prison with an agricultural-vocational training and treatment program. It will			
62	house 1,200 inmates in reinforced concrete facilities. The site for the new institution is located in San Joaquin County about four			
63	miles east of Tracy and consists of 783 acres of land of which approximately 80 acres are to be used for inmate and employee			
64	building areas. The remainder of the site will be used for farming activities. The completion date is estimated at July 1, 1952. The			
65	present institution at Lancaster is located in temporarily leased facilities and houses 550 inmates.

	PROJECT DETAIL			
	Analysis			
	The present institution is located near Tehachapi, Kern County. Due to its isolated location it has been almost impossible to obtain a working staff. A minimum of construction and improvement projects are being undertaken at the present time.			
	The new institution for women includes all types of custody and is also the reception center for new commitments. It will have an industrial-vocational training and treatment program. Reinforced concrete housing will be provided for approximately 400 inmates initially with ultimate expansion to 600 inmates capacity. The site for the institution is located in San Bernardino County about seven miles northwest of Corona and consists of 120 acres of land. The completion date is estimated at November 1, 1952.

YOUTH AUTHORITY

EXPLANATION OF CAPITAL OUTLAY PROGRAM

GENERAL CONDITION OF EXISTING FACILITIES: In general the permanent buildings in all facilities are in a fair state of repair as a result of the completion of a deferred maintenance program.

The buildings at the Ventura School for Girls are in very poor condition. The buildings are beyond their life expectancy of 30 years for frame construction. The school was constructed in 1913, 37 years ago. A program of replacing old facilities with permanent buildings of more suitable design and more economical operating costs is proposed in the 1951-52 Fiscal Year.

At Preston there are temporary buildings housing the segregation unit. These units are constructed of war surplus Butler huts, with a Quonset hut in use as a classroom and recreation building. These buildings have a life expectancy of 10 years and must eventually be replaced with more permanent type buildings.

Fred C. Nelles School for Boys is in good condition except for some cracks caused by an earthquake in the 1930's and the condemnation of one cottage and one wing of the education building by structural engineers of the Division of Architecture.

The Paso Robles School for Boys occupies the abandoned Estrella Army Air Base. The barracks are of frame and tarpaper construction, built in 1940 with a life expectancy of five years. The building program will replace these units.

Fricot Ranch School for Boys now occupies new dormitories and has a new kitchen and commissary unit. Other buildings are scheduled for replacement in the near future.

The Los Guilucos School for Girls is housed in the old Knights of Pythias Home for the Aged which was constructed in 1926. The new building program will increase the total capacity of the school and will utilize most of the buildings now in use.

GENERAL CONDITION OF COMMITMENT BACKLOG

Although there are not as many boys and girls in county jails and juvenile halls awaiting delivery to Youth Authority this year as there were last year, the condition is still a critical one. Juvenile halls and county jails throughout the State are overcrowded, and many of these boys and girls are required to sleep on floors while awaiting delivery to Youth Authority facilities. It is imperative that the construction of the reception center and the enlarging of Youth Authority facilities be expedited as much as possible. By so doing these boys and girls can be removed from the overcrowded county facilities in a shorter time.

The basic theory of the Youth Authority is individualized treatment of youthful offenders. Individualized study of each boy and girl by a competent staff in a reception center is a prerequisite in successful rehabilitation in Youth Authority training schools and camps. At the present time some of the youths committed to the Youth Authority are being given this study at a temporary clinic located on the grounds of the Preston School of Industry at Ione. The others, by necessity, are being sent to Youth Authority schools from the county jails and juvenile halls without the benefit of this clinical study.

^a Sections 1731.5 and 1736 of the Welfare and Institutions Code provides that the Youth Authority may accept commitments if facilities are available. Because of these sections of the code, the Youth Authority does not have resident population in excess of designed or temporary capacity. The above estimates are based on the assumption that there will be no change in the code.

^b Inmates housed in permanent buildings within rated capacity.

^c Inmates housed in permanent buildings in excess of rated capacity and inmates housed in temporary buildings.

^d Includes clinic operated at Preston up to June 30, 1953, when separate clinics will be in operation.

^e These wards will come from the counties and Preston and not as transfers from the Vocational Institution at Tracy.

29	Chapter 303, Statutes of 1949, added Section 1250 to the Welfare and Institutions Code which provides for "an institution for the			
30	confinement of males to be known as the Youth Training School."			
31	The site for this school has not as yet been selected. However, it is contemplated that it will be located in the Southern California			
32	area. The type of buildings for this school will be one-story and constructed of reinforced concrete with radiant heating.			
33	It is planned that this school will house 600 wards of the age group 16 to 21. It will have a vocational and educational type of pro-			
34	gram with a limited scope farming program. This request contemplates completion of the school in 1954-55.

23

24

25 Analysis

26

27 This institution will be located east of Sacramento near Perkins approximately seven miles from Sacramento. This facility will receive

28 all wards committed from Northern California. New wards will receive psychological, psychiatric, educational, medical, and dental

29 examinations and then will be assigned to one of the Youth Authority facilities. The units will be one-story and of reinforced con-

30 crete construction with radiant heating. Sleeping quarters will all be single rooms. The clinic site will be approximately 17 acres.

31 Initial construction will house 150 wards with an ultimate planned capacity of 250. It is expected that construction will be com-

32 pleted by July 1952. The buildings included are administration, admission, medical unit, clinic unit, kitchen, dining rooms, cottages,

33 commissary, recreation, education, laundry, maintenance, and staff housing.

35	PROJECT DETAIL			
36				
37	Analysis			
38	This facility will be the same as the Northern Reception Center and Clinic with the exception that the site is approximately 34 acres.			
39	The initial buildings will have a capacity of 250 with an ultimate capacity of 350. All wards committed from Southern California			
40	will be received at this facility.			
41	The first unit for which financing has been made available will provide bed space for 250. It is expected that construction will be			
42	completed July 1952. The buildings included are administration, admission, medical unit, clinic unit, kitchen, dining rooms,			
43	cottages, commissary, recreation, education, laundry, maintenance and staff housing. The second portion of the construction pro-			
44	gram will increase the bed capacity to 300 and plans call for completion by January 1953.

PROJECT DETAIL

**MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT**

Analysis

Fricot Ranch School for Boys is located in the foothills, 11 miles from San Andreas, California, at an elevation of approximately 1,700 feet. The general terrain of the country is mountainous. The new construction is of concrete floor slab with radiant heating, frame walls and ceilings. The type of architecture is modern. Of the total of 1,090 acres, buildings are located on approximately 50 acres. The present capacity is 101 wards. At the completion of the present building program, the capacity will be 162 boys, including hospital and detention units. There will be three dormitories housing 50 wards each. Three dormitories, the kitchen, dining room and commissary building will be completed and ready for occupancy by January 1, 1951. The hospital and receiving, school, and auditorium buildings will be completed by August, 1951.

Expenditures from Budget Act Appropriation (GF):

Construct five residences to replace three substandard houses and provide two additional units for staff members -----	-	-	\$63,000
Replace earthen ditch with pipeline from the upper reservoir to headgate to provide year around water supply (first part of five-year program) -----	-	-	25,000

PROJECT DETAIL

Analysis

Fred C. Nelles School for Boys was constructed in 1890 at Whittier, California. School buildings are of brick construction with a normal capacity of 306 excluding the hospital and detention units. The buildings, with the exception of Edison cottage and one wing of the education building, are in good condition, excluding some cracks in the walls caused by an earthquake in the thirties. Edison cottage and one wing of the education building have been condemned by the structural engineers of the Division of Architecture.

**MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT**

**Expenditures From Special Appropriations and Reserves
(PWER):**

Inmate Housing and Custodial Projects:			
Extend fence and build gate house in front of school	\$185	-	-
Replace booster pump and pump house	7,249	\$2,476	-
Replace boiler feed pump	1,776	-	-

PROJECT DETAIL

Analysis

The Paso Robles School for Boys is located approximately six miles northeast of the town of Paso Robles. The school now occupies the former site of the Estrella Army Air Base. The school site covers 203 acres and the new institution will occupy an area of approximately 40 acres. The present capacity of this school is 150 boys. When the present army barracks are completely replaced by permanent facilities the ultimate capacity will be increased to 380. All buildings at this institution will be of single-story construction and will be of reinforced brick construction with radiant heating. Each dormitory will house 50 boys and will be of dual type, single rooms, and dormitories.

The buildings for which funds have been made available will provide bed capacity for 280. These buildings are: administration, hospital, receiving, four cottages, kitchen, dining room, commissary, fire house, school, gymnasium, vocational shops, and laundry. Completion date, July, 1952.

**MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT**

Expenditures From Budget Act Appropriations (GF):

Install central power plant and steam distribution system to provide heat and power for all units ----- - - \$129,500

Partial site development to provide part cost of utilities, roads, and walkways ----- - - 15,000

Construct one 50-boy dormitory to provide additional bed space for wards ----- - - 161,500

PROJECT DETAIL

Analysis

Los Guilucos School for Girls is located in the Santa Rosa Valley near Santa Rosa. The new school will be of reinforced concrete construction with radiant heating either in floor slabs or in the walls. All buildings will be of one-story construction.

The school property includes 420 acres. The building area will occupy approximately 40 acres. The capacity of the present institution is 132. At the completion of the postwar building program the total capacity will be 290 wards. The first unit, consisting of the administration, hospital, receiving, detention units, two dormitories, kitchen, dining room and commissary buildings, and mechanical and electrical services to house 210 wards, will be completed in March, 1952.

**MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT**

Expenditures From Budget Act Appropriation (GF):

Partial site development includes part of cost to provide electrical,
mechanical and sanitary services, and grading ----- - - \$10,000

Construct one 40-girl dormitory to provide additional capacity ----- - - 150,000

Expenditures From Budget Act Appropriation (PWER):

Construct and equip two cottages ----- - \$255,600 -

Construct and equip six classrooms ----- - 90,000 -

Construct and equip gymnasium ----- - 104,300 -

1	Ventura School for Girls—Continued			
2				
3				
4	Analysis			
5				
6	The Ventura School for Girls is located in Ventura County. The present school was constructed in 1916 on hillside terrain. Present			
7	facilities are of cottage type; each cottage containing its own kitchen, dining room and living area. Dormitories are located on			
8	second story and consist of two 15-girl dormitories per cottage that are separated, making supervision difficult and expensive.			
9	The ultimate plan is to reconstruct the institution on more level terrain, and replace the cottage-type facilities with regular dormitories			
10	and central kitchen and dining area. This can effect considerable savings in maintenance and other operating costs as well as provide			
11	better training for the wards. The first step toward this goal is proposed in the 1951-52 year.			
12				
13				
14	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,			
15	AND EQUIPMENT			
16				
17	Expenditures From Budget Act Appropriation (GF):			
18				
19	Site development to provide ground clearing, grading, utilities for			
20	all of the new buildings, to revamp existing utility systems			
21	and provide for roads, walks, and landscaping-----	-	-	\$186,500
22	Construct central kitchen, dining room and commissary to replace			
23	kitchens in eight individual cottages, to increase operating			
24	efficiency and provide better inmate training-----	-	-	531,000
25	Construct two 50-girl dormitories to replace existing cottages to			
26	provide a more economical and operable institution-----	-	-	335,000
27	Construct restricted detention building to replace present unsuit-			
28	able detention unit and also provide a restricted unit-----	-	-	187,500
29				
30	Expenditures From Special Appropriations and Reserves			
31	(PWER):			
32				
33	Service and Utility Projects:			
34	Replace approximately one and one-eighth miles of 6-inch

Department of Education

STATE COLLEGES, TECHNICAL COLLEGES AND SPECIAL SCHOOLS

GENERAL CONDITION OF EXISTING FACILITIES

There are at present nine established state colleges, six of which are operating in permanent quarters which have been built to handle the enrollments that were anticipated prior to World War II. The California State Polytechnic College located at San Luis Obispo and the California Maritime Academy at Vallejo, also have been operating on permanent sites. Three new colleges were established during the past three years and are now operating in rented facilities in the cities of Los Angeles, Long Beach, and Sacramento. The buildings for the older established colleges are inadequate to care for the presently anticipated enrollments.

Present permanent buildings have been supplemented by certain temporary buildings which were provided immediately after the war by utilizing war surplus buildings of the temporary barracks type. Some of these were constructed of sheet metal and some of plywood. The floors of these buildings are made of 3/4-inch plywood on metal stringers set on temporary footings; consequently, they are inadequate and will shortly have to be abandoned as unsafe. The cost of heating and general maintenance of these temporary buildings is constantly increasing. In order to maintain the educational program in the state colleges, it is imperative that the present program of replacing these temporary buildings with permanent structures be continued, so as to provide sufficient instructional space for anticipated enrollments.

At present, resident schools for the deaf and blind exist at Berkeley, both housed in recently expanded and modernized facilities. A new school for the deaf in Riverside is in the planning stage. Residential schools for cerebral palsied children have been established in temporary rented quarters in both Northern and Southern California, and the Northern California school is budgeted to move to new permanent quarters on the San Francisco State College campus in 1951-52. In addition, one residential and two nonresidential sheltered workshops are operated in permanent quarters, the first in Oakland, and the latter two in Los Angeles and San Diego. The shops in Oakland and San Diego are old structures in need of repairs and renovation.

The present permanent buildings and the buildings under construction or financed by current appropriations will not adequately house the above enrollments. The following table indicates by percentage the extent to which present and financed buildings fill the need for the 1954-55 enrollment for instructional and noninstructional facilities.

State College	Percent of Total Permanent Plant Requirements for 1954-55 Enrollment Financed or Completed as of:			Percent of Permanent Classroom Needs for 1954-55 Enrollment Financed or Completed As of June 30, 1951
	June 30, 1950	June 30, 1951	June 30, 1952

^a Authorization for student dormitories at state colleges was originally provided by Chapter 155, Statutes of 1946, which appropriated \$4,000,000 for this purpose. This amount, augmented by \$2,000,000 from Chapter 145, Statutes of 1946, for price increases, has been partially allocated to Fresno, San Diego, and San Jose State Colleges for 400-unit dormitories, where surveys indicate a definite ability to meet financing requirements. Allocations for the construction are based on two-thirds of total dormitory construction cost to be financed from the Postwar Employment Reserve Fund, and one-third from the State College Dormitory Construction Fund (see Education Code Sections 20541-20607).

1				
2				
3	Fresno State College—Continued			
4	Analysis			
5				
6	This school, established in 1911, will shortly be moved from its present location and will be established on a new site, which, when			
7	condemnation proceedings are completed, will consist of approximately 960 acres. This will permit the assembly of all educational			
8	and agricultural activities in one area.			
9	The school will offer courses in general education, agriculture, and teacher training to a 1951-52 enrollment of 2,800 full time students.			
10	Plant capacity is based upon a planned enrollment of 5,000 students by 1965.			
11	Building now under construction at the new campus are the men's gymnasium, industrial arts building, and demonstration school. A			
12	boiler plant and site development for these new buildings are budgeted for 1951-52.			
13	The agriculture department of this school is presently housed in temporary facilities at Hammer Field while a permanent farm and			
14	instructional quarters are being constructed.			
15

PROJECT DETAIL

Analysis

This school, established in 1948, offers courses in general education and teacher training to a planned enrollment of 1,500 full-time students in 1951-52. During the current year the school is enrolling 600 students in rented facilities, entirely inadequate for the purpose. A new site of 320 acres was given to the college by the City of Long Beach in 1950, and planned expansion of enrollment anticipates construction of temporary quarters on this new campus before the 1951-52 school year starts. Plans are also being drawn for permanent structures.

REAL PROPERTY ACQUISITION

Preliminary surveys for college site (PWER) ----- \$5,761 -- --

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Budget Act Appropriation (PWER):

Construct 23 temporary wood frame buildings on skids to be used
as classrooms until permanent rooms are available, and then
as utility buildings ----- -- \$342,000 --
Develop site and construct the following permanent buildings:
heating plant, library, science building, classroom wings,
fine arts building (first unit), administration building,
women's lockers and showers, men's lockers and showers,
and snack bar ----- -- 3,235,432 --
Initial complement of equipment for classrooms, library, and
laboratories ----- 41,257 78,443 --
TOTAL EXPENDITURES (Major Construction) ----- \$41,257 \$3,655,875 --
TOTALS, LONG BEACH STATE COLLEGE (PWER) ----- \$47,018 \$3,655,875 --

PROJECT DETAIL

Analysis

A two-year upper division college located on the campus of the Los Angeles City College, under rental agreement with the Los Angeles City School District. As Chapter 86, Statutes of 1949 specifically limits the state college to this location, no permanent building program has been planned to date.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,

33	PROJECT DETAIL			
34				
35	Analysis			
36				
37	This two-year upper division liberal arts college established in 1947, will accommodate the equivalent of 1,300 full-time students in the			
38	budget year in rented facilities at the Sacramento Junior College campus. A 265-acre site for a new campus has been purchased, and			
39	development of the first units are planned for the current and budget years, including administration, science, library, general class			
40	rooms, cafeteria, and boiler plant buildings.			
41	Ultimate plant capacity will provide facilities for 2,500 full-time students by 1965, as established by the Strayer Report on Higher			
42	Education Needs.			
43				
44				
45	REAL PROPERTY ACQUISITION

33	and workshop, and offices and storerooms for an R. O. T. C.			
34	unit (GF) -----	-	-	15,530
35	Remove soffit brackets and install floor hinges in fine arts build-			
36	ing to prevent accidents (GF) -----	-	-	520
37	Construct enclosed trash can cabinets to improve efficiency and			
38	appearance and to prevent accidents (GF) -----	-	-	1,500
39	Replace worn-out chalk boards in permanent buildings (GF) -----	-	-	3,100
40	Install drainage lines and concrete sumps and pumps under			
41	administration and training school buildings to carry off sur-			
42	face water (GF) -----	-	-	1,900
43	Lay asphalt tile over old concrete floor in a science building room			
44	to facilitate maintenance (GF) -----	-	-	420
45	Install miscellaneous valves to properly control water service to			
46	various buildings and to equalize pressure (GF) -----	-	-	1,600
47	Install 4" water main along east and south edge of main campus			
48	to serve above-ground sprinkler system, for fire protection,			
49	shrub and tree irrigation (GF) -----	-	-	9,300
50	Install two 200,000 BTU heaters in women's gym to increase heat			
51	output and to replace old units (GF) -----	-	-	700
52	Install separating partitions for library study tables to provide			
53	more efficient study areas (GF) -----	-	-	2,800
54	Construct baseball backstops with pipe supports for new men's			
55	playfield recently completed (GF) -----	-	-	1,000
56	Install additional shelving in chemistry department to facilitate			
57	supply handling (GF) -----	-	-	1,100
58	Install air conditioning system in home arts laboratory to provide			
59	temperature control in hot weather (GF) -----	-	-	1,000
60	Install automatic pump in condensate return line of the steam			
61	heating system, music building, for more efficient operation			
62	(GF) -----	-	-	450
63	Replace roofs and flashings on flat deck areas, gymnasium, little			
64	theater, library, and science buildings (GF) -----	-	-	4,300
65	Install concrete foundations and concrete floors in two steel build-			
66	ings to provide workable warehouse space (GF) -----	-	-	4,800
67	Remodel and refurnish training school cafeteria to alleviate over-			
68	crowded campus cafeteria (GF) -----	-	-	2,500
69	Remodel two administration building rooms and registrar's office			
70	for necessary expansion (GF) -----	-	-	4,900
71	Replace deficient lighting in offices and classrooms, permanent			
72	buildings, with fluorescent fixtures to partially correct inade-			
73	quate lighting facilities (GF) -----	-	-	4,500
74	Complete installation of circuit breaker panels in various buildings			
75	to replace unsafe and unusable lighting (GF) -----	-	-	2,400
76	Overhaul transformers and install fuses and unfused banks to			
77	increase work load in accordance with safety regulations (GF)			
78	Extend fire alarm system to new buildings and install additional			
79	warning devices in existing system in compliance with fire			
80	regulations (GF) -----	-	-	3,900

PROJECT DETAIL

Analysis

This college was established in 1899. In 1939 a new campus site was acquired at 19th Avenue and Lake Merced Boulevard. Additional purchases have increased the new campus until it now covers 97.5 acres. Courses in general education and teacher training are offered.

The new campus has the following completed facilities: Gymnasium and natatorium, boiler plant, maintenance shops, veterans housing unit, and some temporary buildings for classrooms. The science building will be completed for occupancy September 1951.

The old campus will be operated until all facilities have been completed at the new campus.

REAL PROPERTY ACQUISITION

Purchase of site for student dormitories	\$165,906	\$385,000	-
Purchase of site for postwar buildings	49,254	-	-
TOTAL EXPENDITURES (Real Property)	\$215,160	\$385,000	-

24	PROJECT DETAIL			
25	Analysis			
26	Established in 1901, this school, located on 2,226 acres at San Luis Obispo, provides agricultural and vocational education. Enrollment			
27	of 2,975 students will utilize present capacity of the college, but ultimate plant capacity will provide teaching facilities for 4,080			
28	students. Except for permanent administration, library, and auditorium buildings, all structures are of temporary farm-type con-			
29	struction.			
30	Two Southern California branches are maintained near San Dimas. The Voorhis unit specializes in citriculture and horticulture, with			
31	frame and stucco dormitories and classrooms, and temporary farm-type structures. The Kellogg unit consists of 812 acres received			
32	as a gift November 1, 1949 to provide expansion of instructional facilities in that area, and at present contains farm lands and an			
33	equerry.			
34	REAL PROPERTY ACQUISITION			
35	Purchase of farm property -----	\$190,000	-	-
36	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,			
37	AND EQUIPMENT			
38	Construct central boiler plant to replace present old boiler plant			
39	which was constructed in 1901 and does not have sufficient			
40	capacity to heat existing buildings -----	-	-	\$469,000
41	Plot plans and study of future development for Voorhis and Kellogg

PROJECT DETAIL

Analysis

This school, located at Vallejo, will have an average enrollment of 150 students in 1951-52—the full capacity of the institution. Present plans do not call for expansion in excess of that number. The only permanent facilities at this campus are a gymnasium and pool; all other facilities are temporary structures. Additional dormitory space is obtained by using berthing quarters on the Training Ship Golden Bear.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Special Appropriations and Reserves (PWER):

Paint staff residences -----

\$4,065

-

-

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Budget Act Appropriation (GF):

Repairs and alterations to barracks A, B, and C: repaper roofs,
mastic pave floors, waterproof showers and toilet rooms -----

-

-

\$4,745

Provide and install wallboard on ceilings and walls of instructional
room, seamanship building -----

-

-

1,950

Repaper roof on mess hall and install asphalt tile in dining room -----

-

-

2,130

Repaper roof of machine shop building -----

-

-

700

Remove old sash and install new stronger-built sash designed to
withstand heavy winds in three staff cottages -----

-

-

585

Seal and paint interior walls of swimming pool room and one rest
room -----

-

-

820

Paint exterior and reroof the recreation and library building -----

-

-

380

PROJECT DETAIL

Analysis

Established in 1858, this residential school for deaf children will provide general and vocational education to 452 residential and 40 day students in 1951-52. On a site now comprising approximately 113 acres, the school is housed in permanent reinforced concrete buildings, including an administration building, dining hall and bakery, classroom buildings and dormitories. Only the gymnasium and vocational arts building are of older brick construction, and are to be modernized or replaced. Renovation of the latter building is contemplated in the current year. The superintendent's and principal's residences are of very old frame construction.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENTExpenditures From Special Appropriations and Reserves
(PWER):

Site development (grounds and roads for new buildings)	\$67,500	—	—

PROJECT DETAIL

Analysis

This school was authorized in 1947, and plans for the utilization of the 70-acre site have been completed for an institution which will ultimately house 500 deaf students between the ages of 5½ and 21 years. In general, all buildings will be one-story reinforced concrete and/or brick with concrete floor and roof slabs.

Plans and specifications for the first units to be constructed have been completed and it is expected that construction will start February 1, 1951. These buildings will provide facilities for 75 primary, 75 intermediate, and 75 advanced students.

The structures will include: administration building, primary school, social hall, primary dormitory, dining room and kitchen, maintenance building, infirmary, advanced girls' dormitory, intermediate girls' dormitory, intermediate and advanced school building, gymnasium and field house, and advanced boys' dormitory. Also included is site development and provision for utilities.

PROJECT DETAIL

Analysis

This institution, which provides vocational training and orientation for the adult blind, was established in 1885. Occupying 22 acres, it provides training for 175 workers of which 110 are residential and 65 nonresident. The present plant is being used to its worker capacity and the department plans are based upon no increase. However, the department does plan on increasing its vocational training facilities with the addition of a factory trade building now being designed.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENTExpenditures From Special Appropriations and Reserves
(PWER):

Alterations to kitchen and bakery -----

\$6,636

State Blind Shop, San Diego

SUMMARY AND
RECONCILIATION WITH APPROPRIATIONSMINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

General Fund

Budget Act appropriation (expenditures)-----	\$4,335	-	\$16,113
--	---------	---	----------

PROJECT DETAIL

Analysis

This workshop, established in 1937, provides sheltered employment to 56 factory employees, with an opportunity work center to be established in the budget year to provide training facilities for 15 additional workers. The shop is housed in an old brick factory-type building, badly in need of minor repairs. Additional space for warehousing is located in leased facilities nearby. No major building program is contemplated for this workshop.

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Budget Act Appropriation (GF):

Install overhead automatic sprinkler system (additional cost) (GF) -----	\$4,335	-	-
Install ventilating system in kitchen (GF) -----	-	-	\$123
Construct office for accounting officer (GF) -----	-	-	287
Construct office for storekeeper (GF) -----	-	-	205
Install 54 lineal feet of framed wood partitions to separate work areas (GF) -----	-	-	328
Install 650 lineal feet of rounded metal guide on floors for guiding blind workers (GF) -----	-	-	410
Revise and modernize lighting system to meet production requirements (GF) -----	-	-	6,150
Replace splintered portion of second floor with wood flooring (GF) -----	-	-	3,690
Batten and repair approximately 5,000 square feet of second floor ceiling (GF) -----	-	-	820
Paint building interior (GF) -----	-	-	4,100
TOTALS, STATE BLIND SHOP, SAN DIEGO (GF) -----	\$4,335	-	\$16,113

55				
56				
57	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,			
58	AND EQUIPMENT			
59				
60	Analysis			
61				
62	The capacity of the existing vault in the State Treasurer's office has been reached and additional space is required. Present practice is			
63	to issue bonds in small denominations in contrast to previous issues being available in very large denominations. This results in			
64	much greater quantity of bonds and requires more space. There has also been a very large increase in available funds for investment			
65	since the present vault was built. The amount budgeted will provide space in the basement of the State Capitol and will include the			
66	necessary lockers, alarms, and other protective features.			
67	Provision is made for replacing the Governor's residence. The existing structure has been repeatedly condemned as a fire hazard and is			
68	extremely unsafe. The cost of operating and maintaining the present structure is excessive (see footnote below).			
69				
70	Expenditures From Budget Act Appropriations:			
71				
72	Construct and equip additional vault facilities for use of State			
73	Treasurer (GF) -----	-	-	\$182,232
74	Construct and equip new Governor's residence -----	-	-	262,500 ^a
75	Construct addition to Public Works Building (Sacramento)			
76	(PWER) -----	\$2,000,750	-	-
77	Install air conditioning system in portions of Office Building No. 1			
78	(Sacramento) (PWER) -----	255,000	-	-
79	Alterations, improvements, modernization and equipment, State			
80	Capitol (Sacramento) (PWER) -----	-	\$812,500	-
81	Construct office building for use of Department of Education and			
82	other agencies, Capitol Mall (Sacramento) (PWER) -----	2,300,000	-	-
83	Construct a state garage—partial cost (Sacramento) (PWER) --	1,020,000	-	-
84				
85	^a Amount as estimated and included in Postwar Employment Reserve for this purpose. This project to be undertaken only if found to be			
86	clearly not in conflict with defense priorities.

PROJECT DETAIL

REAL PROPERTY ACQUISITION

Acquisition of new site for State Fair (PWER)

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Budget Act Appropriation (PWER):

Land preparation, fencing, installation of utilities and construc-
tion of exhibit buildings, administration building, shops and
barns at new fair site—partial cost

Expenditures From Special Appropriations and Reserves
(PWER):

Land preparation, fencing, installation of utilities and construc-
tion of exhibit buildings, administration building, shops and
barns at new fair site—partial cost

Purchase of additional equipment and renovation of existing equip-
ment in connection with new site

Mapping, surveying and other preliminary investigations and
plans at new fair site

TOTAL EXPENDITURES (Major Construction)

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Budget Act Appropriation (SAS):

Construct cover over cattle judging ring

Construct concession bazaar

Additional ramps, pari-mutuel facilities and press boxes at grand-
stand

Improvements to sound system

Improvements to drainage

Improvements to electrical distribution system

Improvements to gas and water distribution system

Remodel Women's Building

Remodel Machinery Building

Remodel Counties Building

Remodel Hall of Flowers

Remodel Governor's Hall

Remodel concession stands

Remodel Educational Building

Remodel Industrial Building

Remodel showcases

Miscellaneous improvements and deferred maintenance

DEPARTMENT OF MENTAL HYGIENE

1 GENERAL STATEMENT OF EXISTING AND FUTURE BUILDING PROGRAMS: The building program for the institutions
 2 of the Department of Mental Hygiene, which was provided from Postwar Employment Reserve funds, is progressing with some
 3 structures completed and occupied, some now under construction, and some other structures still in the planning stage with the
 4 construction work not yet started. Some of the condemned or obsolete structures have been razed, others will be eliminated by
 5 construction work now in progress, or by work planned for the immediate future.
 6 Upon completion of the present building program, for which appropriations have been made, there will still remain some condemned
 7 or obsolete buildings at various institutions which must be replaced by future legislative appropriations.
 8 The DeWitt State Hospital and the Modesto State Hospital are temporary institutions acquired from the Federal Government. At
 9 some future time these institutions should be replaced with smaller hospitals for mental patients only, and having bed capacities of
 10 1,500 each.
 11 The following tables and explanations thereof provide information on the current budget requests, the progress made up to the present
 12 time on the building program, as well as the future building needs of the State to provide sufficient bed capacities in institutions
 13 for present overcrowding and normal population growth.

STATUS OF PRESENTLY AUTHORIZED CONSTRUCTION PROGRAM

43				
44				
45				
46	Appropriations have been made by the Legislature and allocations authorized by the Public Works Board for various construction allot-			
47	ments in the institutions of this department. In order to determine the status of the building program at the present time, the			
48	following statement summarizes patients' buildings either completed or to be completed by June 30, 1951, buildings to house			
49	patients which are now under construction, buildings to house patients for which appropriations are authorized but on which			
50	construction has not as yet started. In addition there are shown those structures to house patients which are requested in the			
51	1951 Budget.			
52	In addition to the projects in the following statements, many other structures not housing patients have been completed, are under			
53	construction at the present time, or are authorized for construction.			
54	To summarize the status of the building program for which appropriations and authorizations have been granted, the total patient			
55	bed capacities, both the replacement of condemned or obsolete structures, or additional bed capacities, are as follows:			
56			New	Replacement
57	Beds to be completed by June 30, 1951		3,827	3,444
58	Beds now under construction		3,056	-
59	Authorized bed construction not started		5,026	433

DEPARTMENT OF MENTAL HYGIENE—Continued

POPULATION AND CAPACITIES

POPULATIONS of the institutions, as of June 30, 1949, and June 30, 1950, are shown in the following table, together with estimated populations and capacities from June 30, 1951, to June 30, 1957. The estimated population for mental hospitals from 1953 to 1957 is based on a minimal annual increase of 700. During the past four years the annual increase has averaged from 1,150 to over 1,500 per year. Due to the additional personnel and facilities provided in the hospitals, it is felt that the annual increase in the future can be reduced to 700 per year, even in the face of the increasing population in the State.

The populations of the institutions for the mentally deficient from 1953 to 1957 are based on resident population of the institutions equivalent to one-tenth of 1 percent of the general population of the state. It is authoritatively estimated that 1 percent of the population of a community is mentally deficient, and that one-tenth of 1 percent of the population requires hospitalization in an institution for the mentally deficient. This estimated population should care for the present overcrowding in these institutions amounting to 1,407 patients on October 31, 1950, as well as the waiting list of 2,369 seeking admission as of that date.

BED CAPACITIES AND OVERCROWDING: The following table shows bed capacities as of June 30, 1949, June 30, 1950, as well as estimated bed capacities through June 30, 1954, when it is contemplated that all structures for which appropriations are available will be completed and occupied. At that time, considering 700 annual increase in population, there will be but 399 patients in excess of normal capacities of the mental hospitals. Thereafter overcrowding will increase unless additional bed capacities are provided by future appropriations.

In the institutions for mentally deficient, the capacities are based on the completion of present authorized construction, as well as 500 additional beds at the Porterville institution, which are requested in the 1951 budget. Based on an institution population equivalent to one-tenth of 1 percent of the state population, there would be an overcrowding of 30.5 percent or 2,694 patients upon completion of the present building program.

In addition, the present capacities at DeWitt and Modesto State Hospitals for mental deficient patients should be eliminated and these institutions operated for mental patients only. To do this additional bed capacities for 1,200 patients must be provided beyond those shown in the following table.

PLANNING FUNDS, AVAILABLE AND REQUESTED

Funds for architect's designs, but not for complete plans and specifications, have been provided for the following projects in the amounts indicated. Complete plans and construction will require appropriations by future Legislatures.

For the Psychiatric Clinic in Southern California design funds to the extent of \$75,000 are available for the complete 400-bed unit. An appropriation for the construction of the initial unit, estimated to house 150 beds, is requested in the 1951 Budget.

NAPA STATE HOSPITAL	
Tubercular unit addition—250 beds	\$17,819
Juvenile unit—150 beds	11,250
Auditorium	4,500
Nurses' training quarters	1,266
NORWALK STATE HOSPITAL	
Nurses' training quarters	3,000
LANGLEY PORTER CLINIC	
Addition to clinic—200 beds	37,500
PSYCHIATRIC CLINIC IN SOUTHERN CALIFORNIA	
Design of complete unit based on 400 beds	75,000
(Construction appropriation requested in 1951	
Budget of \$1,945,000 for first unit of clinic to	
include approximately 150 beds)	
COSTA MESA MENTAL DEFECTIVE INSTITUTION	
Master plan and design for 1,500 beds	150,000

^a Assumes yearly population increase for mental hospitals of 700.

^b Capacity of 1,510 based on securing appropriation for 500 beds in 1951 Budget.

^c Assumes population in mental defective institutions of 1/10 of 1 percent of general state population.

^d Estimated population and capacity of clinic based on securing appropriation in 1951 Budget.

^e Based on yearly population and capacities of all institutions as above outlined.

DEPARTMENT OF MENTAL HYGIENE—Continued

FUTURE APPROPRIATION REQUIREMENTS AFFECTING CAPACITY

The following list covers condemned or obsolete buildings housing patients which must be replaced by future construction appropriations as well as additional patient capacities which must be constructed to care for overcrowding and normal increases in population to June 30, 1955. In addition, funds must be secured to cover service building and utilities required for institution operation.

	CAPACITIES	
	NEW	REPLACE- MENT
Mental Hospitals		
AGNEWS:		
Receiving and treatment building—300 capacity to replace old receiving and treatment building, 152 capacity—Cottage O.A.C., 49 capacity and Cottage M, 62 capacity -----	37	263
MENDOCINO:		
Ward 16 at ranch—replace -----	-	54
NAPA:		
Juvenile unit (plans, funds appropriated) -----	150	-
Tubercular unit addition (plans, funds appropriated) -----	250	-
Workers ward building, 126 capacity—To replace poultry cottage, 29 capacity, and dairy cottage, 25 capacity -----	72	54
NORWALK:		
Ward building—To increase size of institution -----	300	-
PATTON:		
Ward building, 150 capacity—To replace ward 19, 126 capacity -----	24	126
STOCKTON:		
Ward building, 100 capacity—To replace barracks, 408 capacity, and cottage C, 23 capacity -----	-331	100
Ward building, 550 capacity—To replace main male building, 518 capacity -----	32	518
SOUTHERN CALIFORNIA MENTAL HOSPITAL:		
Ward buildings and service facilities and units to establish this new institution -----	2,000	-
DEWITT:		
Replace present temporary hospital having capacity of 2,071 mental patients with new institution for 1,500 mental patients only -----	-571	1,
MODESTO:		
Replace present temporary hospital having capacity of 2,475 mental patients with new institution for 1,500 mental patients only -----	-975	1,500
Mental Hospitals—Total Construction -----	988	4,115
If appropriations are made for above structures and buildings completed and occupied by June 30, 1955, the mental hospitals would then have an excess population over capacity of 111 patients, based on a minimal annual increase of 700 in population.		
Mental Defective Institutions		
PACIFIC COLONY:		
Addition to hospital building -----	220	-
Three additional ward buildings, 80 capacity each -----	240	-
SONOMA:		
Security training unit for girls -----	40	-
Five ward buildings, 100 capacity each—To replace poultry cottage, 18 capacity—Dairy cottage, 32 capacity—Bane annex, 61 capacity—4 wards in old Main building, 341 capacity -----	48	452
Five new ward buildings, 100 capacity each -----	500	-
PORTERVILLE:		
Additional ward building to increase capacity of institution to 2,010 beds (this allotment is in addition to appropriation for 500 beds requested in the 1951 Legislative Budget) -----	500	-
COSTA MESA:		
Ward buildings and hospital as initial units for establishment of new institution -----	1,500	-
DEWITT:		
Replace present temporary hospital having capacity of 780 mentally deficient patients with new institution for 1,500 mental patients only -----	-780	-
MODESTO:		
Replace present temporary hospital having capacity of 427 mentally deficient patients with new institution for 1,500 mental patients only -----	-427	-
Mental Defective Institutions—Total Construction -----	1,841	452
If appropriations are made for above structures and buildings completed and occupied by June 30, 1955, the institutions for mental defectives would then have an excess population over capacity of 1,107 patients. (Equivalent to an overcrowding of 10.4 percent): based on population increases in institutions equivalent to an institution resident population of 1/10 of 1 percent of the general state population.		
Clinics		
LANGLEY PORTER:		
Addition to clinic (plan funds appropriated) -----	200	-
CLINIC IN SOUTHERN CALIFORNIA:		
Addition to clinic (plan funds appropriated for 400 capacity unit). (This allotment is in addition to appropriation for 150 estimated beds requested in the 1951 Legislative Budget) -----	250	-
Clinics—Total Construction -----	450	-
Total Additional Capacity Construction Required (To be occupied by June 30, 1955) -----	3,279	4,567

PROJECT DETAIL

Analysis

This clinic, similar to Langley Porter Clinic, is planned to be located on the grounds of the University of California at Los Angeles and will operate in conjunction with the medical school and hospital of the latter. It will furnish research, training, and acute treatment facilities for Southern California. Ultimately, the clinic is planned for 400 inpatient capacity. Plans will be completed in 1950-51 and facilities for approximately 150 capacity are proposed for construction in 1951-52.

MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Budget Act Appropriation:

Design, working drawings, and specifications for initial major unit including hospital, outpatient clinic, administration and other service facilities (PWER)-----	-	\$75,000	-
Construction of first major unit to include ward buildings, administration and service facilities for approximately 150 capacity (GF)-----	-	-	\$1,945,000
TOTALS, PSYCHIATRIC HOSPITAL CLINIC, LOS ANGELES -----	-	\$75,000	\$1,945,000
<i>General Fund (GF)</i> -----	-	-	1,945,000
<i>Postwar Employment Reserve (PWER)</i> -----	-	75,000	-

49				
50	Analysis			
51				
52	Capacity on October 31, 1950 was 2,628, with 3 additional ward buildings with 1,200 additional capacity to open in January, 1951. The			
53	additional cost to complete the kitchen and food service unit, originally financed in 1950-51 is requested in 1951-52, together			
54	with certain essential minor construction, repairs, improvements, and equipment. Future budgets will plan to replace a receiv-			
55	ing and treatment building and two cottages with a new receiving and treatment building, adding 37 additional capacity.

65	PROJECT DETAIL			
66				
67	Analysis			
68				
69	This institution is planned for the maximum security unit of the department. A site has been acquired near Atascadero, plans have been			
70	completed and construction is under way for a 1,075-bed hospital. The ultimate planned capacity at this time is 1,500. Funds for the			
71	expansion to 1,500 will be requested in future budgets.

PROJECT DETAIL

Analysis

DeWitt was purchased from the Federal Government on June 25, 1946 and was made a permanent state hospital by recently enacted legislation. Capacity of the present temporary structures on October 31, 1950, was 2,851, with no capacity expansions planned in 1951-52 or future budgets. DeWitt presently houses both mentally ill and mental defective patients. Future budgets will propose plans and construction funds to eventually replace the present temporary structures with a permanent 1,500 capacity hospital for the mentally ill. 1951-52 requests only funds for essential minor construction, improvements, repairs, and equipment to maintain the hospital in an operable condition in the interim.

MINOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,
AND EQUIPMENT

Expenditures From Budget Act Appropriation:

Installation of Ward Evaporative Coolers (Final Increment):			
(GF)	-	-	\$12,725
(PWER)	-	\$12,725	-
Repairs and Replacement of Steam and Condensate Lines (Second Increment):			
(GF)	-	-	40,000
(PWER)	-	40,000	-
Roof Repairs (Final Increment):			
(GF)	-	-	17,500
(PWER)	-	17,500	-
Painting and Repairs to Buildings (Second Increment):			
(GF)	-	-	22,500
(PWER)	-	22,500	-
Improvements of bathing facilities for patients in all wards (GF)	-	6,000	23,000
Renewing of floor covering in 40 wards, hospital wards, and corridors (GF)	-	-	40,860
Improvements to vegetable and garbage facilities (GF)	-	10,000	-
Improvements to boilers (GF)	-	3,000	-
Replace hot water tanks (GF)	-	10,000	-
Repairs and improvements to drains and down spouts (GF)	-	9,000	-
Alterations, rehabilitation, minor construction and equipment (PWER)	\$8,639	403	-
Construct fire hose drying tower (PWER)	1,128	-	-
Construct paint spray booth (PWER)	3,280	-	-
Landscape grounds (PWER)	4,250	-	-
Remodel main kitchen (PWER)	9,654	-	-
Retube and standardize main boiler (PWER)	9,170	3,955	-
Repair and resurface roads (PWER)	6,375	-	-
Laundry equipment (PWER)	35,426	-	-
Alterations and improvements—main kitchen and equipment (PWER)	-	60,000	-
TOTALS, DE WITT STATE HOSPITAL	\$77,922	\$195,083	\$156,585
General Fund (GF)	-	38,000	156,585
Postwar Employment Reserve (PWER)	77,922	157,083	-

49	PROJECT DETAIL			
50				
51	Analysis			
52				
53	Capacity of this institution on October 31, 1950 was 2,397, with a decrease of 22 capacity to be effected in January, 1951 by three new ward buildings replacing the main building and two old ward capacities, and a decrease of 27 in 1952-53 by a new receiving and treatment building replacing an old similar unit and two wards. No future increased capacity is planned. Minor construction, improvements, repairs, and equipment requests only are included in 1951-52 to maintain the existing plant and prevent future deferred maintenance.

58				
59	PROJECT DETAIL			
60				
61	Analysis			
62				
63	The capacity on October 31, 1950, was 1,880 with 900 additional capacity anticipated in 1953-54 through an additional infirm ward			
64	building and receiving and treatment building to be constructed from presently available funds. Future budgets will plan for			
65	another additional 300 capacity ward building. The 1950-51 Budget contains only requests for necessary minor construction,			
66	improvements, repairs, and equipment to maintain and improve plant and grounds and to prevent future deferred maintenance.			
67				
68	REAL PROPERTY ACQUISITION			
69				
70	Purchase of additional land, approximately 20 acres, for site for			
71	additional hospital facilities (PWER)	—	\$119,914	—
72

46	PROJECT DETAIL			
47				
48	Analysis			
49				
50	The capacity on October 31, 1950, was 3,089 with additional capacity of 476 consisting of a new tubercular building and workers cottage			
51	replacing one old ward, effective March 1, 1951. Further expansion from presently available funds includes a new receiving and			
52	treatment building providing 289 additional capacity in 1952-53. Future budgets will provide for a replacement ward building adding			
53	another net capacity increase of 24. 1951-52 budget requests provide only for minor construction, improvements, repairs, and equip-			
54	ment to maintain and improve the existing plant and grounds to prevent further deferred maintenance.			
55				
56				
57	REAL PROPERTY ACQUISITION

1				
2				
3				
4				
5	Analysis			
6				
7	The capacity on October 31, 1950, was 4,054 with 57 additional capacity scheduled for February 1, 1951, by a new convalescent building replacing two other old wards. In 1952-53 a new receiving and treatment building replacing a surgical ward will add 289 additional capacity. Future budgets will contain proposed net reductions in capacity of 299 through further replacement of ward buildings. The 1951-52 Budget proposes only minor construction, improvements, repairs, and equipment to maintain and improve the plant and grounds.

4				
5	Analysis			
6				
7	Funds have been made available for the purchase of land for a site for a new mental hospital in Southern California. The San Fernando			
8	Valley is the probable location. Preliminary plans and specifications funds are requested in 1951-52 for the eventual construction			
9	of a 2,000-bed hospital, to help overcome the present overcrowding in the mental hospitals, particularly in the Southern California			
10	area.

PROJECT DETAIL

Analysis

The capacity on October 31, 1950, was 2,445, and 318 additional capacity will be added, effective in December, 1950, by seven new ward buildings and a tubercular hospital replacing various old cottages. In 1951-52, 383 additional capacity will be added by five new ward buildings replacing other old cottages. In 1952-53, a new nursery ward and addition to the hospital and receiving unit will provide a further 200 increase in capacity. All of the above are financed from presently available funds. Future budgets will propose a new security training unit for girls and five additional and five replacement wards, adding another 588 increase in capacity. 1951-52 requests are limited to minor construction, improvements, repairs, and equipment to remodel and improve the plant.

46	The site for the institution for epileptics was acquired in 1945-46. The initial units for a complete operable institution of 1,010 beds			
47	are being constructed under an allocation from the Postwar Employment Reserve. Additional capacity (500 beds) and other essential			
48	service units are being requested in 1951-52. It is also planned to convert the entire institution to house mental defective patients			
49	to assist in meeting the acute state-wide problem for patients of this type.

50				
51	PROJECT DETAIL			
52				
53	Analysis			
54				
55	The program of major construction and improvement of armories is continued where the most acute need exists. Provision has been			
56	made for nine additional armories, completion and major improvements to four armories and for plans and construction supervision			
57	for National Guard buildings and facilities to be constructed from federal funds.			
58	It is further proposed that the funds recommended for the above major construction and improvement of armories be made available for			
59	an additional number of armories if federal funds or savings become available.			
60	Minor construction and repairs provides for improvements including the elimination of a fire hazard, and for kitchen facilities in			
61	existing state armories.			
62				
63				
64	REAL PROPERTY ACQUISITION			
65

1	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS,			
2	AND EQUIPMENT			
3				
4	Analysis			
5				
6				
7	The construction and improvement of armories at the 12 below listed locations is recommended. These 12 locations represent areas in			
8	which facilities are most urgently needed. Other locations, also in need of armory facilities, are recommended to the extent grants			
9	are made available by the Federal Government or savings develop at the urgently needed locations.			
10	Provision for completion of the Long Beach Armory represents the balance of funds necessary to complete construction which was			
11	provided in part by Chapter 700, Statutes of 1949.			
12	Improvements at the existing San Francisco Armory are to provide facilities necessary for large public functions.			
13	Improvements at the Lodi Armory are for the correction of structural deficiencies and present inadequacies.			
14	Provision for the preparation of plans and supervision of construction for National Guard buildings and facilities represent State			
15	expenditures necessary to qualify for federal funds.			
16				
17	Expenditures From Budget Act Appropriation (GF):			
18

50	For constructing and equipping an office building to house the headquarters of the Department of Motor Vehicles in Sacramento. This			
51	project was originally financed from the Postwar Employment Reserve but the funds provided were reverted by Chapter 42, Statutes			
52	of 1950, Third Extra Session. It is now proposed to finance this building out of the Motor Vehicle Fund.

51				
52				
53	PROJECT DETAIL			
54				
55	Analysis			
56				
57	Real Property Acquisition provides for the expenditure of funds previously appropriated by Chapter 1422, Statutes of 1945. These			
58	funds must be matched by an equal amount or by property of equal value. It is estimated that \$1,833,000 for beaches and			
59	\$1,240,000 for parks will be expended in 1951-52. In addition provision is made in the sum of \$175,000 for acquisition of ocean shore-			
60	line property adjacent to state highways.			
61	Major Construction of \$75,000 and minor construction of \$377,495 are to provide for construction, improvement, development, and			
62	preservation of beaches and parks. No provision is made for beaches and parks which may be acquired during 1951-52.			
63	Riders' and Hikers' Trails in the amount of \$85,000 continues the state-wide trail project by acquiring rights of way and improving and			
64	constructing complete units of trails in areas where continuous rights of way have been acquired.			
65				
66				
67	REAL PROPERTY ACQUISITION			
68				
69	Analysis			
70				
71	Acquisition of ocean shoreline property adjacent to state highways and state beaches is proposed in conformity with Sections 880 and			
72	881 of the Streets and Highways Code. Additional beach and park lands are proposed and summarized below by county.			
73				
74	STATE BEACHES:			
75	Shoreline property adjacent to state highways (SBF)-----	-	-	\$175,000
76	Corona Del Mar, Newport Beach (SBF)-----	\$120,230	-	-
77	Real Property for State Beaches, Chapter 1422, Statutes of 1945			
78	(SBF):			
79	Los Angeles County-----	300,577	\$1,500,000	500,000
80	Marin County-----	-	100,000	200,000
81	Mendocino County-----	-	25,000	133,000
82	Monterey County-----	18,000	50,000	150,000
83	Orange County-----	50,159	200,000	200,000
84	San Diego County-----	50,000	100,000	50,000
85	San Francisco County-----	-	65,000	150,000
86

Wildlife Conservation Board

SUMMARY AND
RECONCILIATION WITH APPROPRIATIONSWILDLIFE CONSERVATION PROGRAM—REAL PROPERTY
ACQUISITION AND CONSTRUCTION, IMPROVEMENTS,
REPAIRS, AND EQUIPMENT

Wildlife Restoration Fund

Budget Act appropriation	\$3,000,000	\$4,170,590	\$4,014,796
Deficiency authorization	2,659,884	—	—
Total Available	\$5,659,884	\$4,170,590	\$4,014,796
Unexpended balance, estimated savings	4,326,809	1,360,003	—
TOTAL EXPENDITURES, CAPITAL OUTLAY	\$1,333,075	\$2,810,587	\$4,014,796

GENERAL ANALYSIS

It is proposed to continue the program of wild life conservation projects, using the funds previously appropriated by Chapter 1327, Statutes of 1947, for this purpose. All funds except for a small balance have been allocated by the Wildlife Conservation Board and are now in process of being expended.

PROJECT DETAIL

REAL PROPERTY ACQUISITION AND CONSTRUCTION,
IMPROVEMENTS, REPAIRS, AND EQUIPMENT

Analysis

Projects for construction of fish hatcheries, development of fishing areas, stream improvements, and water fowl and game development are summarized below:

Fish hatchery and stocking projects	\$269,857	\$1,535,252	\$837,000
Warmwater and other fish projects	—	37,000	127,500
Flow maintenance and stream improvement projects	44,951	155,410	151,702
Fish screen and ladder projects	106,574	109,910	162,504
Game farm projects	44,756	1,411	—
Upland game projects for quail habitat and pheasant development	118,626	182,529	97,000
Waterfowl projects for acquisition and improvement of feeding and shooting grounds	723,311	762,075	2,631,090
General projects of acquisition and construction	25,000	27,000	8,000
TOTAL EXPENDITURES	\$1,333,075	\$2,810,587	\$4,014,796

NOTE: For statement of Wildlife Restoration "Fund Condition" see Wildlife Conservation Board OPERATIONS BUDGET, page 633.

11				
12				
13				
14				
15				
16				
17	GENERAL ANALYSIS			
18	The capital outlay program of the Division of Forestry comprises the purchase of land for state forests pursuant to Article 6 of Chapter 2 of Division 4 of the Public Resources Code; the acquisition, construction, and development of forest protection stations to provide fire prevention and suppression on lands having state-wide interest values; and the construction and development of forestry work camps for inmates of the Youth Authority and the Department of Corrections.			
19				
20				
21				
22	REAL PROPERTY ACQUISITION			
23				
24	Analysis			
25				
26	During the current and prior fiscal years the Division of Forestry has acquired sites for forest protection stations, however in the 1951-52 Fiscal Year it is proposed that sites be leased instead of purchased, therefore no funds are recommended.			
27				
28	Purchase of Sites for Forest Protection Stations:			
29				
30	District I:			
31	Humboldt County (PWER)-----	\$5,993	-	-
32	Lake County (GF)-----	-	\$1,000	-
33	Mendocino County (PWER) (GF)-----	3,568	4,000	-
34	Sonoma County (PWER)-----	2,054	-	-
35	Napa County (GF)-----	-	1,000	-
36	Yolo County (PWER)-----	657	-	-
37	District II:			
38	Shasta County (GF)-----	-	2,500	-
39	Tehama County (GF)-----	-	800	-
40	District III:			
41	Calaveras County (PWER)-----	5,159	-	-
42	Placer County (PWER)-----	16	-	-
43	District IV:			
44	Fresno County (GF)-----	-	1,450	-
45	Kings County (PWER) (GF)-----	46	300	-
46	Madera County (GF)-----	-	1,100	-
47	Mariposa County (GF)-----	-	900	-
48	Tulare County (PWER) (GF)-----	81	500	-
49	District V:			
50	San Luis Obispo County (GF)-----	-	4,000	-
51	Santa Cruz County (GF)-----	-	2,300	-
52	Santa Clara County (PWER)-----	5,401	-	-
53	District VI:			
54	Riverside County (GF)-----	-	500	-
55	San Bernardino County (GF)-----	-	1,000	-
56	San Diego County (GF)-----	-	1,500	-
57	Totals, Sites for Forest Protection Stations-----	\$22,975	\$22,850	-
58				
59	State Forest Acquisition and Development Program:			
60				
61	Boggs Mountain Tract (GF)-----	\$38,700	-	-
62	Jackson State Forest (GF)-----	-	\$446,161	-
63	TOTAL EXPENDITURES (Real Property)-----	\$61,675	\$469,011	-
64				
65	MAJOR CONSTRUCTION, IMPROVEMENTS, REPAIRS, AND EQUIPMENT			
66				
67	Analysis			
68				
69	Major construction provides for the completion of authorized projects essential for the development of existing fire protection stations. Due to increased costs for materials and artisan labor, additional funds are necessary to complete these projects. No additional projects are proposed for 1951-52.			
70				
71	Expenditures From Budget Act Appropriation (GF):			
72				
73	Construction of Forest Protection and Service Facilities:			
74	Completion of barracks-----	-	-	\$104,815
75	Completion of mess halls-----	-	-	19,513
76	Completion of combination barracks and mess halls-----	-	-	25,407
77	Completion of equipment storage buildings-----	-	-	139,070
78	Completion of garages and warehouses-----	-	-	46,731
79	Completion of lookout towers-----	-	-	776
80	Completion of gasoline and oil storage buildings-----	-	-	14,651
81	Completion of employee housing-----	-	-	22,426
82	Completion of bridge construction-----	-	-	8,495
83	Completion of water and sewer facilities-----	-	-	2,395
84	Completion of radio repeater vaults-----	-	-	5,527
85	Engineering, planning, and inspecting-----	-	-	38,868
86

PROJECT DETAIL

Analysis

Funds are available to begin the construction of an office and laboratory building in Berkeley, adjacent to the campus of the University of California. The construction of this building will result in improved services by providing space for all headquarters offices in one building, improved laboratory facilities, and closer cooperation with the University of California School of Public Health. Additional funds are proposed to complete the financing of this building.

REAL PROPERTY ACQUISITION

General Fund

Purchase of site in Berkeley for office and laboratory building—	-	\$12,500	-
additional cost-----

RECONCILIATION WITH APPROPRIATIONS

Continuing appropriation prescribed by Section 183, Streets and Highways Code-----	\$89,149,990	\$117,608,779	\$92,755,909
---	--------------	---------------	--------------

Recapitulation of Proposed Expenditures and Obligations for Construction of State Highways for 1951-5¹
Fiscal Year, Showing Allocation of Construction Funds by County Group

EXPENDITURE CATEGORY	NORTHERN COUNTY GROUP	SOUTHERN COUNTY GROUP	TOTAL
Major Construction Projects-----	\$31,663,000	\$39,445,500	\$71,108,500
Construction Engineering-----	3,200,000	3,500,000	6,700,000
Totals, Major Construction and Improvements-----	\$34,863,000	\$42,945,500	\$77,808,500
Minor Improvements and Betterment-----	600,000	400,000	1,000,000
Rights of Way-----	9,531,000	13,325,000	22,856,000
Preliminary Engineering and Design-----	2,750,000	4,000,000	6,750,000
Contingencies-----	588,259	541,150	1,129,409
Totals, Construction of State Highways and Bridges-----	\$48,332,259	\$61,211,650	\$109,543,909
Add: Operation, Maintenance, and Insurance, San Francisco-Oak- land Bay Bridge (Current Expenses) ^b -----	1,750,000	—	1,750,000
Totals, Expenditures Subject to Allocation Under Section 188, Streets and Highways Code-----	\$50,082,259 (45%)	\$61,211,650 (55%)	\$111,293,909 (100%)

^a In addition to the amounts expended for state highways, the following amounts are paid for or on behalf of local streets and highways:

Expenditures upon city streets other than state highways (in accordance with Section 194, Streets and Highways Code)	1949-50	1950-51	1951-52
Disbursements to Counties for County Highway Construction:	\$18,169,100	\$19,506,397	\$20,856,935
Federal Funds-----	2,046,000	5,000,000	3,152,550
Contributions-----	3,450,963	2,755,270	—

^b Chapter 9, Statutes 1933, requires that expenditures for this purpose be defrayed out of construction funds allocated to the northern counties group.

^c Increased from \$6,848,778 to \$9,351,381 to reflect revision by the Department of Finance in estimated available funds as of December 28, 1950.

^d Decreased from \$5,159,238 to \$1,129,409 to reflect revision by the Department of Finance in estimated available funds as of December 28, 1950.

**Detail of Major Project Allocations for Construction of Highways and Bridges as Recommended by the
California Highway Commission for the 1951-52 Fiscal Year**

LINE	COUNTY	ROUTE	DESCRIPTION	APPROXIMATE MILEAGE	ESTIMATED COST
1			NORTHERN GROUP OF COUNTIES		
2			Bridges		
3					
4					
5					
6	Amador, El Dorado	65	Cosumnes River; bridge and approaches	0.4	\$150,000
7	Butte	3	Oroville Wye to Route 3 south of Chico (portions); structures	—	400,000
8	Butte	87	Clear Creek; bridge and approaches	0.3	45,000
9	Calaveras	65	North Fork of Calaveras River; bridge and approaches	—	70,000
10	Contra Costa	106	Herpoco Overhead; repairs	—	40,000
11	Contra Costa	107	0.2 mile south of San Ramon Creek to 0.3 mile south of Danville; widen bridge and approaches	0.5	54,000
12					
13	El Dorado	11	Trout Creek and Upper Truckee River; redeck bridges	—	55,000
14	El Dorado	23	Echo Creek; bridge and approaches	0.3	27,000
15	Fresno	76	Big Dry Creek; bridge and approaches	—	25,000
16	Humboldt	1	Gannon Slough to 0.9 mile north of Plaza Avenue; structures and approaches	—	250,000
17					
18	Lake	49	0.4 mile south of Lower Lake to 0.3 mile north of Cache Creek; structures	—	160,000
19					
20	Lassen	29	5 Long Valley Bridges; replace with culverts and fill and reconstruct cattlepasses	—	61,000
21					
22	Lassen	73	Overflow Channel Bridge; bridge and approaches	—	25,000
23	Mendocino	70	Middle Creek Bridge; grade, surface and widen bridge	0.4	34,000
24	Sacramento	11	Sacramento River Bridge (Paintersville); redeck bascule span	—	35,000
25	Sacramento	54	Cosumnes River; bridge and approaches	0.5	235,000
26	Sacramento	98	"C" Street in Sacramento to Route 3 near Swanston Road; structures	—	750,000
27	Siskiyou	46	Thompson Creek; bridge	—	40,000
28	Tehama	3	South County Boundary to Mill Race Creek; structures	—	736,000
29	Trinity	35	South Fork of the Trinity River; strengthen bridge	—	50,000
30	Yolo	6	Yolo Causeway to the Tower Bridge; grade and structures	—	520,000
31	Yuba	15	Parks Bar Bridge; repair	—	75,000
32					
33			Total, Bridges		\$3,837,000
34					
35			Highways		
36					
37	Alameda	5	Hopyard Road to 2.5 miles west of Dublin; grade, pave and structures	4.5	\$1,190,000
38	Alameda	5	San Lorenzo Creek to Castro Street; grade and surface	0.6	245,000
39	Alameda	69	Route 105 (Jackson Street) to Lewelling Boulevard; grade, pave and structures	3.7	2,799,000
40					
41	Alameda	69	Distribution Structure to South of Ashby Avenue; grade, pave and structures	1.2	2,800,000
42					
43	Alameda	69	South of Ashby Avenue to El Cerrito Overhead (portions); surface	—	130,000
44	Alameda	69	38th Street to High Street; erosion control	—	25,000
45	Alameda	226	South City Limits of Oakland to Washington Street (portions); surface	2.5	128,000
46					
47	Alameda	227	Route 75 near Lake Temescal to Route 5 (portions) Joint Highway District No. 26; grade, pave and structures (State's share)	—	300,000
48					
49	Alpine	23	Woodfords to Picketts (portions); grade, surface, and structures	1.3	140,000
50	Alpine	34	Redlake to Picketts (portions); grade and surface	2±	100,000
51	Butte	3	Biggs Road to Oroville Wye; grade and surface	6.0	120,000
52	Calaveras, Amador	65	Mokelumne Hill to Jackson (portions); grade and surface	6.0	225,000
53	Colusa	7	Arbuckle to 3 miles north; grade, surface, and structures	3±	391,000
54	Colusa	15	Colusa to Meridian (portions); grade and surface	5±	150,000
55	Contra Costa	75	0.4 mile south of the north city limits of Walnut Creek to Concord (portions); surface	3.2	148,000
56					
57	Contra Costa	75	Railroad Avenue to A Street in Antioch; grade, surface and structures	5.0	1,000,000
58	Del Norte	71	Smith River Bridge to ½ mile north of Winton Corners; surface	4.7	320,000
59	Fresno, Madera	4	Selma to Merced County Line (portions); protective screening	24.1	55,000
60	Fresno	4	Selma to Fowler—Access Rights; grade, surface, and fencing	4.6	56,000
61			Merced County Line to Mendota (portions); grade, surface, and drain- age	—	60,000
62	Fresno	41			
63	Fresno	125	Olive Avenue to Shields Avenue; grade and surface	1.5	470,000
64	Glenn	7	1.1 miles south of Walker Creek to Walker Creek; grade and surface	1.1	145,000
65	Humboldt	1	One mile south of Scotia Post Office to North Scotia Bridge; grade, surface, and structures	1.4	510,000
66					
67	Humboldt	1	Trinidad to 2.8 miles northerly; grade and surface	2.8	150,000
68	Kings	135	One mile north to two miles southeast of Corcoran; grade and surface	3.7	345,000
69	Lake	89	Middletown to Kelseyville (portions); grade and surface	—	50,000
70	Madera	4	Cottonwood Creek through Madera; surface	4.1	94,000
71	Marin	1	Myrtle Street in San Rafael to California Park Overhead (portions); grade, pave, and structures	1.3	789,000
72					
73	Marin	1	One mile north of Alto Intersection to Alto Intersection (portions); surface	0.8	122,000
74					
75	Marin	1	Waldo Channelization; reconstruct	0.3	54,000
76	Marin	1, 56	Manzanita Intersection; reconstruct	1.1	85,000
77	Mariposa	18	Rock Village to Mariposa (portions); grade and surface	5±	150,000
78	Mariposa	18	Mariposa to Brieberg (portions); grade and surface	5.7	650,000
79	Merced	4	Madera County Line to Buhach Station (portions); protective screening	11.2	25,000

**Additional Statements of Expenditures and Obligations and Revenues for 1949-50 and 1950-51 Fiscal Years,
Submitted Pursuant to Section 1432, Streets and Highways Code**

Statement 1—Comparison of proposed expenditures and obligations for the 1950-51 Fiscal Year in the current budget with proposed expenditures and obligations for the 1950-51 Fiscal Year as shown in the budget submitted to the 1950 Session of the Legislature.

Statement 2—Expenditures and obligations incurred for the 1949-50 Fiscal Year as revised to June 30, 1950 compared to budget allocations presented to the 1949 and 1950 Sessions of the Legislature.

Statement 3—Detail of major project allocations for construction of highways and bridges for the 1950-51 Fiscal Year as revised through September 1, 1950, compared to budget allocations.

Statement 4—Detail of major project allocations for construction of highways and bridges for the 1949-50 Fiscal Year as revised to June 30, 1950, compared to budget allocations presented to the 1949 and 1950 Sessions of the Legislature.

Statement 5—Expenditures and contract obligations for minor improvements, 1949-50 Fiscal Year.

Statement 6—Expenditures for general maintenance, by highway route for 1949-50 Fiscal Year.

Statement 7—Comparison of revised revenue estimates for the 1950-51 Fiscal Year with budget estimates submitted to the 1950 Session of the Legislature.

25				
26	Totals, Proposed Expenditures -----	\$126,771,092	\$160,987,146	\$34,216,054

1 Variations between original and current estimates for these items are still only estimates with the greater portion of the fiscal year still to go and do not reflect any changes in policy or program.

2 Increased expenditures for this function reflect uncompleted work carried forward from the previous fiscal year plus provision for some additional activity.

3 A supplemental schedule follows detailing changes in proposed expenditures for major construction.

4 Unexpended balance of funds made available by Section 203 of the Streets and Highways Code carried forward from the previous fiscal year.

5 Proposed expenditures for rights of way have been increased by the unexpended balance carried forward from the previous fiscal year plus additional allocations for the acquisition of rights of way in metropolitan areas.

6 Obligations to Joint Highway Districts 10 and 14 not contemplated in the original budget.

7 The balance in the Reserve for Contingencies reflects revisions made in the budget increasing estimated revenues and transfer between other budgetary functions.

8 The increase in the allotment for equipment is due in part to a carry-over of an unexpended balance from the previous fiscal year and in part to the need for replacement of equipment as shown by a study of the ages of various units.

9 Expansion of the organization of the Division of Highways to handle the increased program made possible by the Collier-Burns Act made it necessary in many cases to occupy temporary quarters pending the preparation of plans for permanent facilities. Plans have progressed to the point that it became necessary to make provision for the financing of certain of these improvements including the construction of an annex to the Public Works Building in Sacramento.

- 29
- 30 1 The saving in expenditures for Administration is due primarily to the fact that the portion of district salaries chargeable to functions
- 31 other than Administration was greater than had been anticipated.
- 32 2 Actual expenditures for maintenance closely approximated the original estimate, difference being attributable to various minor adjust-
- 33 ments.
- 34 3 Variations between actual and estimated expenditures for these functions are normal for work of this type and do not reflect any change
- 35 of program.
- 36 4 A supplemental schedule follows further detailing differences in proposed expenditures for major construction.
- 37 5 In spite of special efforts on the part of the division it has not been possible to fully expend the remaining balance of funds made
- 38 available by Section 203 of the Streets and Highways Code due primarily to the fact that plans for the work to be undertaken have
- 39 not been forthcoming from the cities.
- 40 6 Although cash expenditures for rights of way fell short of the budgeted amount, obligations on June 30, 1950, in the form of utility
- 41 relocation agreements, agreements to move improvements, and the value of condemnation suits filed, account for the greater portion
- 42 of the difference.
- 43 7 The difference in the amount of the reserve for contingencies represents the net decrease resulting from the various increases and
- 44 decreases in other budget items for the 1949-50 Fiscal Year.
- 45 8 Expenditures for equipment fell short of the estimate because of delays in the receipt of equipment on order.
- 46 9 Expenditures for buildings and plants were less than estimated due to inability to obtain completed plans soon enough to get work
- 47 under way before the end of the fiscal year.

REASONS FOR REVISIONS

- ¹ Savings—Budgeted funds in excess of project requirements.
² Additional funds required because of low budget estimates.
³ Incomplete day labor work transferred from 1949-50 budget.
⁴ Additional project made possible by additional revenue and project savings.
⁵ Additional project added as a result of safety studies.
⁶ Replacement or repair of a failed or damaged bridge.
⁷ Additional funds required because of an increase in design standards.
⁸ Transferred to 1949-50 Fiscal Year due to increased revenue and project savings in that year.
⁹ Two projects combined into one for performance under one contract.
¹⁰ Additional funds required because of the uncertainty of the international situation being reflected in bid prices.
¹¹ Additional projects for installing truck scales to curtail damage being inflicted to the roads by overloading.
¹² Additional project of emergency nature to reduce traffic hazard and public inconvenience.
¹³ Additional funds to provide for extension of project to adequately serve traffic.
¹⁴ Additional project to provide State's share of project performed in cooperation with other agencies.
¹⁵ Adjustments due to closing of prison labor camp.
¹⁶ Deferred pending further investigation.
¹⁷ Contribution funds added to budget; see detail in following tabulation.

CONTRIBUTIONS

IV-S.M-56	1 mile south of Lobitos to $\frac{1}{2}$ mile north of Lobitos (portion) J.H.D. No. 9; grade and surface -----	Construction funds -----	\$150,000
		Contribution -----	120,935
IV-SCL-5	Between 3.7 miles north of the Santa Cruz County line and 1.1 miles south of the junction of Route 42 in Los Gatos; relocation -----	Construction funds -----	118,635
		Contribution -----	1,386,692
IV-SCL-68, 114	Intersection of Routes 68 and 114; signals, lighting and channelization -----	Construction funds -----	14,346
		Contribution -----	5,449
IV-SCR-56	Respeni corner 2 miles south of Davenport, J.H.D. No. 9; grade, surface, and structures -----	Construction funds -----	56,190
		Contribution -----	56,190
VI-Ker-142	Isabella Dam site to Route 57; relocation of highway -----	Contribution -----	232,367
VII-Ora-2	Intersection of Route 2, Amerige Street and Union Avenue in Fullerton; signals -----	Construction funds -----	2,212
		Contribution -----	2,712
VIII-SBd-9	Foothill Boulevard at intersection of Sierra and Riverside Avenues; signals, lighting, and channelization -----	Construction funds -----	20,000
		Contribution -----	5,800
V-S.B-80	Tequepis Canyon to $\frac{1}{2}$ mile east of Santa Ynez River Bridge; grade and surface -----	Contribution -----	367,294

REASONS FOR REVISIONS

- ¹ Additional project made possible by additional revenue and project savings.
- ² Savings transferred from going and completed projects.
- ³ Savings from projects completed in prior fiscal year.
- ⁴ Bridge item deferred pending result of drainage correction.
- ⁵ Emergency replacement or repairs of critical or destroyed bridges.
- ⁶ Additional funds to cover increased project costs.
- ⁷ Correction of a bad seepage condition.
- ⁸ Completion of project initiated in prior fiscal year.
- ⁹ Project added to complete prior fiscal year contract construction.
- ¹⁰ Project added as a result of safety studies.
- ¹¹ Day labor work required prior to contract operations for project in 1950-51 Fiscal Year Budget.
- ¹² Project added to correct bad drainage conditions.
- ¹³ Project added to correct hazardous conditions.
- ¹⁴ Incomplete day labor project, balance transferred to 1950-51 Budget.
- ¹⁵ San Francisco-Oakland Bay Bridge project transferred to combined item.
- ¹⁶ \$8,663 transferred to 1950-51 Budget for incomplete day labor work.
- ¹⁷ \$12,984 transferred to 1950-51 Budget for incomplete day labor work.
- ¹⁸ \$678 transferred to 1950-51 Budget for incomplete day labor work.
- ¹⁹ City project not completed, balance transferred to 1950-51 Budget.
- ²⁰ Project eliminated, highway alignment revised.
- ²¹ Project deferred pending further study.
- ²² Funds in excess of work that could be placed under way made available for other projects.
- ²³ \$6,592 transferred to 1950-51 Budget for incomplete day labor work.
- ²⁴ \$10,903 transferred to 1950-51 Budget for incomplete day labor work.
- ²⁵ \$1,793 transferred to 1950-51 Budget for incomplete day labor work.
- ²⁶ Cooperative work in connection with county road improvement.
- ²⁷ Cooperative improvement in connection with irrigation district canal reconstruction.

¹ The estimate of revenues for this function has been revised on the basis of experience for the 1949-50 Fiscal Year.

² With the concurrence of the Department of Finance revenue estimates were revised on December 28, 1950, to allow for increases from the following sources: Gas tax, motor vehicle fees, transportation tax and a decrease in use fuel tax.

³ Revenue from war damage claims cannot be estimated in advance and is taken into the budget as received.

⁴ Revenue from contributions also cannot be estimated in advance and is taken into the budget as received or as agreed upon.

⁵ These revisions in federal aid contributions adjust the estimated revenues to the actual federal apportionments.

^a Contributions reported here consist of funds received or to be received other than State Highway Fund moneys, and the expenditure of these funds is reflected as an augmentation of the "Capital Outlay" section.

a For Statement of Condition of Fund, See Local Assistance Budget, Subventions for Public Works.

b Estimates of cost for this project are still tentative and under review by the Division of Water Resources, the United States Engineers and consulting engineers of the Reclamation Board. For this reason no expenditures are shown for the 1951-52 Fiscal Year.

DEPARTMENT OF VETERANS AFFAIRS

LINE	CAPITAL OUTLAY EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52
------	-----------------------------	-------------------	----------------------	---------------------

Veterans' Home of California

GENERAL CONDITION OF EXISTING FACILITIES: The recent painting and repair program at the Veterans' Home was undertaken to restore the permanent structures. Old, obsolete, and condemned buildings such as the administration building and the laundry are being replaced. The Home's bed capacity will be increased in the current and budget years by completion of a domiciliary barracks and a women veterans building. An additional convalescent unit is proposed in the 1951-52 budget as part of the planned expansion of the Veterans' Home to accommodate the waiting list of veterans desiring admission for care and treatment.

POPULATION AND CAPACITY OF VETERANS' HOME

Due to the advance in age of veterans of World War I and the great number of World War II veterans in California, the demand for hospitalization and domiciliary care will continue an upward member population trend. The future maximum membership planned for the Veterans' Home is a bed capacity of 3,250 to include 550 hospital and receiving beds, 600 chronic and convalescent beds, and 2,100 domiciliary beds.

SUMMARY OF POPULATION AND CAPACITY

Type of Capacity	Actual June 30, 1950	Estimated June 30, 1951	Estimated June 30, 1952	Estimated June 30, 1953	Estimated June 30, 1954	Estimated June 30, 1955	Estimated June 30, 1956
Population a	1,380	1,710	1,772	2,050	2,250	2,425	2,650
Bed Capacity:							
Domiciliary	1,063	1,260 b	1,316 b	1,516 c	1,516	1,716 c	1,916 c

Budget Act appropriation	\$396,450	\$857,774	-
Allocations from unified construction appropriation—Chapter 145, Statutes of 1946	6,400	585,700	-
Prior year balance available	564,295	205,045	-
Total Available	\$967,145	\$1,648,519	-
Balances available in subsequent years	205,045	-	-
TOTAL EXPENDITURES	\$762,100	\$1,648,519	-

a Veterans are admitted to the home when beds are available. A waiting list is maintained of veterans desiring admission. Because of temporary visits away from the home, normal turnover, delay in reporting after acceptance for admission, and staff recruitment upon completion of new facilities, population at a spot period of time runs slightly below capacity.

b Includes the following additional facilities currently authorized for construction or proposed in the 1951-52 Budget:

- Hospital Receiving Ward—24 beds to be available in 1950-51
 - Domiciliary Barracks—197 beds to be available in 1950-51
 - Women Veterans Building—56 beds to be available in 1951-52
 - Convalescent and Chronic Barracks—200 beds to be available in 1952-53
- c Includes the following additional facilities for which further financing will be required:
- Domiciliary Barracks—200 beds to be available in 1952-53
 - Hospital Wing and Convalescent Barracks—100 beds to be available in 1952-53
 - Domiciliary Barracks—200 beds to be available in 1954-55
 - Domiciliary Barracks—200 beds to be available in 1955-56

32	PROJECT DETAIL			
33				
34	Analysis			
35				
36	The amount appropriated for increased costs of projects will be allocated to agencies when the lowest bid on a project is in excess of the			
37	funds made available for the specific project. It is estimated that the total appropriated will be allocated to meet the increased cost			
38	of those projects proposed to be undertaken during the 1950-51 Fiscal Year.			
39	The balance appropriated for miscellaneous repairs and improvement will be allocated to agencies for expenditure during the 1950-51			
40	Fiscal Year.

a Additional for "Miscellaneous, Repair, and Improvements."

b For Long Beach State College, \$2,125,000; Riverside Liberal Arts College, \$4,339,000; and Stockton Office Building Site, \$75,000.

c Reversions, Budget Act of 1950 (Section 3.3) of appropriations for Property Acquisition.

d Chapter 42, Statutes of 1950 (Third Extraordinary Session) for increased construction costs

e Reversion of unexpended balances of expiring appropriations.

f Reversion of "Out of Sacramento" office building, \$7,258,000; and for Motor Vehicle Building, \$1,800,000.

g Return of unneeded plans money in Division of Architecture Revolving Fund duplicated in other appropriations.

h Principally the reversion of Motor Vehicle Building construction funds, \$1,434,449; Paso Robles School for Boys detention building, \$119,511; unused plans money, \$2,951,500; and Purchase of Los Angeles Workshop Building, \$761,558.

i Reversions of expiring appropriations.

j Property acquisition for Motor Vehicle buildings.

k Reversion of unappropriated PWER fund balance. Net balance in fund after specific appropriations and reversions noted above.

l Includes \$3,000 for support expenditures by Chapter 145, Statutes of 1946.

Detailed Budgets—Part III. Local Assistance Budget

SUBVENTIONS

FOR EDUCATION:

- Apportionments for Public Schools
- Vocational Education—Reimbursements to School Districts
- Child Care Centers
- Housing and Equipment for Education of Cerebral Palsied Children
- School Building Construction
- Contribution to Teachers' Retirement System
- School Lunch Program
- Free Textbooks

FOR SOCIAL WELFARE:

- Old Age Security
- Aid to the Needy Blind
- Aid to Partially Self-Supporting Blind
- Aid for Institutional Care of Needy Aged and Blind
- Aid to Needy Children
- County Administration of Assistance Programs
- Local Inspection of Homes and Agencies Caring for Aged and Children
- Reimbursements to Counties for Administration and Care of Adoptions
- Aid for County Juvenile Homes and Camps

FOR PUBLIC HEALTH:

- Aid to Local Health Departments
- Assistance to Counties for Tuberculosis Sanatoria
- Assistance to Counties for Care of Crippled Children
- Assistance to Counties for Care of Children Suffering From Rheumatic Fever and Rheumatic Heart Disease
- Assistance to School Districts for the Treatment of Cerebral Palsied Children
- Assistance to Local Agencies for Mosquito and Gnat Control
- Assistance to Local Agencies for Hospital Construction

FOR PUBLIC WORKS:

- County Roads and Highways
- Flood Control
- Sacramento Deep Water Channel
- Postwar Public Works Projects
- Veterans Housing

FOR OTHER PURPOSES:

- Salaries of Superior Court Judges
- Contributions to Judges' Retirement Fund
- County Veterans Service Officers
- County Agricultural Commissioners
- Workmen's Compensation for Disaster Service Workers
- Aid to Local Agencies for Civil Defense
- Aid to County Agricultural and Citrus Fairs

SHARED REVENUES

FOR GENERAL GOVERNMENT:

- Apportionment of Liquor License Fees
- Apportionment of Motor Vehicle License Fees (in lieu tax)

FOR COUNTY ROADS:

- Apportionment of Motor Vehicle Fuel Taxes
- Apportionment of Motor Vehicle Registration and Weight Fees

FOR COUNTY AIRPORTS:

- Apportionment of Motor Vehicle Fuel Taxes

FOR CITY STREETS:

- Apportionment of Motor Vehicle Fuel Taxes

SUBVENTIONS FOR EDUCATION

Payments to local governments from the General Fund for educational purposes in 1951-52 are estimated to increase \$8,424,570 or 3.5 percent over 1950-51. This increase is caused primarily by additional support of public schools (\$8,655,813) due to expanding enrollments, with smaller increases in child care center support to provide wage and price increases and in free textbook costs because of adoption of a new science series. In addition to this budget, future school building construction costs are being met from a \$250,000,000 bond issue authorized by Article XVI, Section 15, of the Constitution. (See "Public School Building Loan Fund," under Debt Service Section.)

Subventions from state and federal funds are granted for the following educational purposes:

SUMMARY	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
APPORTIONMENT FOR PUBLIC SCHOOLS				
General Fund	\$195,992,830	\$211,955,637	\$220,611,450	\$8,655,813

Apportionments for Public Schools—Continued

RECONCILIATION WITH APPROPRIATIONS—Continued

State School Fund

Continuing appropriation for apportionment to school districts in the amount of \$120 per average daily attendance in kindergarten, elementary, secondary, and technical schools in the Public School System during the preceding school year—Section 6, Article IX, Constitution

Less: Transfers from the General Fund

Net Total Expenditures, State School Fund

TOTAL EXPENDITURES

GENERAL ANALYSIS

Article IX, Section 6 of the Constitution fixes a minimum payment of \$120 per pupil in average daily attendance during the preceding school year for public school support. Additional funds are provided under Sections 5153 and 5153.5 of the Education Code to defray the excess cost of educating physically handicapped and mentally retarded students. A special appropriation was made in 1949-50 to meet emergency needs of school districts which were financially distressed by excessive enrollment during that current year. Continuing legislation for this purpose was included in 1950-51, together with additional funds for transportation allowances, under Section 5153.3 (a) and (b) of the Education Code.

Payments of \$223,961,450 in 1951-52 are based on an anticipated increase of 70,533 pupils in average daily attendance, or 4.10% over 1950-51.

Average Daily Attendance, Preceding School Year:

Apportionments for Kindergarten and Elementary Grades:

General support and supervision ^b

Allowance for transportation cost ^c

Allowance for excess growth ^d

Excess cost of educating physically handicapped ^e

Excess cost of educating mentally retarded minors ^f

Totals, Kindergarten and Elementary Grades

^b General support and supervision computed at \$114.92 per unit of attendance for kindergarten, elementary grades, and high school grades, and \$115 for junior college grades.

^c Allowances for transportation and reserve for emergencies computed at \$4,700,000 for 1950-51 and 1951-52, divided by grade level in accordance with actual experience in 1950-51. This total amount is established by Section 5153.3 (a) of the Education Code, and includes the amount of \$2 per unit of attendance provided prior to 1950-51 by Section 7011 of the Education Code. Section 7011 of the Education Code as amended by Chapter 74, Statutes of 1950, First Extraordinary Session, also includes transportation allowances for junior college districts commencing in 1950-51.

^d Chapter 6, Statutes of 1949, First Extraordinary Session, appropriated \$2,100,000 from the General Fund, to be apportioned to school districts in financial distress because of excessive enrollment in that year. Education Code Section 5153.3 (b) creates a continuing appropriation of \$3,350,000 for this purpose, starting in 1950-51.

^e Excess cost of educating physically handicapped estimated at \$350 per unit of attendance. Division among grade levels is based upon 1950-51 enrollments.

^f Excess cost of educating mentally retarded minors estimated at \$96 per unit of attendance. Division among grade levels is based upon 1950-51 enrollments.

25	GENERAL ANALYSIS			
26				
27	Child care centers are established where a demonstrated need is shown for the care of minor children whose parents are working, (
28	incapacitated by illness or other disability. During 1949-50, 289 centers with a total average enrollment of 12,486 children partic			
29	pated in this program.			
30	Although authority to operate child care centers from state funds expires February 15, 1951, under provisions of the Budget Act of 1950			
31	the growing seriousness of world conditions necessitates state support of these centers to assure their continuance. A deficiency appro			
32	priation is therefore proposed for the remainder of the current year, with 1951-52 expenditures to be met by Budget Act appro			
33	priation.

GENERAL ANALYSIS

Chapter 1575, Statutes of 1947, and Chapter 24, Statutes of 1948 provided a total of \$55,000,000 for school buildings in districts whose tax was within one-half cent of the legal maximum rate and whose bonded debt exceeded 95 percent of the amount permitted by law. No additional subventions for school building construction are proposed, due to the \$250,000,000 bond issue approved by the people in 1949.

GENERAL ANALYSIS

The State Teachers' Retirement System by 1951-52 will contain 121,700 active members, with an additional retired roll of 12,570 members. Since July 1, 1944, members' contributions have been actuarially sound. State contributions (equal to one-half of retirement allowances) are appropriated on a cash need each year, rather than as allowances accrued prior to retirement.

^k The State's annual contribution to the Teachers' Permanent Fund is an amount, determined actuarially, equal to so much of the benefits to be paid therefrom during the year as is not provided by the contributions for service after July 1, 1944, of members receiving such benefits plus the contributions of employing agencies during the year.

^l The State's annual contribution to the Retirement Annuity Fund is an amount, determined actuarially, equal to:

(1) The benefits to be paid during the year on account of service prior to July 1, 1944, plus

(2) So much of the benefits to be paid during the year on account of service after July 1, 1944, as is not provided by the contributions of members receiving such benefits.

General Fund

Continuing appropriation to counties for maintaining or supporting needy aged persons, prescribed by Section 2021, Welfare and Institutions Code ----- - \$112,337,300 \$116,387,700

Special appropriation to counties for aid to the aged, Chapter 8, Statutes 1949, First Extraordinary Session ----- \$43,741,139 b - -

Total Expenditures, General Fund ----- \$43,741,139 \$112,337,300 \$116,387,700

Federal Aid Funds

Federal Grants:
For old age security ----- \$31,550,768 \$96,348,100 \$100,472,600

TOTAL EXPENDITURES ----- \$75,291,907 \$208,685,400 \$216,860,300

GENERAL ANALYSIS

This is a public assistance program financed by county, state, and federal governments. Assistance is provided to persons who do not have resources in sufficient amount to meet their needs and meet certain other requirements such as age, citizenship, residence, property, etc. During the period January 1, 1949, to February 28, 1950, Article XXV of the Constitution removed the administration and accompanying financing of this program from the counties and changed the eligibility requirements. Article XXV returned the program to county administration and financial participation, and brought the age for eligibility into agreement with the federal minimum. Public Law 734 (H.R. 6000) as signed by the President increased the benefits under the Old-Age and Survivors Insurance System. This increase of benefits resulted in a decrease of the average monthly payment by the State which is reflected in the 1950-51 and 1951-52 Fiscal Years. A comparison of the total expenditures is shown on the summary schedule page 1064.

Number of Cases

At end of year ----- 267,960 281,800 292,300

Aid to Partially Self-supported Blind (Assistance)

RECONCILIATION WITH APPROPRIATIONS

General Fund

Continuing appropriation to counties for aid to partially self-supporting blind persons, prescribed by Section 3420, Welfare and Institutions Code

\$461,504 \$522,900 \$586,700

GENERAL ANALYSIS

This is a public assistance program in the form of financial help paid by the county and state governments to persons who, because of loss or impairment of sight, are unable to fully provide themselves with the necessities of life but are working on a plan for self support. This program is administered by county welfare departments and supervised by the State Department of Social Welfare. The Federal Government does not participate in this program.

8				
9	Continuing appropriation for payments to counties for medical, hos-			
10	pital, or infirmary care of needy aged and blind in county insti-			
11	tutions, Sections 2021, 3025, and 3420, Welfare and Institutions			
12	Code	\$911,617	\$1,140,500	\$1,225,000
13				
14	GENERAL ANALYSIS			
15				
16	Under the provisions of the Welfare and Institutions Code, for each person receiving assistance who is in a hospital or institution for			
17	medical care at county expense, the State's share of the assistance is paid by the State to the county. This payment is made during			
18	the period following the first two calendar months of confinement, and during the period of this payment the individual does not			
19	receive assistance payments. Chapter 1016, Statutes of 1949, for the period October 1, 1949 to February 28, 1950, changed the			
20	amount granted to the counties from the State's share to a flat \$27.50 per person, however, Article XXVII repealed this chapter.

61				
62	GENERAL ANALYSIS			
63				
64				
65	This is a public assistance program financed by county, State, and Federal Governments. The primary purpose of the program is to pro-			
66	vide family security and financial assistance for needy children, including unborn children, who are deprived of parental support or			
67	care. The program is designed to keep children in a setting of their own family and to enable parents to continue responsibility for			
68	the family living plan. If it is not possible for a child to live with his own family, the program aims to provide the best substitute			
69	care in the home of a relative, in a foster home, or in a children's institution. This program is administered by county welfare depart-			
70	ments and supervised by the State Department of Social Welfare. The eligibility standards were broadened by Chapter 889, Statutes			
71	of 1949. Public Law 734 (H. R. 6000) as signed by the President increased the federal share due to the participation for assistance			
72	to caretakers. This reduced the average monthly payment by the State for the 1950-51 Fiscal Year.			
73

19	GENERAL ANALYSIS			
20				
21	The cost of local administration of the aged, blind and children programs is borne by the county and the Federal Government. Federal			
22	funds for county administration are received by the State and forwarded to the counties on the basis of estimates submitted by the			
23	counties subject to adjustment upon receipt and audit of the counties' statements of expenditures. During the operative period of			
24	Article XXV of the Constitution this cost was borne by the State and the Federal Government. From March 1, 1950, through			
25	June 30, 1950, the counties' share of administrative costs was reimbursed by the State's General Fund from the appropriation			
26	created by Chapter 9, Statutes of 1949, First Extraordinary Session.

17				
18	GENERAL ANALYSIS			
19				
20				
21	The 1947 Session of the Legislature adopted various adoption laws which gave the State Department of Social Welfare power to			
22	license county adoption agencies to accept relinquishments and perform the home-finding and placement functions previously carried			
23	entirely by the private adoption agencies, and to investigate and report on petitions filed independently, previously the sole responsi-			
24	bility of the department. Licensed county agencies are reimbursed by the State for all the administrative costs of the adoption pro-			
25	gram, and up to \$200 per child for the costs of caring for the child following relinquishment and prior to placement not collected from			
26	the adopting parents. Counties may collect from the adopting parents a fee equal to the cost to the county for the care of the child			
27	from the time of relinquishment until placement for adoption, but not to exceed \$200.			
28	It is estimated that, during the 1951-52 Fiscal Year, licensed counties will handle approximately 6,103 adoption cases which will be			
29	subject to reimbursement. Of these cases 2,340 will be independent cases involving county administrative expense only and the			
30	remaining 3,763 cases will be relinquishments involving costs of care and county administrative expense. These estimates are based			
31	on the assumption that additional counties will be licensed as public adoption agencies.			
32	In the event that counties are not licensed as anticipated, provision has been made in the Budget Bill for transferring to the Department			
33	of Social Welfare support appropriation the amount necessary for the State to perform this work.			
34

58	GENERAL ANALYSIS			
59				
60				
61	Under the provisions of Sections 950 through 960 of the Welfare and Institutions Code, the board of supervisors of any county may			
62	establish juvenile homes, ranches or camps. Wards are committed by the juvenile courts to these facilities in lieu of commitment			
63	to the Youth Authority.			
64	Certain standards prescribed by the Youth Authority must be met by the counties before they are entitled to receive any state funds.			
65	Reimbursement to counties are made for one-half, but not in excess of \$80 per month per child. There is no limit as to the number of			
66	camps for which any one county may be reimbursed.			
67

Federal Funds

Grant-in-aid	a	\$800,713	\$800,713
TOTAL EXPENDITURES, ALL FUNDS	\$2,649,716 ^a	\$3,512,358	\$3,795,326

GENERAL ANALYSIS

These funds are allocated to local health departments which lack necessary funds to provide effective public health services. State funds are allocated to county health departments in accordance with Sections 1100-1156 of the Health and Safety Code, which provide that such health departments must comply with minimum standards established by the State Board of Public Health, and sets forth a formula for the distribution of such funds. The increase in state funds is due to an increase in population.

Federal funds available for distribution to local health agencies represent a portion of the federal grants, the remainder of which are allocated to specific public health projects carried on by the Department. In general, federal funds distributed to local health agencies are allocated in the same manner as state funds.

42				
43				
44				
45	GENERAL ANALYSIS			
46				
47	This budget provides funds for a state program for handicapped children, as authorized by Sections 249-271 of the Health and Safety			
48	Code. The code provides that whenever the parent or guardian of the child is unable to finance necessary care, a designated agency			
49	of the county shall authorize the State to furnish such services. Further, it makes mandatory that each county appropriate not less			
50	than one-tenth mill on each dollar of assessed property valuation for the purpose of financing the program. State funds are allocated			
51	to approved counties in accordance with an established distribution formula. The requested deficiency appropriation for 1950-1951,			
52	and the increase in the 1951-1952 request, are due to a general expansion of existing local programs, and to the inclusion of four			
53	counties not previously conducting approved programs. Legislative appropriations to cover this deficiency will be proposed.			
54

12				
13	TOTAL EXPENDITURES, GENERAL FUND-----	—	\$400,000	\$479,255
14				
15				
16	GENERAL ANALYSIS			
17				
18	This program was originally authorized by Chapter 1083 of the Statutes of 1949, which provided services for physically handicapped			
19	children suffering from rheumatic heart disease, and appropriated \$500,000 for this purpose, of which \$20,745 was budgeted in the			
20	State Operations Budget for administrative costs, and \$479,255 was budgeted for allocation to counties. The same amount was			
21	budgeted for subventions in 1950-51 and 1951-52. Due to the failure of county programs to develop as rapidly as expected, only			
22	\$400,000 will be distributed in 1950-51. It is expected that these programs will be further advanced in 1951-52, requiring \$479,255.			
23

39	Budget Act appropriation-----	g	\$38,592	\$86,832
40				
41				
42	GENERAL ANALYSIS			
43				
44	This budget provides funds which will permit the department to enter into contracts with local school districts for the employment of			
45	physical therapists for classes for cerebral palsied children. The department has been in the process of increasing this service as			
46	facilities become available in the public schools throughout the State. The increase requested in 1951-52 will permit the employment			
47	of 15 additional physical therapists, bringing the total financed from subvention funds to 27. An additional 79 physical and occupa-			
48	tion therapists are provided for in the support budget.

Federal Fund

Assistance for hospital construction	\$2,963,789	\$6,629,425	\$2,500,000
TOTAL EXPENDITURES, ALL FUNDS	\$5,007,377	\$9,753,469	\$4,036,910

GENERAL ANALYSIS

This program is authorized by the California Hospital Survey and Construction Act (Sections 430-435.7 of the Health and Safety Code), which provides for state participation in the federal hospital construction program. Additional state funds will not be needed in 1951-52 because the available balances in the current year's appropriation due to a decrease in available federal grants in 1950-51.

ANALYSIS OF EXPENDITURES

Assistance to local agencies in the construction of hospital and health center facilities, to be expended under the provisions of the California Hospital Survey and Construction Act. Not more than one-third from state appropriations, not more than one-third from federal grants, and the balance from local funds or other sources

General Fund	\$5,007,377	\$9,753,469	\$4,036,910

County Veterans Service Officers

RECONCILIATION WITH APPROPRIATIONS

General Fund

Budget Act appropriation	\$330,000	\$310,000	\$197,177
Prior year balance available: Chapter 1493, Statutes of 1945	173,756	173,756	153,207
Total Available	\$503,756	\$483,756	\$350,384
Balance available in subsequent year	173,756	153,207	-
Unexpended balance, estimated savings	-26,997	-	-
TOTAL EXPENDITURES	\$303,003	\$330,549	\$350,384

GENERAL ANALYSIS

In accordance with the provisions of Section 970-973 of the Military and Veterans Code, the State reimburses the counties for part of the cost of county services maintained for assistance to veterans. Reimbursements are made on the following basis:

Service officer—95 percent of salary or \$75 per month, whichever is the lesser

First assistant—80 percent of salary

All other employees—50 percent of salary

Operating expenses—95 percent or \$50 per month, whichever is lesser

Expenditures are approximately 45 percent state and 55 percent county. Fifty-four counties have established county service officers, which includes all counties except Alameda, Alpine, Los Angeles, and San Francisco.

The 1950-51 increase of \$20,549 is based on the current county budgets which include normal salary adjustments for county personnel.

The 1951-52 increase of approximately 6 percent is based on experience of the past several years.

TOTAL EXPENDITURES	\$303,003	\$330,549	\$350,384
--------------------	-----------	-----------	-----------

County Agricultural Commissioners

RECONCILIATION WITH APPROPRIATIONS

General Fund

Budget Act appropriation	\$103,242	\$102,728	\$101,260
Unexpended balance, estimated savings	-11,448	-5,214	-
TOTAL EXPENDITURES	\$91,794	\$97,514	\$101,260

GENERAL ANALYSIS

For the purpose of securing more uniform and adequate enforcement of the Agricultural Code, the State participates in the payment of the salaries of county agricultural commissioners. Such participation being limited to \$3,000 per year but not to exceed two-thirds of the total salary.

Payment to counties for salaries of agricultural commissioners as provided by Section 63.5, Agricultural Code

	\$91,794	\$97,514	\$101,260

CLASSIFICATION OF TREASURY FUNDS NOT INCLUDED IN BUDGET TOTALS

Funds in the State Treasury not included in the budget totals are those which do not contribute nor reflect expenditures of state moneys.

Such funds are grouped as follows:

1. **UTILITY FUNDS** operate under state control for the benefit of the public and derive their resources from charges to those who use the service, and are not supported from taxes or other state revenues. They are not functions subject to the regulatory or police powers of the State.

2. **WORKING REVOLVING FUNDS** are created to finance services for governmental agencies for which charges are made at cost to maintain a fixed accountability. The charges are reflected as expenditures in the budget of the agency receiving the commodity or service.

3. **INTEREST AND SINKING FUNDS** are created to accumulate moneys from transfers or investments, to be used for payment of interest and redemption of bonds. The cost of these payments is accounted as a debt service expenditure of the state fund from which such moneys are transferred.

4. **BOND FUNDS** hold proceeds from sale of bonds and finance projects for which the bonds were authorized. The cost to the State is accounted as a debt service expenditure at the time the bonds are redeemed, or interest payments are made.

5. **ASSESSMENT FUNDS** are created to finance projects for which charges are assessed against the property or individuals who are benefited by the projects.

6. **TRUST, FEDERAL, AND OTHER FUNDS** include those funds holding moneys in trust pending disbursement to trustors, moneys received from the Federal Government to be expended for specific purposes, and other funds which do not derive their resources from taxes or other state revenues, or are in the nature of transitory funds created for the convenience of accounting receipts or disbursements which are not necessarily revenues or expenditures.

Department of Education

STATE COLLEGE HOUSING FACILITIES

LINE	EXPENDITURES	ACTUAL 1949-50	ESTIMATED 1950-51	PROPOSED 1951-52	CHANGE FROM 1950-51
1	During the fall of 1946 the Federal Public Housing Administration provided temporary housing facilities for veteran students at Chico, Fresno, Humboldt, San Diego, San Francisco, and San Jose State Colleges. These facilities were operated by the various colleges by agreement with the FPHA from 1946 until October 31, 1948, at which time title to all facilities was transferred to the State by Public Law 796 of the 80th Congress, and their operations were financed through the General Fund support appropriation of the individual colleges as an interim measure.				
6	On August 1, 1949, Chapter 1485, Statutes of 1949, established the College Auxiliary Enterprise Fund, to which was transferred the excess of income over expenditures for prior operations. All rents, charges, and fees are paid into this fund, and are appropriated therefrom to the Department of Education for maintenance, repairs, and operation of student housing facilities. Funds may also be expended for construction. The facilities provide housing for veterans or other students at established rates. The units available at each college are listed below:				
11	Chico State College-----	57 family dwelling units			
12		72 dormitory units (152 individuals)			
13	Fresno State College-----	52 family dwelling units			
14		107 dormitory units (133 individuals)			
15	Humboldt State College-----	30 family dwelling units			
16		73 dormitory units (143 individuals)			
17	San Diego State College ^a -----	10 trailers			
18	San Francisco State College-----	84 family dwelling units			
19		14 dormitory units (29 individuals)			
20	San Jose State College-----	148 family dwelling units			
21					
22	Totals -----	371 family dwelling units			
23		266 dormitory units			
24		10 trailers			
25

61					
62	^a The City of San Diego also sponsors a 400-family dwelling unit project available to veterans attending San Diego State College.				
63	^b From July 1, 1948 to October 31, 1948, revenues were deposited in and expenditures made from a Treasury Special Deposit Fund by agreement with the Federal Public Housing Authority. Beginning November 1, 1948, revenues were remitted to the State General Fund and operations were financed from the support appropriations of the individual colleges. The College Auxiliary Enterprise Fund was established August 1, 1949, with the provision that prior revenue and expenditure transactions be transferred to such fund.

^a College Auxiliary Enterprise Fund established August 1, 1949, by Chapter 1485, Statutes of 1949, with a beginning balance of excess revenues over expenditures for the preceding period of operations.

Department of Industrial Relations

COMPENSATION INSURANCE FUND

The California State Compensation Insurance Fund is a self-supporting enterprise created to offer employers insurance protection at the lowest possible cost. This fund operates in competition with other insurance carriers, acting as a yardstick for the securing of fair premium rates for employers and fair treatment for injured employees. The fund is required by law to use the same rates and classifications established by the State Insurance Commissioner for insurers generally, and provides that the rates shall be only those sufficient to carry out the specific purposes stated in law.

77					
78	<i>Number of positions</i> -----	<i>176.7</i>	<i>178.4</i>	<i>181.6</i>	<i>3.2</i>
79					
80	The budget provides generally for the continuation of the existing level of service. The major portion of the increase is due to additional repairs and improvements of pier and wharf structures.				
81

Department of Veterans Affairs
DIVISION OF FARM AND HOME PURCHASES

The California Veterans Farm and Home Purchase Plan, originally created by the Legislature in 1921, permits the State Department of Veterans Affairs to assist a qualified California veteran of any war to acquire suitable farm or home property. Funds for the purchase of property are obtained through state bond issues. The amount advanced by the State for purchase of a farm or home is repaid by the veteran, at a low rate of interest, through uniform monthly payments over a period of years. Title is acquired by the State at the time of purchase and is transferred to the veteran upon completion of his purchase contract.

Office at Sacramento

7	Contributions to Employees' Retirement System	49,168	74,760	74,770	10
8	TOTAL EXPENDITURES	\$3,333,189	\$4,288,635	\$5,320,392	\$1,031,757
9	TOTAL REVENUE	\$3,753,397	\$5,408,798	\$6,820,256	\$1,411,458
10	EXCESS REVENUE OVER EXPENDITURES	\$420,208	\$1,120,163	\$1,499,864	\$379,701
11	Number of Positions	204.7	267.8	259.8	—8
12	Monthly Rate of Investment:				
13	Average Monthly Purchases	664	780	780	—
14	GENERAL ANALYSIS				
15	The total amount to be invested each month is approximately \$5,500,000 which will require the \$50,000,000 of bonds remaining unissued from the Veterans Bond Act of 1949 to be sold during the 1950-51 Fiscal Year. These bonds, together with funds currently on hand will finance the purchase of property at the rate estimated until about March 1, 1952. No provision has been made for any additional funds to be made available from bond issues yet to be authorized by the Legislature and the electorate in order to permit the continuance of an uninterrupted program of purchasing property for qualified veterans.				
16	Support				
17	Total expenditures for support in 1951-52 amount to \$1,311,618, a decrease of \$15,936 or 1.2 percent less than 1950-51. No change in the number of property purchases is estimated for 1951-52.				
18	SALARIES AND WAGES: No additional positions are provided. The increased cost of merit adjustments are estimated to be offset by increased salary savings due to anticipated recruiting difficulties in a tightening labor market.				
19	OPERATING EXPENSES: An increase of \$2,981 is due primarily to the increased cost of pro rata general fiscal administration charges.				
20	EQUIPMENT: The amount of \$26,813 is a decrease of \$19,053 from 1950-51. It includes replacement equipment in the amount of \$10,434 and additional equipment in the amount of \$16,379, and contains items for the new Napa branch office.				
21	Other Current Expenses				
22	Net bond interest expense				
23	Veteran bonds, authorized by the electorate, issued and sold have provided the funds that are used by the State to acquire properties for resale to the veterans who contract to purchase the property on a moderate amortization basis. The installment payments furnish the funds for debt service on the State's veteran bonds and expenses of operation. The program is self liquidating without cost to the State.				
24	Bond interest expense on the outstanding bonds for 1951-52 is estimated to cost \$3,934,004, an increase of \$1,047,683 over the 1950-51 Fiscal Year. This includes the additional bond interest due semiannually for a \$50,000,000 bond issue to be sold in April, 1951.

Department of Corrections
CORRECTIONAL INDUSTRIES REVOLVING FUND
PROGRAM

The Correctional Industries Revolving Fund was created by Chapter 84, Statutes 1945, to constitute a permanent revolving fund in the sum of not less than \$730,000 to be used to meet the operating expenses (including equipment) necessary in the work program of the Department of Corrections in the prisons and institutions under its jurisdiction. Moneys received from the rendering of services or the sale of products in the prisons and institutions are paid to the State Treasurer monthly for credit to the fund.

The Correctional Industries Commission, consisting of the Director of Corrections and six members appointed by the Governor, was created by Chapter 1137, Statutes 1947. Two members represent organized labor, two represent industry, one represents agriculture, and one represents the general public. Under the statute it is empowered to recommend productive industrial and agricultural enterprises in the prisons and institutions and determine the advisability and suitability of establishing, expanding, diminishing, or discontinuing any industrial or agricultural enterprise involving a gross annual production of more than \$25,000 value but less than \$225,000 value and authorize or prohibit such activity.

Work programs are under way in all institutions except the State Prison at Soledad and the Medical Facility. Industrial activities are planned for the State Prison at Soledad; however, they have not as yet materialized sufficiently for inclusion in this budget.

Activities range from farm and ranch operations at the Institution for Men, Chino, to large industrial operations such as the Jute Mill at the State Prison at San Quentin and the License Plate Factory at the State Prison at Folsom.

Approximately two thousand seven hundred inmates will be employed during the 1951-52 Fiscal Year by the Correctional Industries. A number of the inmates are paid on a sliding scale up to 10 cents per hour for productive work, in accordance with Chapter 940, Statutes 1949.

A long range plan is being developed to expand the Correctional Industries activities to provide useful employment for the anticipated increase in number of inmates.

As a part of this program, new modern equipment was installed in the furniture refinishing factory and the cannery at the California Institution for Men at Chino during the 1949-50 Fiscal Year. The majority of the products processed by the cannery are grown at the institution ranch. A dried milk packaging project is also currently being activated at this institution.

At the State Prison at Folsom, steel beds, lockers, and other cell furnishings are being manufactured for state use. Tooling and design of metal waste cans and other metal products is also in process.

Production at the jute mill at San Quentin has been greatly increased in order to fulfill a large contract for sand bags for the United States Army Engineers.

At the California Vocational Institution, Lancaster, a project was activated to manufacture tubular steel frame upholstered ward chairs for use by the Mental Hygiene institutions.

The quantity of clothing produced at the State Prison at San Quentin and the California Institution for Women at Tehachapi was vastly increased, and the quality greatly improved, by the installation of new and modern equipment during the 1949-50 Fiscal Year.

Funds have been approved and allocated for the construction of a new cannery building at the California State Prison at Folsom and a new foundry building at the California State Prison at San Quentin.

Department of Corrections

INMATE WELFARE FUND

The Inmate Welfare Fund is a fund in the State Treasury and constitutes a trust held by the Director of Corrections for the benefit, education, and welfare of all inmates of institutions and prisons under the jurisdiction of the Department of Corrections. Included in the fund are the net proceeds from the operation of canteens and hobby shops, the money and property of prisoners who escape and are not apprehended or who die without leaving heirs.

GENERAL ANALYSIS

In general the expenditures for the various activities carried on by the Inmate Welfare Fund are related to the population of the individual institutions. The increases and decreases shown above reflect the estimated populations.

	49-50 (Filled)	50-51 (Auth.)	51-52 (Auth.)			
MEDICAL FACILITY						
Analysis						
The increase of \$13,513 is generally caused by the increase in population. A \$600 increase in salaries and wages is due to the additional time required of the canteen manager. The operating expense increase of \$14,383 is caused by the increased activities due to the increase in population. The equipment total of \$1,200 is to provide for miscellaneous small items.

STATE PRISON AT SOLEDAD

Analysis

The total increase of \$48,384 is due in part to the \$2,616 for the proposed new position of prison canteen manager. The new institution and the resultant increase in population will require a full time canteen manager. \$600 overtime has been eliminated. The operating expense increase of \$41,659 is due to the expanded facility and increase in population. The equipment total of \$5,475 includes books of fiction for \$2,500 and music instruments for \$1,700.

Department of Education

STATE EDUCATIONAL AGENCY FOR SURPLUS PROPERTY

In order to assist schools in obtaining surplus property under the 40% discount program of the War Assets Administration, the Surplus Educational Property Revolving Fund was established by Chapter 95, Statutes of 1946. Under the direction of the Educational Agency for Surplus Property in the Department of Education a procurement and distribution program of Army and Navy donable equipment for vocational education was begun in 1946.

By 1947, food purchased under the federal price-support program was being distributed, and Chapter 513, Statutes of 1947, authorized the purchase of any federal property for resale to school districts. For a short time the General Fund financed the purchase of real property, but when General Fund appropriations were stopped, acquisition of real property also ceased.

In 1948, procurement of property from the War Assets Administration ended, and purchases for resale were reduced to a minimum. The program was continued, however, when Public Law 889 made all Army and Navy surplus property available to schools for any educational purpose. Distribution of food was also increased by handling school lunch act foods through this revolving fund. This commodity now represents one-third of the entire distribution program.

In 1949-50, Public Law 152 made available to schools all surplus property of any federal agency, causing an increase in volume of property handled.

All expenses of procuring, handling, and distributing surplus equipment and food are paid from this revolving fund. These costs are recovered by nominal service charges to school districts, based upon a percentage of the fair value of the commodities distributed. Any excess service and handling charges are refunded to the participating school districts at the end of each fiscal year.

Reserves are maintained in the fund sufficient to meet any unliquidated obligations, plus an amount sufficient to repay a \$100,000 working capital advance from the General Fund.

Department of Education

WORKSHOPS FOR THE BLIND MANUFACTURING FUND PROGRAM

- 1 The Workshops for the Blind Manufacturing Fund was created by Chapter 943, Statutes of 1949, by consolidating the assets and
2 liabilities of the then existing Industrial Home for the Adult Blind Manufacturing Fund, the Los Angeles Industrial Workshop
3 Manufacturing Fund, and the San Diego Industrial Workshop Manufacturing Fund. This fund constitutes a permanent revolving
4 fund, used to meet the expenses necessary in the purchase of materials and production equipment, payment of wages and sal-
5 aries and other expenses incident to the Workshop for the Blind program in the Department of Education. Moneys received from
6 the sale of products manufactured in the workshops are paid into the State Treasury monthly for credit to the fund.
- 7 The Workshops for the Blind are located at the Training Center for Adult Blind, Oakland; the Industrial Workshop for the Blind, Los
8 Angeles; and the State Blind Shop, San Diego. Activities in the workshops are many and varied, and include such items as man-
9 ufacture of brooms, mops, pillowcases, surgical drapes and wrappers, aprons, rugs, brushes, rubber mats, leather goods, and fabri-
10 cation and assembly of many products on a subcontract basis.
- 11 This program provides some training and work experience for persons who are placed in gainful employment outside the workshops,
12 and there is coordination with the Bureau of Vocational Rehabilitation of the Department of Education for this purpose. The
13 workshop program is not to be considered, however, as one of the sequential steps for the placement of blind persons in private
14 industry.
- 15 Approximately 550 blind and handicapped individuals will be employed during the 1951-52 Fiscal Year by the Workshops for the Blind.
16 The 1949 Legislature appointed a Joint Interim Committee on the State Program for the Adult Blind. The Department of Education, as
17 well as other state departments, has been working in cooperation with this committee in developing a long-range and well rounded
18 program of opportunity for the adult blind of the State.

PRINTING DIVISION

The Printing Division operates the State Printing Plant. The division does all of the printing for the various state agencies. Two of the larger activities are the printing required by the Legislature and the publication of textbooks for free distribution to the schools. The division is supported by charges made for printing services.

Office at Sacramento

PURCHASING REVOLVING FUND OPERATIONS

Budget provides for the overhead of central stores in Sacramento, San Francisco, and Los Angeles, as well as the overhead of the state garages in Sacramento, San Francisco, and Los Angeles. These operations are financed by sales of materials to other agencies. A function of Radio Maintenance was transferred from support of the Division of Communications, Department of Finance, as of January 1, 1951, and is financed by charges to other agencies for the service.

15	GENERAL ANALYSIS				
16					
17					
18	<i>Number of positions</i> -----	40.3	74.5	81.1	6.6
19					
20	Operation of the central stores is budgeted to continue at the same level for 1951-52. Expenditures of the state garages show an increase which is attributable to the transfer of positions formerly in support, Buildings and Grounds Division, and to four proposed positions necessary to staff the new state garage. The function of radio maintenance was transferred from support of the Division of Communications, Department of Finance, as of January 1, 1951, and accounts for the largest part of the increase in expenditures for 1951-52.

31					
32	Analysis				
33					
34	An increase of \$1,940 in over-all expenditures for 1951-52 is attributable to the following:				
35	Salaries and Wages reflect an increase of \$1,251 due to full year occupancy of positions filled only part of the current year;				
36	Operating Expenses show an increase of \$811 resulting from minor increases and decreases in the various sub-objects;				
37	Equipment amounts to \$1,320 and represents a decrease of \$122. Included is provision for replacement of one worn adding machine,				
38	\$277; additional marking and fram trucks, \$385; pallets for the San Francisco store, \$500.

13	STATE GARAGES						
14							
15	Analysis						
16							
17	An increase of \$23,260 in over-all expenditures for 1951-52 is attributable to the following:						
18							
19							
20	SALARIES AND WAGES reflects an increase of \$16,239 due to the transfer of two automobile mechanics, \$7,720, and one mechanics'						
21	helper, \$2,796, from support of Buildings and Grounds Division, and the following new positions effective as of December 1, 1951,						
22	to staff the new state garage: Head garageman, \$1,701; automobile mechanic, \$1,967; and two mechanics' helpers, \$2,640.						
23							
24	OPERATING EXPENSES show an increase of \$1,894 resulting primarily from transfer of expenditures from the support budget of						
25	the Buildings and Grounds Division.						
26							
27	EQUIPMENT in the amount of \$5,272, represents an increase of \$5,127, and includes provision for additional office equipment, \$512,						
28	and replacement of six automobiles, \$4,560.

9	RADIO MAINTENANCE							
10	Analysis							
11	The radio maintenance program consists of centralized maintenance service for state agencies utilizing radio equipment. This func-							
12	tion was transferred from the support budget of the Division of Communications, Department of Finance, on January 1, 1951.							
13	While the service is to be totally reimbursable, 1950-51 shows an \$88,127 nonreimbursable expenditure. This amount provides for a							
14	\$65,000 inventory of radio parts and supplies, and \$23,127 for initial equipment.

^a In accordance with the provisions of Sections 400 to 404 of the Business and Professions Code, the Business and Professions Building was constructed and is being operated by the Department of Professional and Vocational Standards as a self-sustaining enterprise. Out of the rentals received from state agencies occupying space in the building and fees paid by users of its parking facilities, are defrayed the cost of operating and maintaining the building. The remaining receipts are apportioned back to the agencies contributing to the cost of the building in proportion to their respective investments. Since the major receipts of this fund have been included as expenditures for rent in the budgets of the respective agencies occupying the building, its transactions are not carried into the budget totals.

Department of Public Works

DIVISION OF ARCHITECTURE REVOLVING FUND

Authorized by Section 14030 of the Government Code, the Division of Architecture Revolving Fund provides the Division of Architecture with a working revolving fund from which to pay the cost of architectural services and construction for state agencies. The resources of such fund consist entirely of transfers, subject to the approval of the Director of Finance, from appropriations for construction and improvements made to the several agencies. Expenditures are reported in the budgets of the agencies to which the appropriations were made. Any unexpended balance remaining after completion of a project is returned to the appropriation and fund of origin.

EXPLANATION OF ESTIMATED ACTIVITIES

The activities of the Division of Architecture are expected to continue at the present maximum effort level to fulfill the State's most urgent construction requirements as rapidly as possible. This maximum effort will reflect an increasing expenditure program during each of the 1950-51 and 1951-52 years. Detail of projects by agency for these years is to be found in the Capital Outlay Budget.

ANALYSIS OF CASH FLOW THROUGH THE DIVISION OF ARCHITECTURE REVOLVING FUND FOR THE PERIOD
JULY 1, 1950 TO JUNE 30, 1952

Balance as of June 30, 1950			\$94,462,708
Estimated amounts to be transferred to revolving fund: a			
<i>Program</i>	<i>1950-51</i>	<i>1951-52</i>	
Agriculture	\$475,330	—	
Corrections	11,966,308	\$3,164,036	
Youth Authority	6,426,705	2,159,156	
Education	27,161,136	1,906,830	
Employment	—	—	
Finance	11,391,065	3,822,588	
State Agricultural Society	—	—	
Sixth District Agricultural Association	1,494,853	1,125,462	
District Fairs	—	—	
Motor Vehicle—Highway Patrol	8,170,848	4,635,000	
Mental Hygiene	20,625,930	4,870,577	
Military Affairs	1,869,174	1,851,030	
Natural Resources	1,318,840	1,884,000	
Public Health	2,293,200	1,375,850	
Veterans Affairs	2,257,217	1,120,656	
Public Works	3,137,240	3,150,000	
Unallocated Increased Cost	15,050,347	—	
	\$113,638,193	\$31,065,185	
		\$113,638,193	\$144,703,378
Total program for 1950-51, 1951-52 period			\$239,166,086
Estimated cash balance June 30, 1952:			
Estimate of cash carry over balance representing lag between contracts in force and actual cash payment which may not be made until the subsequent year on a project progress or completion basis			\$75,310,140
Estimated cash disbursements for 1950-51 and 1951-52 period			163,855,946
1950-51 (41%)			73,855,946
1951-52 (59%)			90,000,000

a Represents amounts of capital outlay projects set forth in the 1951-52 Budget estimated to be constructed by the Division of Architecture in accordance with the requirements of the State Contract Act. The amounts exclude most equipment, minor construction projects and repair work planned to be performed under supervision of the agency. Moneys in excess of the immediate requirements of the division are invested, the income accruing as revenue to the General Fund.

LEGAL CITATIONS

The functions of the Division of Architecture are defined by Part 5, Division 3 of the Government Code and the following are the more significant provisions:

Section 14100. "The State Architect has general charge, under the department, of the erection of all state buildings * * *."

Section 14255. "Whenever provision is made by law for any project the project shall be under the sole charge and direct control of the Department of Public Works." A project is defined by Section 14254 as any construction or improvement of any state structure or improvement which will exceed \$1,000 in cost.

Section 14256. If the total cost of the project will not exceed \$10,000 the State Architect may, with the approval of the Director of Finance, authorize the agency concerned to carry out the project directly.

Sections 14270 to 14275 require full and complete plans and estimates prior to entering into any contract for a project; requires work on all projects be done under contract awarded to the lowest, responsible bidder except in the event it is found that such procedure is not in the best interest of the State; and prohibits awarding a contract in excess of the estimate.

Sections 14290 to 14402 prescribe in detail the contract procedure to be followed; including advertising for bids, qualification of bidders, award of contracts, and payment.

DEPARTMENT OF AGRICULTURE

California Dairy Industry Advisory Board

California Dairy Industry Advisory Board provides the means for the dairy industry to develop, maintain, and expand markets for California dairy products. The cost of this program is defrayed entirely from fees paid by producers and handlers of dairy products.

DEPARTMENT OF EMPLOYMENT

The Department of Employment administers the state employment service, the unemployment insurance and disability insurance systems, and acts as agent for the United States Veterans Administration in operating the veterans' readjustment allowance program of the Servicemen's Readjustment Act. The cost of administering the employment service, the unemployment insurance system and the Veterans Administration programs is financed almost entirely from federal funds. The cost of administering the disability insurance system is paid out of the Unemployment Compensation Disability Fund, which is derived from contributions by covered employees. All of these activities are classed as trust fund activities and the income and expenditures accordingly are not included in the over-all budget totals.

53					
54	GENERAL ANALYSIS				
55					
56	<i>Number of positions -----</i>	<i>4,267</i>	<i>4,610.1</i>	<i>4,605</i>	
57					
58	The expenditures from the Unemployment Administration Fund are those financed by federal grants, the amounts being allocated by the Bureau of Employment Security of the United States Department of Labor. The amounts allocated to a particular state are dependent upon work load and the over-all amount appropriated by Congress for grants to states for employment service and unemployment insurance operations. The amount estimated for 1951-52 represents the department's estimate of probable grants based upon work loads, with some increased time allowances for more thorough investigation of unemployment insurance claims. Increased man-hours are contemplated also for more intensive job placement and referral work, both in agricultural and nonagricultural employment.				
59	The disability insurance program is financed out of the Unemployment Compensation Disability Fund in the State Treasury and is subject to state control as contrasted with other activities of the Department of Employment which are financed from federal grants and therefore subject to considerable federal control. Disability insurance provides benefit payments to covered employees who are out of work because of sickness or nonindustrial injuries. Legislation in 1949 added special benefits for hospitalized cases. The expenditures proposed for 1951-52 are based upon estimated work load, principally expressed in the number of claims filed and benefit payments.				
60	When the system was established in 1946, 5 percent of the income was allocated for cost of administration. In the earlier years the 5 percent was more than was required, but as a larger portion of the work force enters the so-called "voluntary plans" insured by private insurance companies, which is permitted by the law, the relationship between state administrative costs and revenues changes. As 5 percent of the income is not sufficient at the present time for the cost of administration, it appears that some change in the law will be required.				
61	^c Trust funds, the expenditures and revenues of which are not included in the over-all budget totals.				
62	^d Grants from the Federal Government and expenditures therefrom are not included in the over-all budget totals. See Schedule 11 for summary of federal aid revenues and expenditures.				
63	^e Capital outlay expenditures are not included. See capital outlay budget for employment which follows.

35	Administrative Analysis Section						
36	Analysis						
37	The Administrative Analysis Section has as its primary functions the assistance of management in coordinating intersectional opera-						
38	tions and in analyzing the efficiency and effectiveness of designated operations and organizational units. These functions are						
39	carried out through coordination and development of procedural plans affecting more than one section or division; control of the						
40	system of manuals, notices, and forms; and by the making of administrative analyses and recommendations concerning depart-						
41	mental methods, procedures, organizations, and administrative practices.						
42	The section also acts as consultants to management on methods of operation, form design, manual preparation, and principles of						
43	organization.

2	DIVISION OF PUBLIC EMPLOYMENT OFFICES AND						
3	BENEFIT PAYMENTS						
4							
5	General Administration						
6							
7	Analysis						
8							
9	The Department of Employment is administered by the Director of Employment. He is appointed by the Governor, subject to the						
10	approval of the Senate, from the membership of the California Employment Stabilization Commission. He is appointed for an						
11	indefinite term and serves at the pleasure of the Governor. He is responsible for all phases of the administration of the California						
12	Unemployment Insurance Act, except certain quasi-judicial and quasi-legislative functions which are the responsibilities of the						
13	commission and the Appeals Board respectively. He acts as Chairman of the California Employment Stabilization Commission.						
14	The director appoints a deputy director to assist him in directing the activities of the department. The deputy director coordinates the						
15	activities of the department and makes policy and administrative determinations on matters not requiring the personal attention						
16	of the director. He acts for the director in his absence.						
17

34							
35	Fraud Investigation Section						
36							
37	Analysis						
38							
39	The Fraud and Investigation Section, created under Section 86 of the California Unemployment Insurance Act, investigates through-						
40	out the State all violations of the California Unemployment Insurance Act, to the end that the provisions of the act are more ade-						
41	quately and strictly enforced.

36							
37	Auditing Section—Field Offices						
38							
39	Analysis						
40							
41	The Field Auditing Section makes audits and investigations of employer accounts; investigates wage credit disputes; and registers and						
42	assists employers in complying with the act.						
43	As the amounts normally available for the field auditing function are substantially less than that required for proper performance of						
44	this function, additional money is requested from the Department of Employment Contingent Fund for 1951-52.

70					
71	GENERAL ANALYSIS				
72					
73	The requested appropriation will provide for the continuation of the building program started in 1948-49, when a study revealed that				
74	state-owned buildings are more economical than leased premises. Under this agency's proposed building program, all of the field				
75	operations consisting of disability insurance, field auditing, and local office staffs will be housed together, thereby enabling the				
76	department to service employers and the public more effectively and economically than in the scattered locations which are now				
77	leased by this department. The site for the department's buildings are selected after giving careful consideration to all local physi-				
78	cal and economical conditions of each community in which a building is to be constructed, including such points as proximity to				
79	employment centers, ease of access for both employers and workers, public transportation, and of the topography which has a bear-				
80	ing upon construction costs.				
81					
82	i Includes amounts of \$282,049 for unclaimed contribution overpayments, \$98,142 for insurance checks escheated, and \$69 for cashier				
83	overages in cash payment offices.				
84	j As of June 30, 1950, this amount includes \$102,968,115.85 principal and \$8,623,480.62 interest in the Unemployment Trust Fund,				
85	which is available for either unemployment insurance or disability insurance benefits. As of June 30, 1952, the same items of				
86	\$102,968,115.85 for principal and \$13,515,872.62 for interest are included.

JUDGES' RETIREMENT SYSTEM

The Judges' Retirement Fund receives contributions from the State in the amount of 2½ percent of the salaries of justices of the Supreme Court and of the district courts of appeal, and judges of the superior courts, and municipal courts. A like amount is deducted from the salaries of the justices and judges and deposited in the fund. There are now 282 members contributing to the retirement fund.

a Money advanced for plans and specifications of lease purchase buildings which will be repaid to the Department of Employment Contingent Fund by the successful bidder for construction of each of the buildings.

b A trust fund. Neither revenue nor expenditures are included in budget totals.

BOARD OF ADMINISTRATION

STATE EMPLOYEES' RETIREMENT SYSTEM—LEGISLATORS' RETIREMENT SYSTEM

The State Employees' Retirement Fund and the Legislators' Retirement Fund are trust funds maintained by the State for accumulation of contributions from the State and employee members to be used for payment of retirement benefits. In addition to state employees the system is available to other public agencies under a contractual arrangement.

^a A trust fund. Neither revenue nor expenditures are included in budget totals.

^b A trust fund established by Chapter 879, Statutes of 1947. Neither revenue nor expenditures are included in budget totals.

TEACHERS' RETIREMENT FUNDS

LINE	FUND CONDITION	ACTUAL 1949-50	ESTIMATED 1950-51	ESTIMATED 1951-52
1	The State Teachers' Retirement System is composed of approximately 121,700 active accounts. Approximately 12,570 members will			
2	receive retirement benefits during 1951-52. The present system became operative July 1, 1944.			
3	Three major funds constitute the State Teachers' Retirement System. They are the Teachers' Permanent Fund, the Retirement Annuity			
4	Fund, and the Annuity Deposit Fund.			
5	The Teachers' Permanent Fund receives its revenues from members' contributions, contributions from the local school district, interest			
6	from invested surplus, and yearly appropriations by the State from the General Fund. Retirement benefits from this fund are \$600			
7	per year.			
8	The Retirement Annuity Fund receives its revenue from members' contributions, interest from invested surplus, and yearly appropria-			
9	tions by the State from the General Fund. Retirement benefits from this fund are computed on the basis of the members' total con-			
10	tributions. Subventions are made to local retirement systems in lieu of State Teachers' Retirement System payments.			
11	The Annuity Deposit Fund consists of members' annuity deposits made between July 1, 1935 and July 1, 1944, together with the interest			
12	earned thereon. Members who have contributed to this fund receive an annuity at the time of their retirement based upon the			
13	amount deposited by the member to the Annuity Deposit Fund.

^a A trust fund. Neither revenues nor expenditures are included in the over-all budget totals.

EXPLANATION OF SUNDRY OTHER FUNDS*(For fund balances see Schedule 7)*

- BALLOT PAPER REVOLVING FUND:** Created to provide funds for the purchase of paper stock for printing ballots for state elections. The fund is reimbursed from the sale of the stock to the several counties.
- TOLL BRIDGE AUTHORITY REVOLVING FUND:** The fund was created to pay necessary expenses of the Toll Bridge Authority under the direction of the Department of Public Works in building, purchasing, or acquiring toll bridges and approaches thereto. The fund is replenished as specific toll bridges are acquired and construction funds or toll revenues become available. No activity contemplated.
- INDIA BASIN SINKING FUND:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.
- SACRAMENTO STATE BUILDING INTEREST AND SINKING FUND:** Moneys are transferred from the General Fund and interest is earned on the investment of these moneys to provide for the payment of interest and redemption of the Sacramento State Building Bonds of 1913.
- SAN FRANCISCO SEAWALL SINKING FUND NO. 2:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.
- SAN FRANCISCO SEAWALL SINKING FUND NO. 3:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.
- SAN FRANCISCO SEAWALL SINKING FUND NO. 4:** Moneys are transferred from the San Francisco Harbor Improvement Fund and interest is earned on investment of these moneys to provide for payment of interest and redemption of San Francisco Harbor Bonds.
- CALIFORNIA STATE PARK FUND OF 1927:** No further expenditure to be made from this Bond Fund.
- SAN FRANCISCO SEAWALL NO. 3 (Bond Fund):** No further expenditure to be made from this Bond Fund.
- SAN FRANCISCO SEAWALL NO. 4 (Bond Fund):** All the authorized bonds have not been sold to date. No estimate has been made of the probable future sale of these bonds nor the construction of the projects from the proceeds of the sale.
- STATE BUILDING AND UNIVERSITY BUILDINGS, 1925 BOND FUND:** No further expenditure to be made from this Bond Fund.
- STATE SCHOOL BUILDING LOAN FUND:** The sale of these bonds has not been authorized to date; however, it is estimated that 50 million dollars will be sold during the 1949-50 Fiscal Year. No estimate has been made as to when advances will be made to school districts from the proceeds of the sale.
- | | |
|---|--|
| SACRAMENTO-SAN JOAQUIN DRAINAGE DISTRICT FUND NO. 1: | { These assessment funds are no longer active, inasmuch as the Sacramento-San Joaquin flood control project for which these funds were collected has been made an obligation of the General Fund and the Flood Control Fund of 1946. |
| SACRAMENTO-SAN JOAQUIN DRAINAGE DISTRICT FUND NO. 3: | |
- ABANDONED PROPERTY FUND:** Consists of amounts paid to the State by banks, building and loan associations, savings unions, and credit unions from accounts remaining inactive for 20 years or more. Proceeds from the investment of the fund are paid into the School Fund and used for the support of the common schools.
- DISSOLVED SAVINGS BOND FUND:** Balance remaining of amounts paid to the State by dissolved savings banks, trust companies, and banks under the provisions of Chapter 190, Statutes of 1891. This act became inoperative in 1909. The fund is invested in bonds and the interest earned is credited to the General Fund.
- ESTATES OF DECEASED PERSONS FUND:** The fund contains the balances of the estates of deceased persons not distributed to known heirs. The fund is invested and the interest accrues to the School Fund.

MONTAGUE WATER CONSERVATION DISTRICT CONDEMNATION FUND: There remains a balance of \$48 from a deposit of \$29,054 under court order in 1932. The district condemned land in Siskiyou County and was required to make the deposit in order to obtain possession of the land.

PUBLIC BUILDING RECONSTRUCTION FUND: Contains the unexpended remainder of federal funds advanced to the State for replacement and reconstruction of public buildings destroyed by earthquakes since January, 1933. The fund is reimbursed for any amounts advanced and returned to the Federal Government. There is no current activity in this fund.

RECEIVERS FUND: Consists of an accumulation of deposits made by receivers of funds belonging to persons whose whereabouts were unknown to them. No current activity in this fund.

SAN FRANCISCO-OAKLAND BAY BRIDGE CONSTRUCTION FUND: Consists of the remainder of the proceeds received from the sale of the revenue bonds sold for the building of the San Francisco-Oakland Bay Bridge. The current receipts are from sale of property or equipment and the disbursements are for a traffic safety survey.

SCHOOL LAND FUND: A nonexpendable endowment fund for public school purposes. Revenues consist of payment of principal and purchase price on sale of school lands. The interest received on the investment of this fund is deposited in the School Fund.

SCHOOL LAND DEPOSIT FUND: Consists of deposits made by applicants for purchase of school lands. Balance consists of applications not yet acted upon. There is no current activity in this fund.

SPECIAL DEPOSIT FUND: Accumulation of numerous trust funds deposited by state and private agencies for a specific purpose. This fund also contains unclaimed checks and deposits pending either payment to the proper persons or transfer to the General Fund. There is impounded oil royalties held pending final decision of ownership of marginal sea lands. The transactions of this fund are so numerous and so indefinite that no attempt is made to estimate the volume that will flow through the fund.

STATE PARK CONTINGENT FUND: Receives moneys from gifts, bequests, from municipal or county appropriations, or donations, for improvements, additions or administration of the State park system. The amounts received are disbursed in accordance with the provisions of the donations.

SURPLUS MONEY INVESTMENT FUND: Moneys in the various special funds which are not currently needed are declared surplus and transferred to this fund where they are available for investment. The money is returned to the special funds when needed. The interest received is shown as revenue for the General Fund, Fish and Game Preservation Fund, Motor Vehicle Fund, and Motor Vehicle Fuel Fund.

As the transactions of this fund involve the purchase and sale of securities as well as receipts of surplus moneys and disbursement of interest earned, no estimate is made of the volume of such transactions.

TAX DEED LAND RENTAL TRUST FUND: Receipts are derived from leases made by the State Controller covering property deeded to State for taxes. The rentals are paid semiannually to the county in which the property is located for distribution to the taxing agencies.

TEACHERS' RETIREMENT DISBURSEMENT FUND: This is a fund used for the convenience of accounting for disbursements for teachers' retirement benefit payments. Moneys are transferred to this fund from the Teachers' Permanent Fund and the Teachers' Retirement Annuity Fund.

TORRENS TITLE ASSURANCE FUND: Fund contains unexpended balance of fees and investment income of $\frac{1}{100}$ of 1 percent of assessed value of land and improvements insured under the Torrens Title Assurance Act. An outstanding judgment against the fund exceeds the assets of the fund. There is no current activity in the fund.

WAR BOND FUND: Contains funds withheld from employees salaries for purchase of United States War Bonds. Balance represents amounts due employees who have not filed proper claims for refunds since the program was discontinued.
